CAREER COUNSELLING PROGRAMME 2023-2024
REPORT

Venue: PRIST Seminar Hall, PRIST Deemed to be University.

Date: 21.02.2024

Department of Mathematics organized Career Counselling Program on the "Developing Interpersonal skills" on 21.02.2024. The program began with the invocation followed by the welcome address by Dr. S. Subramaniam Head of Department of Mathematics.

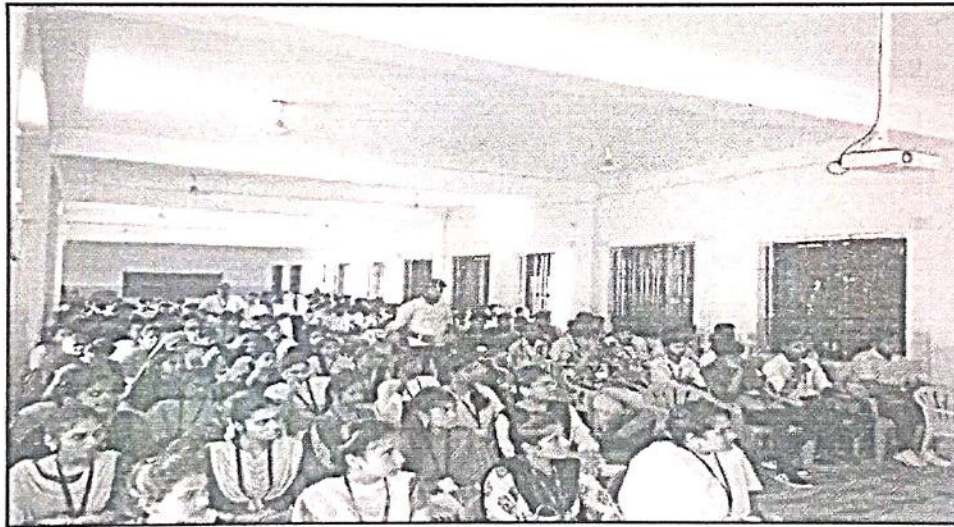

Dr.S. BUVANESWARI, Associate Professor Periyar Maniammai University, Thanjavur, was the resource person. She discussed with the students that Career Counselling Program. The program aimed to equip students with essential soft skills that complement their academic knowledge and enhance their career prospects. Effective interpersonal skills are crucial in the professional world, especially in roles that require teamwork, leadership, communication, and problem-solving. Every Student gave good response to this interactive session. The programme ended with the vote of thanks delivered by Dr. R. Abirami, Assistant professor of Mathematics

**SCHOOL OF COMMERCE AND MANAGEMENT
CAREER DEVELOPMENT
FUTURE OCCUPATION 2023-2024**

The department of Commerce conducted Career Development programmed for the under graduate and post graduate students on 15.09.2023. The programmed was led by **Prof.K.Sathya** . The Career Counselling and Future Occupations Program was conducted with the primary aim of equipping college students with the knowledge, skills, and resources necessary to make informed career decisions. This program focused on bridging the gap between academic learning and industry demands by providing students with insights into emerging job roles and future occupations shaped by advancements in technology, business, and sustainability. The program included a series of workshops, skill development sessions, and one-on-one counselling to ensure a holistic approach to career readiness.

The program was carried out in multiple phases, beginning with a pre-assessment survey to identify students' career interests, skills, and knowledge gaps. This was followed by a series of career awareness workshops on topics such as "The Future of Work," "Emerging Occupations in Technology and AI," and "Sustainable Careers of the Future." Students participated in interactive sessions, where they explored careers in fields like artificial intelligence, data analytics, healthcare, renewable energy, and digital marketing. Emphasis was placed on the importance of adaptability and continuous learning in response to technological changes and industry disruptions.

