REPORT

Venue : A- Block Seminar Hall

Date : 14.12.2023

One of the major aims of teaching mathematics is to create interest and to remove the fear of the subject. A good mathematics teacher can involve the students in several co-curricular activities such as Mathematics Club, Mathematics Fair, and Mathematics Laboratory. Mathematics Club helps the students in having an idea of the practical utility of mathematics in addition to creating their interest in Mathematics.

Meaning:

The meeting place when a number of persons meet to discuss something's or to study some problems is known as club & when student of mathematics sit & discuss together is called mathematics club. Maths club play an important role in motivating the students to learn mathematics with interest & involvement clubs provide excellent opportunity for students to break away from class room teaching of rigid & structured class room environment which is informal in nature student choose their own activities & passed them in a free & relaxed manner club provider a lot of freedom of expression for the students & it supplements class room learning.

Objective of the activities:

- To encourage creativity
- To ignite interest for mathematics
- To reinforce the theorems, concepts, applications
- To establish design thinking
- To encourage real life applications of the concepts
- To develop team spirit and leadership

In this academic fest entitled "Digit Dominators" on 14.12.2023. The programme began with the invocation followed by the welcome address by, Dr. A. Usha, Assistant Professor Department of Mathematics. Dr. S. Subramaniam, Professor, Head Department of Mathematics, PRIST Deemed to be University, Thanjavur was the resource person. He discussed about the "Digit Dominators" with the 70 number of students that the Self-esteem underscores confidence in one's beliefs and values. It emerges from attitudes that a person develops towards something, which could be a personal vision such as career objectives, lifestyles, and other personal responsibilities.

Activities planned and Program executed

Grade	Activity
1	Paper presentation in Recent trends in Mathamtics'
2	Seminar arranged by department in various trends in mathematics- handled by experts in subjects in various company and educational institution
3	Number Art
4	Various Application in Statistical Models
5	Making Clock using paper plate and match sticks
6	Roman numerals using match sticks
7	Models of solid shapes
8	Geometrical City/Park using solid shapes
9	Puzzles
10	Making a number wheel to determine squares and cubes of numbers
10	Designs using square root spirals
11	Working models of theorems based on circles and triangles
12/	PPT Presentation on applications of any one mathematical concept of logarithms/sequences
13	Poster Presentations

