About the Department

The School of Education was established in the year 2008 in our esteemed institution with experienced and efficient faculty members. Since School of Education plays a vital role in all branches of education, all faculty members of our department put all possible efforts to make the future teachers very efficient and excellent in all walks of their career. We are following a wonderful system to achieve this goal as per the advice and guidance from our Chairman, Vice-Chancellor, Registrar, Dean and Managers. Also the Department of Education acts as the Local Examination Cell and the staff members are un-tiredly working for the smooth functioning of the Department activities.

Our department believes in activity based teaching and students are enhanced by us to improve their language skills. The art of teaching and learning process will lead the students to practice English by constant speaking. Students are being given practice for their progress in career advancement. Our department works tirelessly for PRIST University results and also for professional progression. Training & Placement course and literary club activities are rendered in our university to make the students adorable.

About the Program

- One day program on 15-09-2023
- Bilingual Storytelling is more than just sharing tales; it's a powerful tool that helps students understand and use language. When kids listen to stories, they learn how words form sentences and express ideas. This listening helps them develop their own speaking skills.

Objectives of the Program

Storytelling is a simple, powerful way to boost student's speech and language development. Through fun and engaging stories, students learn new words, improve their listening skills, and practice speaking clearly. We encourage parents to make storytelling a daily habit—it's not just entertaining, it's educational. Start with a bedtime story tonight, and soon, you'll see a big difference in your students' communication abilities.

Benefits of this Program:

- Stories are great for learning new words. For instance, a tale about a zoo might include words like "elephant," "cage," or "zookeeper." These new words are introduced in an engaging context, making them easier to remember.
- Listening to stories helps students develop attention to spoken language, improving both memory and understanding

LANGUAGE SKILLS PROGRAMME
LISTENING SKILLS DEVELOPMENT
2023-2024**

The Department of Commerce conducted Awareness program for the under graduate and post graduate students on A listening report typically summarizes observations and reflections on a specific listening experience, whether it's a conversation, lecture, or any other form of auditory communication. Mr.S.Rasakumar Here's a structured template you can use to create a listening report.

Active Listening Techniques

1. **Maintain Eye Contact:** Show engagement by looking at the speaker, which helps build connection and trust.
2. **Nod and Use Affirmative Gestures:** Simple nods or verbal affirmations (like "I see" or "Go on") signal that you're listening.
3. **Avoid Interrupting:** Let the speaker finish their thoughts before you respond. This shows respect and gives you a better understanding of their message.

Reflective Listening

1. **Paraphrase:** Repeat back what you heard in your own words to confirm understanding. For example, "So what you're saying is..."
2. **Ask Clarifying Questions:** If something isn't clear, ask questions to gain a deeper understanding without putting the speaker on the defensive.

Empathetic Listening

1. **Put Yourself in Their Shoes:** Try to understand the speaker's feelings and perspective. This helps build empathy and rapport.

2. **Acknowledge Emotions:** If the speaker expresses feelings, acknowledge them. You might say, "It sounds like you're feeling frustrated."

Minimize Distractions

1. **Find a Quiet Environment:** Choose a setting that's conducive to conversation, reducing background noise and interruptions.
2. **Put Away Distractions:** Silence your phone and close your laptop to focus entirely on the speaker.

Be Open-Minded

1. **Suspend Judgment:** Listen without forming an opinion until the speaker has finished. This encourages openness and trust.
2. **Stay Neutral:** Avoid taking sides during discussions, especially in conflicts. Focus on understanding rather than debating.

Practice Patience

1. **Allow Silence:** Don't rush to fill silence; sometimes, pauses can encourage deeper reflection and more thoughtful responses.
2. **Be Patient with Yourself:** Improving listening skills takes time and practice, so be kind to yourself as you work on this.

2. **Express Yourself:** Share your thoughts and feelings openly. Honest communication fosters deeper connections.
3. **Use Technology Wisely:** Leverage social media and messaging apps to stay in touch, but aim for face-to-face interactions when possible.

Support Network

2. **Be There for Others:** Offer your support and be available to listen. Being a good friend can strengthen your own social health.

LANGUAGE SKILLS PROGRAMME
LISTENING SKILLS DEVELOPMENT
2023-2024**

The Department of Commerce conducted Awareness program for the under graduate and post graduate students on A listening report typically summarizes observations and reflections on a specific listening experience, whether it's a conversation, lecture, or any other form of auditory communication. G.INDHUMATHI Here's a structured template you can use to create a listening report.

Active Listening Techniques

1. **Maintain Eye Contact:** Show engagement by looking at the speaker, which helps build connection and trust.
2. **Nod and Use Affirmative Gestures:** Simple nods or verbal affirmations (like "I see" or "Go on") signal that you're listening.
3. **Avoid Interrupting:** Let the speaker finish their thoughts before you respond. This shows respect and gives you a better understanding of their message.

Reflective Listening

1. **Paraphrase:** Repeat back what you heard in your own words to confirm understanding. For example, "So what you're saying is..."
2. **Ask Clarifying Questions:** If something isn't clear, ask questions to gain a deeper understanding without putting the speaker on the defensive.

Empathetic Listening

1. **Put Yourself in Their Shoes:** Try to understand the speaker's feelings and perspective. This helps build empathy and rapport.
2. **Acknowledge Emotions:** If the speaker expresses feelings, acknowledge them. You might say, "It sounds like you're feeling frustrated."

Minimize Distractions

1. **Find a Quiet Environment:** Choose a setting that's conducive to conversation, reducing background noise and interruptions.
2. **Put Away Distractions:** Silence your phone and close your laptop to focus entirely on the speaker.

Be Open-Minded

1. **Suspend Judgment:** Listen without forming an opinion until the speaker has finished. This encourages openness and trust.
2. **Stay Neutral:** Avoid taking sides during discussions, especially in conflicts. Focus on understanding rather than debating.

Practice Patience

1. **Allow Silence:** Don't rush to fill silence; sometimes, pauses can encourage deeper reflection and more thoughtful responses.
2. **Be Patient with Yourself:** Improving listening skills takes time and practice, so be kind to yourself as you work on this.