In addition to workshops, students attended skill development sessions aimed at enhancing essential employability skills such as critical thinking, problem-solving, communication, and teamwork. They also received training on job search techniques, including resume writing, interview preparation, and networking strategies. Personalized one-on-one counselling sessions were held to offer tailored guidance to students, helping them align their career choices with their individual strengths, interests, and value

SCHOOL OF COMMERCE AND MANAGEMENT CAREER DEVELOPMENT ONLINE TRADE 2023-2024

The department of Commerce conducted Career Development programmed for the under graduate and post graduate students on 07.03.2024. The programmed was led by **Prof.S.GAYATHIRI**. The program was carried out in multiple phases, beginning with a pre-assessment survey to identify students' career interests, skills, and knowledge gaps. This was followed by a series of career awareness workshops on topics such as "The Future of Work," "Emerging Occupations in Technology and AI," and "Sustainable Careers of the Future." Students participated in interactive sessions, where they explored careers in fields like artificial intelligence, data analytics, healthcare, renewable energy, and digital marketing. Emphasis was placed on the importance of adaptability and continuous learning in response to technological changes and industry disruptions.

**PONNAIYAH RAMAJAYAM INSTITUTE OF
SCIENCE & TECHNOLOGY (PRIST)**

**Declared as DEEMED-TO-BE-UNIVERSITY
U/s 3 of UGC Act, 1956**

In addition to workshops, students attended skill development sessions aimed at enhancing essential employability skills such as critical thinking, problem-solving, communication, and teamwork. They also received training on job search techniques, including resume writing, interview preparation, and networking strategies. Personalized one-on-one counselling sessions were held to offer tailored guidance to students, helping them align their career choices with their individual strengths, interests, and value.

COMPETITION EXAM COACHING CLASSES(10.08.2023)**

The Competition Coaching Classes were organized with the Department of Commerce providing students with the PROF.K.SASIKUMAR Asst.Professor Govt.exam syllabus explained. The program aimed to create a structured learning environment that would enhance students' problem-solving abilities, time management, and exam-taking strategies. The coaching sessions were conducted by experienced subject experts and mentors, ensuring a high level of academic support and motivation for the students.

The classes were structured into multiple modules, covering core subjects such as Mathematics, Science, Reasoning, and General Awareness, depending on the type of exam the students were preparing for. Each module was divided into conceptual learning, practice sessions, and mock tests. Daily practice assignments and weekly assessments were conducted to track students' progress and identify areas for improvement. Special attention was given to difficult concepts and frequently asked questions in exams, with students receiving tips and shortcuts to solve complex problems efficiently.

PONNAIYAH RAMAJAYAM INSTITUTE OF SCIENCE & TECHNOLOGY (PRIST)

**Declared as DEEMED-TO-BE-UNIVERSITY
U/s 3 of UGC Act, 1956**

In addition to academic learning, students were also provided with guidance on stress management, goal setting, and exam-day preparation. Regular motivational sessions and career guidance workshops were held to keep students focused and motivated throughout the program. Online and offline learning resources, including video lectures, e-books, and test series, were made available to ensure continuous learning.

The outcome of the program was highly positive, with many students demonstrating significant improvement in their performance. The mock tests helped them gain confidence, reduce anxiety, and become familiar with the exam pattern and time constraints. Feedback from students and parents highlighted the effectiveness of the coaching classes in improving conceptual clarity and boosting exam readiness. Many students reported an increase in their test scores, which brought them closer to achieving their career goals.

U/s 3 of UGC Act, 1956

The outcome of the program was highly positive, with many students demonstrating significant improvement in their performance. The mock tests helped them gain confidence, reduce anxiety, and become familiar with the exam pattern and time constraints. Feedback from students and parents highlighted the effectiveness of the coaching classes in improving conceptual clarity and boosting exam readiness. Many students reported an increase in their test scores, which brought them closer to achieving their career goals.

**DEPARTMENT OF ENGLISH
TRAINING FOR COMPETITIVE EXAMINATION-
PREPARE STUDENTS FOR THE STAFF SELECTION COMMISSION (SSC) EXAMS –
2023-24**

Department of English organized Guidance for Competitive Examination- Prepare students for the Staff Selection Commission (SSC) Exams on 24.01.2024 for UG & PG students to attain the following objectives:

- Provide a comprehensive overview of the SSC exams, including eligibility, exam pattern, and syllabus.
- Develop a strategic approach for preparing for SSC exams, with a focus on key areas such as reasoning, quantitative aptitude, general awareness, and English comprehension.