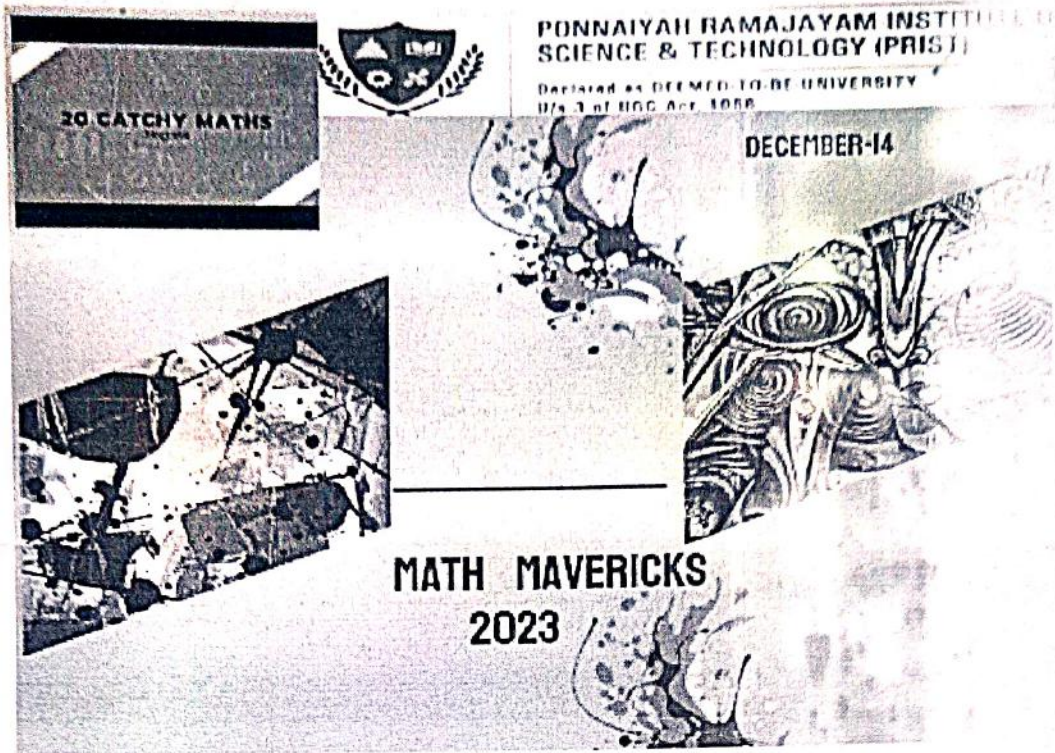

Students' reflections on the activities conducted:

- The making of working models and the activities turned out to be a fun activity.
- There is a lot of learning from each other when creative activities are executed in teams.
- It is great to know that art, physics, and design thinking can be integrated in learning Mathematics.
- Students felt that they are confident to apply in real life the concepts on which they could successfully create working models.

Finally Every Student gave good response to this interactive session. The programme ended with the vote of thanks delivered by Dr.R. Abirami, Assistant professor of Mathematics.

DIGIT DOMINATORS

REPORT

Venue : A- Block Seminar Hall

Date : 08.06.2023

One of the major aims of teaching mathematics is to create interest and to remove the fear of the subject. A good mathematics teacher can involve the students in several co-curricular activities such as Mathematics Club, Mathematics Fair, and Mathematics Laboratory. Mathematics Club helps the students in having an idea of the practical utility of mathematics in addition to creating their interest in Mathematics.

Meaning:

The meeting place when a number of persons meet to discuss something's or to study some problems is known as club & when student of mathematics sit & discuss together is called mathematics club. Maths club play an important role in motivating the students to learn mathematics with interest & involvement clubs provide excellent opportunity for students to break away from class room teaching of rigid & structured class room environment which is informal in nature student choose their own activities & passed them in a free & relaxed manner club provider a lot of freedom of expression for the students & it supplements class room learning.

Objective of the activities:

- To encourage creativity
- To ignite interest for mathematics
- To reinforce the theorems, concepts, applications
- To establish design thinking
- To encourage real life applications of the concepts
- To develop team spirit and leadership

In this academic fest entitled “Digit Dominators” on 08.06.2023. The programme began with the invocation followed by the welcome address by, **Dr. R. Abirami**, Assistant Professor Department of Mathematics. **Dr. S. Subramaniam**, Professor, Head Department of Mathematics, PRIST Deemed to be University, Thanjavur was the resource person. He discussed about the “Digit Dominators” with the 70 number of students that the Self-esteem underscores confidence in one’s beliefs and values. It emerges from attitudes that a person develops towards something, which could be a personal vision such as career objectives, lifestyles, and other personal responsibilities.

Activities planned and Program executed

Grade	Activity
1	Paper presentation in Recent trends in Mathamtics
2	Seminar arranged by department in various trends in mathematics- handled by experts in subjects in various company and educational institution
3	Number Art
4	Various Application in Statistical Models
5	Making Clock using paper plate and match sticks
6	Roman numerals using match sticks
7	Models of solid shapes
8	Geometrical City/Park using solid shapes
9	Puzzles
10	Making a number wheel to determine squares and cubes of numbers
10	Designs using square root spirals
11	Working models of theorems based on circles and triangles
12/	PPT Presentation on applications of any one mathematical concept of logarithms/sequences
13	Poster Presentations

Students’ reflections on the activities conducted:

- The making of working models and the activities turned out to be a fun activity.
- There is a lot of learning from each other when creative activities are executed in teams.
- It is great to know that art, physics, and design thinking can be integrated in learning Mathematics.
- Students felt that they are confident to apply in real life the concepts on which they could successfully create working models.

Finally Every Student gave good response to this interactive session. The programme ended with the vote of thanks delivered by **Dr.D.R.Kirubaharan**, Assistant professor of Mathematics.