Dr.R.Iniyavan, Head the Department of English gave a welcome address. M.Thamizhmani, Assistant Professor of English and Ms.S.Santhiya, Assistant professor of English were the resource person. Students were motivated to write all the Aptitude Test. Through interactions they were made aware of their individual skills. The training was given on various topics such as reasoning, general knowledge, numerical ability, handling aptitude questions, English and clerical ability. Participants were benefitted.

Outcome:

- Students gained a detailed understanding of the SSC exam pattern, syllabus, and important topics to focus on.
- Gained knowledge on how to tackle competitive examinations.

REPORT

Venue: PRIST Seminar Hall, PRIST Deemed to be University

Date: 13.03.2024

The Department of Mathematics, School of Arts and Science, is organizing a Coaching Program for students preparing for the National Eligibility Test (NET) and State Eligibility Test (SET) on 13th March 2024. The initiative aims to provide specialized training and guidance to help students succeed in these prestigious examinations. The NET and SET are crucial for those pursuing careers in academia, and this programme will equip students with the necessary tools and techniques to excel in these competitive exams. Every Student gave good response to this interactive session. The programme ended with the vote of thanks delivered by Dr. K.Sangeetha, Assistant professor of Mathematics.

TRAINING FOR COMPETITIVE EXAMINATION-
Mastering NET & SET: Comprehensive Coaching for Success 2023-24**

Department of English organized Guidance for Competitive Examination- Mastering NET & SET: Comprehensive Coaching for Success on 02.08.2023 for UG & PG students to attain the following objectives:

- To offer comprehensive guidance on the syllabus and pattern of NET and SET exams.
- To enhance conceptual understanding and subject-specific knowledge.

Dr.R.Iniyavan, Head the Department of English gave a welcome address. Dr.D.Ravikumar, Associate Professor of English and Ms.K.Jayapriya, Assistant professor of English were the resource person. Students were motivated to write all the 'Through interactions they were made aware of their individual skills. The training was given on various topics such as Overview of SSC Exams, general knowledge, numerical ability, handling aptitude questions, English and clerical ability. The session provided practical strategies and insights into the most competitive exams in India. The programme addressed key aspects of the SSC exams, from syllabus coverage to exam strategy and stress management.

Outcome:

- Gained knowledge on how to tackle competitive examinations.
- Enhanced Understanding of NET & SET Exam Pattern and Syllabus

SCHOOL OF COMMERCE AND MANAGEMENT CAREER DEVELOPMENT FUTURE OCCUPATION 2023-2024

The department of Commerce conducted Career Development programmed for the under graduate and post graduate students on 13.11.23. The programmed was led by Prof.K.SASIKUMAR. The Career Counselling and Future Occupations Program was conducted with the primary aim of equipping college students with the knowledge, skills, and resources necessary to make informed career decisions. This program focused on bridging the gap between academic learning and industry demands by providing students with insights into emerging job roles and future occupations shaped by advancements in technology, business, and sustainability. The program included a series of workshops, skill development sessions, and one-on-one counselling to ensure a holistic approach to career readiness.

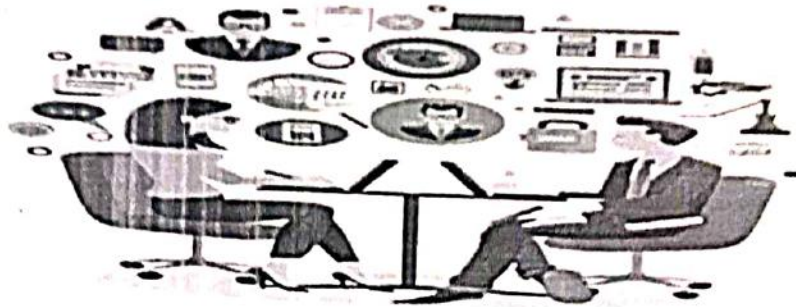

The program was carried out in multiple phases, beginning with a pre-assessment survey to identify students' career interests, skills, and knowledge gaps. This was followed by a series of career awareness workshops on topics such as "The Future of Work," "Emerging Occupations in Technology and AI," and "Sustainable Careers of the Future." Students participated in interactive sessions, where they explored careers in fields like artificial intelligence, data analytics, healthcare, renewable energy, and digital marketing. Emphasis was placed on the importance of adaptability and continuous learning in response to technological changes and industry disruptions.

In addition to workshops, students attended skill development sessions aimed at enhancing essential employability skills such as critical thinking, problem-solving, communication, and teamwork. They also received training on job search techniques, including resume writing, interview preparation, and networking strategies. Personalized one-on-one counselling sessions were held to offer tailored guidance to students, helping them align their career choices with their individual strengths, interests, and value.

Emerging Sectors and Roles

- 1. Technology and AI:**
 - Data Analyst / Data Scientist
 - Machine Learning Engineer
 - Cyber security Specialist
- 2. Healthcare and Biotechnology:**
 - Genetic Counsellor
 - Healthcare Data Analyst
 - Biomedical Engineer
- 3. Sustainability and Green Careers:**
 - Renewable Energy Technician
 - Environmental Consultant
 - Climate Change Analyst
- 4. Business and Finance:**
 - Financial Technology (FinTech) Specialist
 - Blockchain Developer
 - Sustainability Consultant
- 5. Creative Industries:**
 - Digital Marketing Specialist
 - UX/UI Designer
 - Content Strategist

In addition to academic learning, students were also provided with guidance on stress management, goal setting, and exam-day preparation. Regular motivational sessions and career guidance workshops were held to keep students focused and motivated throughout the program. Online and offline learning resources, including video lectures, e-books, and test series, were made available to ensure continuous learning.

The outcome of the program was highly positive, with many students demonstrating significant improvement in their performance. The mock tests helped them gain confidence, reduce anxiety, and become familiar with the exam pattern and time constraints. Feedback from students and parents highlighted the effectiveness of the coaching classes in improving conceptual clarity and boosting exam readiness. Many students reported an increase in their test scores, which brought them closer to achieving their career goals.

SCHOOL OF COMMERCE AND MANAGEMENT DEPARTMENT OF MANAGEMENT COMPETITION EXAM COACHING CLASSES

The Competition Coaching Classes were organized with the Department of Commerce providing students with the PROF.V.RAJAN Asst.Professor Govt.exam syllabus explained. The program aimed to create a structured learning environment that would enhance students' problem-solving abilities, time management, and exam-taking strategies. The coaching sessions were conducted by experienced subject experts and mentors, ensuring a high level of academic support and motivation for the students.

The classes were structured into multiple modules, covering core subjects such as Mathematics, Science, Reasoning, and General Awareness, depending on the type of exam the students were preparing for. Each module was divided into conceptual learning, practice sessions, and mock tests. Daily practice assignments and weekly assessments were conducted to track students' progress and identify areas for improvement. Special attention was given to difficult concepts and frequently asked questions in exams, with students receiving tips and shortcuts to solve complex problems efficiently.

COMPETITION EXAM COACHING CLASSES**

The Competition Coaching Classes were organized with the Department of Commerce providing students with the PROF.S.GAYATHRI Asst.Professor Bank exam syllabus cover core subjects such as Mathematics, Science, Reasoning, and General Awareness, depending on the type of exam the students were preparing for. Each module was divided into conceptual learning, practice sessions, and mock tests. Daily practice assignments and weekly assessments were conducted to track students' progress and identify areas for improvement. Special attention was given to difficult concepts and frequently asked questions in exams, with students receiving tips and shortcuts to solve complex problems efficiently.

In addition to academic learning, students were also provided with guidance on stress management, goal setting, and exam-day preparation. Regular motivational sessions and career guidance workshops were held to keep students focused and motivated throughout the program. Online and offline learning resources, including video lectures, e-books, and test series, were made available to ensure continuous learning.