CLUB ACTIVITIES
2023-2024**

The department of Commerce conducted Club Activity programmed for the under graduate and post graduate students on 10.11.2023. The programmed was led Clubs in educational institutions play a pivotal role in fostering holistic development among students. These activities enhance academic learning, improve interpersonal skills, and nurture talents outside the classroom. This report provides an overview of various club activities conducted, their objectives, and their outcomes.

Objective of Club Activities

The primary goals of organizing club activities are:

1. To encourage creativity, innovation, and leadership skills.
2. To provide opportunities for experiential learning.
3. To foster teamwork and collaboration among students.
4. To help students explore their interests and talents.
5. To promote a sense of community and belonging.

Impact of Club Activities

1. Skill Development

- Improved communication, leadership, and problem-solving skills.
- Enhanced creative and critical thinking abilities.

2. Academic Improvement

- Practical application of theoretical knowledge.
- Increased interest in subjects through experiential learning.

3. Personal Growth

- Boost in confidence and self-esteem.
- Development of a sense of responsibility and discipline.

4. Social Benefits

- Stronger peer relationships and teamwork.
- Better understanding and appreciation of diverse cultures and perspectives.

Challenges

1. Limited participation due to academic workload.
2. Insufficient funding or resources for some clubs.
3. Need for more trained mentors or facilitators.

Club activities form an integral part of education by bridging the gap between academics and co-curricular development. By fostering a supportive environment and addressing the challenges, institutions can maximize the benefits of these activities, ensuring well-rounded development for every student.

About the Program

Livestock and poultry management programs are designed to educate farmers, ranchers, and agricultural professionals on best practices for raising and managing animals for meat, dairy, and egg production. These programs cover various aspects of animal husbandry, health, nutrition, breeding, housing, and sustainable practices.

Livestock Management

Livestock management involves integrated application of the principles of animal breeding, feeding, housing, organization and disease control in a manner suitable for a particular situation.

Importance of Livestock Management

Food security - Livestock and poultry provide milk, meat, and eggs, which are essential for human nutrition.

Income- Livestock farming can increase household income and help alleviate poverty.

Rural economy - Livestock farming can provide employment and income for small and marginal farmers.

Environmental conservation - Livestock farming can contribute to environmental conservation.

Poultry Management

Poultry management usually refers to the husbandry practices or production techniques that help to maximize the efficiency of production. Sound management practices are very essential to optimize production. Scientific poultry management aims at maximizing returns with minimum investment.

Brooder Management

Brooder house: Brooder house should be draft-free, rain-proof and protected against predators. Brooding pens should have windows with wire mesh for adequate ventilation. Too dusty environment irritates the respiratory tract of the chicks. Besides dust is one of the vehicles of transmission of diseases. Too much moisture causes ammonia fumes which irritate the respiratory tract and eyes. Good ventilation provides a comfortable environment without draft.

Sanitation and hygiene:

All movable equipments like feeders, waterers and hovers should be removed from the house, cleaned and disinfected. All litters are to be scraped and removed. The interior as well as exterior of the house should be cleaned under pressure. The house should be disinfected with any commercial disinfectant solution at the recommended concentration. Insecticide should be sprayed to avoid insect threat. Malathion spray/blow lamping or both can be used to control ticks and mites. New litter should be spread after each cleaning. The insecticides if necessary should be mixed with litter at recommended doses.

Litter:

Suitable litter material like saw dust and paddy husk should be spread to a length of 5 cm depending upon their availability and cost. Mouldy material should not be used. The litter should be stirred at frequent intervals to prevent caking. Wet litters if any should be removed immediately and replaced by dry new litter. This prevents ammoniacal odour.