ACADEMIC TECHNICAL FEST 2023-2024

“EXPLORE MATH WITH MIND CRAFTING”

REPORT

Venue : A- Block Seminar Hall

Date : 08.08.2023

The Department of Mathematics organized a Technical fest entitled “Explore math with mind crafting” on 08.08.2023. The program began with the invocation followed by the welcome address by **Dr. M.Gayathri**, Assistant professor of Mathematics. **Dr. SenthilKumar**, Assistant Professor, Department of Mathematics, Raja Serfoji Government College, Thanjavur was the resource person. He discussed with the students that the Self-esteem underscores confidence in one’s beliefs and values. It emerges from attitudes that a person develops towards something, which could be a personal vision such as career objectives, lifestyles, and other personal responsibilities.

Every Student gave good response to this interactive session. The program ended with the vote of thanks delivered by **Dr. S. Subramaniam**, Head of Department of Mathematics.

PRIST UNIVERSITY
School of Education
Career Counselling Program on Technical training
(01st September 2023 to 3rd September 2023)

About the Department

The School of Education was established in the year 2008 in our esteemed institution with experienced and efficient faculty members. Since School of Education plays a vital role in all branches of education, all faculty members of our department put all possible efforts to make the future teachers very efficient and excellent in all walks of their career. We are following a wonderful system to achieve this goal as per the advice and guidance from our Chairman, Vice-Chancellor, Registrar, Dean and Managers. Also the Department of Education acts as the Local Examination Cell and the staff members are un-tiredly working for the smooth functioning of the Department activities.

Our department believes in activity based teaching and students are enhanced by us to improve their language skills. The art of teaching and learning process will lead the students to practice English by constant speaking. Students are being given practice for their progress in career advancement. Our department works tirelessly for PRIST University results and also for professional progression. Training & Placement course and literary club activities are rendered in our university to make the students adorable.

About the Program

- Individuals pursuing a career as counsellors benefit from specialized training in career guidance. These courses enhance their counselling skills, enabling them to guide others effectively in making informed career decisions.
- Duration of this program days (01/09/2023 to 03/09/2023)

Objectives of the Program

The program covers topics such as:

- Occupational information
- Career transitions
- Resource materials
- Techniques for working with individuals and groups
- Skills for using assessment tools.

Benefits of Clearing Technical training

- Technical training can help graduates become more sought after by employers due to their specialized skills and hands-on experience.
- Technical training can help people adapt to changes in technology and industry practices, keeping their skills relevant and in demand.

About the program

An Entrepreneurship Development Program (EDP) is a structured initiative aimed at equipping individuals with the knowledge, skills, and mindset required to start, manage, and grow their own businesses. Such programs are often organized by governments, educational institutions, non-profits, and private organizations to promote entrepreneurial activity, foster innovation, and create employment opportunities.

Entrepreneurship Development

Entrepreneurship development is basically the process of improving the skill set as well as the knowledge of the entrepreneurs. This can be done through various methods such as classroom sessions or training programmes specially designed to increase the entrepreneurial acumen.

Selecting the Potential Targets

It is important to select the potential targets who are willing to enhance their skills and who can be identified as the people who have some amount of business acumen. These can be further divided into two categories- the educated target audience and the uneducated target audience.

Educated audience refers to the target people who have a decent educational background and want to be entrepreneurs. These people have the motivation to put their education to use by starting a venture and working for themselves.

Uneducated audience refers to the people who are not as privileged as others in terms of education about the market and have the potential to become entrepreneurs. These people are constantly looking for alternative ways to earn money and support their families. Therefore they are highly motivated and, given the right training and direction, can prove to be exceptional entrepreneurs.

Identifying Local Talents and Markets

The process of entrepreneurship development program can be seen as most effective and efficient when it is applied in the local markets and on the local entrepreneurs who know about it. These people understand and absorb the knowledge way more quickly and can apply it in the current scenario because of which the results of the program can be seen more quickly and effectively.

Choosing the Right Location

In India unfortunately, these programs can only be launched where support institutions and resources are available, but ideally, these programmes should be planned and launched in the

areas where most people are interested and willing to take advantages of these programmes so that this opportunity can be used most effectively and there is no loss of resources.

Learn more about the Role of Entrepreneurs with Relation to Enterprise here

Tying up with Institutions

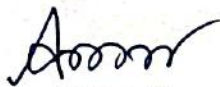

A lot of times these programmes involve tying up with various institutions like universities, NGO and some private institutions. This is done to give a real-world experience to assist the program and give the people some idea of the situations in the real world.