Brooding temperature:

Heating is very much essential to provide right temperature in the brooder house. Too high or too low a temperature slows down growth and causes mortality. During the first week the temperature should be 95°F (35°C) which may be reduced by 5°F per week during each successive week till 70°F (21.10C). The brooder should be switched on for at least 24 hours before the chicks arrive. As a rule of thumb the temperature inside the brooder house should be approximately 20°F (-6.7°C) below the brooder temperature. Hanging of a maximum and minimum thermometer in each house is recommended to have a guide to control over the differences in the house temperature. The behavior of chicks provides better indication of whether they are getting the desired amount of heat. . When the temperature is less than required, the chicks try to get closer to the source of heat and huddle down under the brooder. When the temperature is too high, the chicks will get away from the source of heat and may even pant or gasp. When temperature is right, the chicks will be found evenly scattered. In hot weather, brooders are not necessary after the chicks are about 3 weeks old. Several devices can be used for providing artificial heat. Hover type electric brooders are by far the most common and practical these days. The temperature in these brooders is thermostatically controlled. Many a times the heat in the brooder house is provided by use of electric bulbs of different intensities. Regulation of temperature in such cases is difficult although not impossible. Infra-red lamps are also very good for brooding. The height and number of infra-red lamps can be adjusted as per temperature requirement in the brooder house.

About the Program

This biofertilizer program is designed to educate farmers, agricultural professionals, and researchers on the production, application, and benefits of biofertilizers. These programs focus on organic and sustainable farming practices, reducing dependence on chemical fertilizers while enhancing soil fertility and plant growth.

Bio-fertilizer

Biofertilizers are ready to use live formulates of such beneficial microorganisms which on application to seed, root or soil mobilize the availability of nutrients by their biological activity in particular, and help build up the micro-flora and in turn the soil health in general.

Method of application of bio fertilizer for major crops

(A) Types of bio fertilizer for sugarcane.

Acetobactor , Azotobactor, Azoospirillum & Phosphate Solublizing Bacteria (PSB)

(B) Rate of application: 12-15 kg / ha

(C) Mode of application:

1. Set Treatment: Suspended & mixed thoroughly 5 kg bio fertilizer for one acre in 100 lit of water. Treat cane sett by dipping in this suspension before planting.
2. Soil Treatment: Suspended 5 kg of bio fertilizer per acre in 10 liters of water & mixed with thoroughly with 80-100 kg of FYM. The mixed bio fertilizer in FYM is sprinkled over cane setts in the rows at the of planting. Immediately rows should be covered.

Why should we use biofertilizers?

With the introduction of green revolution technologies the modern agriculture is getting more and more dependent upon the steady supply of synthetic inputs (mainly fertilizers), which are products of fossil fuel (coal+ petroleum). Adverse effects are being noticed due to the excessive and imbalanced use of these synthetic inputs. This situation has lead to identifying harmless inputs like biofertilizers. Use of such natural products like biofertilizers in crop cultivation will help in safeguarding the soil health and also the quality of crop products.

Benefits of biofertilizers

- Increase crop yield by 20-30%.
- Replace chemical nitrogen and phosphorus by 25%.

- Stimulate plant growth.
- Activate the soil biologically.
- Restore natural soil fertility.
- Provide protection against drought and some soil borne diseases.
- Cost effective.

Methods of Application:

Seed treatment: 200 g of nitrogenous biofertilizer and 200 g of Phosphotika are suspended in 300-400 ml of water and mixed thoroughly. Ten kg seeds are treated with this paste and dried in shade. The treated seeds have to be sown as soon as possible.

Seedling root dip: For rice crop, a bed is made in the field and filled with water. Recommended biofertilizers are mixed in this water and the roots of seedlings are dipped for 8-10 hrs.

Soil treatment: 4 kg each of the recommended biofertilizers are mixed in 200 kg of compost and kept overnight. This mixture is incorporated in the soil at the time of sowing or planting

As per Indian government, ahead of the General Elections to Lok Sabha 2024, a nationwide awareness programme on Electronic Voting Machine (EVM) and Voter Verifiable Paper Audit Trail (VVPAT) is underway to provide citizens with a first-hand experience of the voting process and familiarity with the machines.

HOW TO CAST YOUR VOTE USING EVM & VVPAT

- 1 ENTER THE BOOTH**
The Presiding Officer will enable the ballot Unit while you enter the polling compartment.
- 2 CAST YOUR VOTE**
Press the Blue Button on the Ballot Unit against the name /symbol of candidate of your choice.
- 3 SEE THE LIGHT**
The red light against the name/symbol of candidate chosen will glow.
- 4 SEE THE PRINT**
The Printer will print a ballot slip containing Serial Number, Name and Symbol of the chosen candidate as shown.
The slip will be visible for 7 seconds.

See the print through the glass, as the printout will not be given to you.

NOTE!
If you do not see the ballot slip and hear the loud beep please contact the Presiding officer.

The awareness programme which is organized ahead of every General Election to Lok Sabha and State Legislative Assembly focuses on imparting knowledge about the basic features of EVMs and VVPATs, elucidating the step-by-step procedure of casting votes, and educating voters on how to verify their choices through the VVPAT slip.

Awareness through physical demonstration fosters deeper understanding of EVM & VVPAT functionality and is instrumental in dispelling misconceptions, boosting voter confidence and ensuring a more informed and participative electorate.

As per the direction, Ponnaiyah Ramajayam Institute of Science and Technology (PRIST) Deemed to be University organized an awareness program about Electronic Voting Machine (EVM) and Voter Verifiable Paper Audit Trail (VVPAT) for students on 13th March 2024 at 10.30AM in C Block Seminar Hall.

The Programme is started with Tamil Thai Valthu followed Welcome Address is given by Dr. Usha, Dean Student Affairs.

After that Dr. C.Rajinikath,Principal deliver a special address about Indian Voting system and importance of Election among the students.The broucher about EVM and VVPAT was distributed to the gathered students.

Followed by principal address, Dr.D.Manikandan, Prof of Chemistry Department address a student about the Election Fraudlents.

At the end of the program, all the staff members and students take a bledge about voting.

“My Vote My Rights”

“எனது வாக்கு எனது உரிமை”

Prof.S.Lillypet,Dean of E&T, delivered a Vote of thanks and ended the programme with National Anthem.

THE PLANTING SAMPLINGS UNDER MISSION LIFE

Ponnaiyah Ramajayam Institute of Science and technology (PRIST) Deemed to be University, has organized a grand planting samplings under mission life for the outgoing final year students on 10th August 2023 in Main campus.

The events started by our Hon'ble Pro Vice-Chancellor Dr.S.Udayakumar, to promote importance about planting trees to the students. The tree planting started at 10.00AM. The first tree planted by our Hon'ble Pro Vice-Chancellor sir in PRIST campus.

The students of different classes were given 200 saplings to plant in and around the campus, and the remaining saplings were planted by the students in the local areas around the University. After planting saplings, the Hon'ble Pro Vice-Chancellor sir, gave a speech on why planting trees can prove to be beneficial for the environment. His speech included subjects like how human beings get ample oxygen because of trees and how cutting down trees mercilessly has impacted the environment adversely.

The Planting samplings under Mission LiFE program concluded with vote of thanks given by one of the NSS students.

A grand programme was organised by Ponnaiyah Ramajayam Institute of Science and Technology (PRIST), Deemed to be University at CRD Seminar Hall on 10:30 AM. To celebrate International Women's Day, 2024. We organised a special lecture on women's safety and awareness about social media.

During the first phase of the programme, a welcome address was delivered by Dr. Smitha Elsa Peter, IQAC Director. A key note address was delivered by the Chief Guest, **D.Roselin Anthoniammal, Sub Inspector of Police, Cyber Crime Police Station, Thanjavur**. Through her lecture, she emphasised that it is necessary for young girls and women to break the bounds and shackles laid down by society. Fear is restrictive, and hence it is imperative that women rise above narrow mindedness and prove their abilities. She appreciated all the students who participated in the events. She also distributed certificates of achievement to them. Speaking on the occasion, she said that it is very necessary for young girls and women to create an identity for them and motivated the students to be financially independent.

She also stressed that girls should also develop their sense of self-esteem. She said that International Women's Day is a global day celebrating the social, economic, cultural, and political achievements of women. She said that we should unite for the rights of women and take initiative for gender parity.