Develop the Entrepreneurship Program as Needed

People and their skill sets are different and develop over time. Thus, it is very important to keep developing the programs to suit the needs of the people enrolled in it. Moreover, the focus must be on harnessing their strengths and working to minimize their weaknesses.

Analyze the Result for Future Development

This is a very important and final step in the process of entrepreneurship development. After the program has run its course, it is very important to analyze the effectiveness of the program. This is necessary to ensure that in future more effective programs can be developed. For this one has to minimize the shortcomings of the existing program.

SUB: One day Workshop on Career counselling conducted by School of Agriculture

It is informed that conducting a program on career counselling on Landscape Designing be arranged by the School of Agriculture on 15.02.2024 for the academic year 2023 to 2024. Heads of the departments are requested to inform their students about the Career counselling and motivate them to attend the program. HODs are also requested to nominate one faculty member to coordinate the same.

SCHOOL OF AGRICULTURE

About the program

Landscape design courses teach students how to create outdoor spaces that are visually appealing and practical. Courses cover topics such as plant selection, soil sampling, and drawing techniques. They also teach students how to integrate elements to create a strong design solution.

PRINCIPLES OF LANDSCAPING

The importance of landscaping is now realized by every one in the world. The gardens serve the purpose of public recreation by refreshing the body and the mind. They are virtually a retreat for the public from the harsh strains and stresses of public life.

Landscaping is done with a view to create a natural scene by planting of lawn, trees and shrubs. It is the imitation of nature in the garden and improves the total living environment of the people. We live in a vast planet which is characterized by different types of landscaping depending upon prevailing geographical and agro-climatic conditions. There are mountains, hills, glens, valleys, seas, rivers, forests, plains, deserts, lakes, swamps, streams etc. which comprise major part of natural landscape. Man has copied the natural elements for improving landscape around him and converted certain areas in the form of garden for his pleasure.

Basic Principles

Before actually drawing the master-plan, the following points should be kept in mind in home landscaping.

- (a) Background: The background in a garden, whether a wall, tall trees or a hedge should be neutral in nature; that is to say this should not become a distracting feature over the main features of the garden.
- (b) Contrast: The design should be such that it should break monotony. To achieve this, a variation in form, texture, or colour has to be brought in.
- (c) Balance or Proportion: A balance has to be maintained between different components (masses, forms, colour, etc.) of a garden. In a formal garden, this is achieved by balancing the quantity or by objects, whereas in an informal garden this can be achieved by planting a small mass of colour in front of a large neutral mass. Overcrowding of plants or other garden features should be avoided.
- (d) Open Centre: The central area of the garden should be left out of any items of major interest. The best way to achieve this is to have a lawn, which also gives an effect of openness to the property. A specimen shrub in the centre of the lawn is unsuitable as this

counters the principle of spaciousness, but a tree branching at higher levels from the ground could be planted.

(e) Repetition: The repetition or duplicating some features of a garden helps achieve rhythm, balance, and unity. In a formal garden, generally the same feature is repeated. But for an informal design this need not be so. Here one may repeat the colour tone without disturbing the texture, form, or quantity. If there is a circular path this can be repeated by having two or three consecutive circular shaped beds of annual flowers, hedges, and shrub-berry border. Thus, though the shape is repeated, the variation in texture, colour, and form ensure that the design does not look monotonous.

(f) Rhythm: A landscape designer should have an artistic sense to understand how to bring in rhythm in the design. Arranging the different elements haphazardly, without harmony, does not enhance beauty. Harmonious lines, often artistically curved, bring in rhythm to the landscape. A group of shrubs in front of a rockery breaks the rhythm. Repetition of certain elements, such as form, enhances the rhythm.

(g) Variety: To break the monotony in a garden, variety is essential. This is achieved by contrast of colour, form, and texture. Planting of different seasonal flowers all in red colour, does not necessarily mean variety.

CIRCULAR

Ref: PRIST/CVL/2023-2024/ODD/04

Date: 09.08.2023

SUB: GATE – 2024 Coaching Class – Reg

It is informed that GATE-2021 Coaching class will be started on 14.08.2023 for the academic year 2023-2024. The detailed schedule will be given by the departments.

Heads of the departments are requested to inform their students about the GATE-2023 Coaching class and motivate them to attend the class.

HOD's are requested to nominate one faculty member to co-ordinate the GATE Coaching class.

CIRCULAR

SUB: GATE– 2024 Coaching Class – Reg

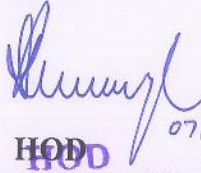

It is informed that GATE– 2024 coaching class will be started on 14.08.2023 for the academic year 2023-2024. The detailed schedule will be given by the departments.

All faculties are requested to inform their students about the Gate – 2024 Coaching class and motivate them to attend the class.

Each faculty member to co-ordinate the GATE Coaching class.

Venue : Lecture hall 2.

Timing : 1.30 P.M to 4.00 P.M

07/08/2023

**GATE-2024 syllabus for MECHANICAL
ENGINEERING (TECHNICAL SUBJECTS)**

Subject	Added New Topics	Removed Topics
Engineering Mechanics	- Friction and its applications including rolling friction, belt-pulley, screw jack, wedge, vehicles, etc. - Frames; Lagrange's equation	N/A
Strength of Materials	- Shear Center	N/A
Machine Design	- Shafts	N/A
Fluid Mechanics	- Basics of Compressible Fluid Flow	N/A
Thermodynamics & Applications	- Steam and Gas Turbines	N/A
Production	Metrology and Inspection: - Concepts of Coordinate-Measuring Machine (CMM) Computer Integrated Manufacturing: - Additive manufacturing	N/A
IM & OR	- Lean Manufacturing	N/A

Section 1: Engineering Mathematics

Linear Algebra: Matrix algebra, systems of linear equations, eigenvalues and eigenvectors. **Calculus:** Functions of single variable, limit, continuity and differentiability, mean value theorems, indeterminate

forms; evaluation of definite and improper integrals; double and triple integrals; partial derivatives, total derivative, Taylor series (in one and two variables), maxima and minima, Fourier series; gradient, divergence and curl, vector identities, directional derivatives, line, surface and volume integrals, applications of Gauss, Stokes and Green's theorems.

Differential equations: First order equations (linear and nonlinear); higher order linear differential equations with constant coefficients; Euler-Cauchy equation; initial and boundary value problems; Laplace transforms; solutions of heat, wave and Laplace's equations. Complex variables: Analytic functions; Cauchy-Riemann equations; Cauchy's integral theorem and integral formula; Taylor and Laurent series.

Probability and Statistics: Definitions of probability, sampling theorems, conditional probability; mean, median, mode and standard deviation; random variables, binomial, Poisson and normal distributions.

Numerical Methods: Numerical solutions of linear and non-linear algebraic equations; integration by trapezoidal and Simpson's rules; single and multi-step methods for differential equations.

Section 2: Applied Mechanics and Design

Engineering Mechanics: Free-body diagrams and equilibrium; friction and its applications including rolling friction, belt-pulley, brakes, clutches, screw jack, wedge, vehicles, etc.; trusses and frames; virtual work; kinematics and dynamics of rigid bodies in plane motion; impulse and momentum (linear and angular) and energy formulations; Lagrange's equation. **Mechanics of Materials:** Stress and strain, elastic constants, Poisson's ratio; Mohr's circle for plane stress and plane strain; thin cylinders; shear force and bending moment diagrams; bending and shear stresses; concept of shear centre; deflection of beams; torsion of circular shafts; Euler's theory of columns; energy methods; thermal stresses; strain gauges and rosettes; testing of materials with universal testing machine; testing of hardness and impact strength.

Theory of Machines: Displacement, velocity and acceleration analysis of plane mechanisms; dynamic analysis of linkages; cams; gears and gear trains; flywheels and governors; balancing of reciprocating and rotating masses; gyroscope.

Vibrations: Free and forced vibration of single degree of freedom systems, effect of damping; vibration isolation; resonance; critical speeds of shafts.

Machine Design: Design for static and dynamic loading; failure theories; fatigue strength and the S-N diagram; principles of the design of machine

elements such as bolted, riveted and welded joints; shafts, gears, rolling and sliding contact bearings, brakes and clutches, springs.

Section 3: Fluid Mechanics and Thermal Sciences

Fluid Mechanics: Fluid properties; fluid statics, forces on submerged bodies, stability of floating bodies; control-volume analysis of mass, momentum and energy; fluid acceleration; differential equations of continuity and momentum; Bernoulli's equation; dimensional analysis; viscous flow of incompressible fluids, boundary layer, elementary turbulent flow, flow through pipes, head losses in pipes, bends and fittings; basics of compressible fluid flow. **Heat-Transfer:** Modes of heat transfer; one dimensional heat conduction, resistance concept and electrical analogy, heat transfer through fins; unsteady heat conduction, lumped parameter system, Heisler's charts; thermal boundary layer, dimensionless parameters in free and forced convective heat transfer, heat transfer correlations for flow over flat plates and through pipes, effect of turbulence; heat exchanger performance, LMTD and NTU methods; radiative heat transfer, Stefan-Boltzmann law, Wien's displacement law, black and grey surfaces, view factors, radiation network analysis

Thermodynamics: Thermodynamic systems and processes; properties of pure substances, behavior of ideal and real gases; zeroth and first laws of thermodynamics, calculation of work

and heat in various processes; second law of thermodynamics; thermodynamic property charts and tables, availability and irreversibility; thermodynamic relations.

Applications: Power Engineering: Air and gas compressors; vapour and gas power cycles, concepts of regeneration and reheat. *I.C. Engines:* Air-standard Otto, Diesel and dual cycles. *Refrigeration and air-conditioning:* Vapour and gas refrigeration and heat pump cycles; properties of moist air, psychrometric chart, basic psychrometric processes. *Turbomachinery:* Impulse and reaction principles, velocity diagrams, Pelton-wheel, Francis and Kaplan turbines; steam and gas turbines.

Section 4: Materials, Manufacturing and Industrial Engineering

Engineering Materials: Structure and properties of engineering materials, phase diagrams, heat treatment, stress-strain diagrams for engineering materials.

Casting, Forming and Joining Processes: Different types of castings, design of patterns, moulds and cores; solidification and cooling; riser and gating

design. Plastic deformation and yield criteria; fundamentals of hot and cold working processes; load estimation for bulk (forging, rolling, extrusion, drawing) and sheet (shearing, deep drawing, bending) metal forming processes; principles of powder metallurgy. Principles of welding, brazing, soldering and adhesive bonding.

Machining and Machine Tool Operations: Mechanics of machining; basic machine tools; single and multi-point cutting tools, tool geometry and materials, tool life and wear; economics of machining; principles of non-traditional machining processes; principles of work holding, jigs and fixtures; abrasive machining processes; NC/CNC machines and CNC programming.

Metrology and Inspection: Limits, fits and tolerances; linear and angular measurements; comparators; interferometry; form and finish measurement; alignment and testing methods; tolerance analysis in manufacturing and assembly; concepts of coordinate-measuring machine (CMM).

Computer Integrated Manufacturing: Basic concepts of CAD/CAM and their integration tools; additive manufacturing.

Production Planning and Control: Forecasting models, aggregate production planning, scheduling, materials requirement planning; lean manufacturing.

Inventory Control: Deterministic models; safety stock inventory control systems. Operations Research: Linear programming, simplex method, transportation, assignment, network flow models, simple queuing models, PERT and CPM.

SCHOOL OF ENGINEERING & TECHNOLOGY

DEPARTMENT OF MECHANICAL ENGINEERING

CIRCULAR

SUB: JAM Coaching Class – Reg

It is informed that JAM-2024 coaching class will be started on 25.10.2023 for the academic year 2023-2024. The detailed schedule will be given by the departments.

All faculties are requested to inform their students about the JAM-2024 Coaching class and motivate them to attend the class.

Each faculty member to co-ordinate the JAM Coaching class.

Venue : Lecture hall 2.

Timing : 1.30 P.M to 4.00 P.M
