REGISTRAR,
Ponnalyah Ramajeyam Institute of
Science & Technology (PRIST),
(Institution Deemed to be University
U/s 3 of the UGC Act, 1956),
THANJAVUR - 613 403, TAMIL NADU.

1. Introduction:

Examination is considered to be one of the integral elements of the teaching learning process. Examination plays an important role in imparting education and knowledge to students. Examination is an instrument to evaluate the knowledge, understanding and learning of students. For Teachers, Examinations provides feedback to evolve their way of teaching. In the last couple of decades, higher education has witnessed tremendous growth in terms of number of students enrolled, number of courses offered, reach of institutes etc. As a result of this growth the examination system at Universities has becomes quite complex and complicated. One of the major problems faced by a university is to conduct infallible examination and provide tamper proof certificates.

With the passage of the growing development in the world of education across the globe, changes have also occurred in the system and procedure of examinations as well. The main function of education is to develop the students thinking capabilities along with the polishing of the skills, so is the role played by the examination system in sharpening their talents. As the education system is changing rapidly according to the changing needs of the time, therefore there is also a need for strengthening the examination system to cope with the emerging education system.

PRIST, being an institute with the most ambitious visions of transforming into an institution of world class stature in the near future, is committed to incorporate the many value addition for our Academic programmes. In this context. PRIST feels proud in presenting this Examination Automation Manual.

2. COE Module

The COE module deals with examination related information of all the students who are appearing for the semester examination. This module helps in generating the timetable, students list, attendance sheet, hall ticket.

The faculty can enter attendance and marks of the students periodically and also can obtain the final results of the examination. In our university the examination process is automated starting from preparation for exams to publication of results. The system provides facility to select elective papers of student's interest if there is any.

Based on the academic calendar COE office programmer will set the dates for End Semester Exams in the Semester Exam Time Table tab. The timings for the End Semester Exam were fixed by using the same tab. This module helps the student to register the subjects which they are going to appear in the semester examination. In the next stage halltickets for the examinations are generated automatically.

Once the examinations are conducted, attendance details and marks are entered in the software. Based on these inputs the data is processed automatically and the result is generated. This system contains option to enter exam schema for each subject, exam details for each batch with pass percentage. Mark entries are one using their names or register numbers. COE module. The module generates mark sheet automatically with or without photo, consolidated marksheet and provisional certificate once the student completes their course.

THANJAVUR - 613 403, TAMIL NADU.

These mark sheets are assigned with a unique serial number for each student which can be automatically assigned through the software. Mark and Grade statements are generated automatically for publication of results. This module has high confidentiality as only authorized users can access the examination software. Mark entry is done by the examiners itself in the centralized valuation process which will be verified and approved by the Camp Officers, so that no alterations can be done. Even if there is any need for modification, it is done with the approval of the Controller of Examinations

The screenshot shows the PALPAP website's 'OUR EXCLUSIVE PRODUCT' section. It features a navigation menu with links for HOME, ABOUT, PRODUCT, TECHNOLOGY, UPDATES, ONLINE, and MORE. A sidebar on the right contains links for Chairman Message, Milestone, Contact, and Gallery. The main content area lists six products:

- InsPro ERP 6.1**: Supply and Implementation of High ERP version 6.1 (Enterprise Edition)
- InsPro SMART 3.3**: Contact less Smart card with Proxing, Sign and Photo Scanning (Student and Staff) Contact less Smart Card Reader
- InsPro BIO 6.1**: Biometric Fingerprint Device Staff Attendance
- InsPro FACE 6.1**: Face Recognition Reader for Cards and Custom Mixed Business Attendance
- InsPro SMS 6.1**: SMS System Gateway Integration
- InsPro KIOSK 1.0**: Supply and Implementation of High KIOSK version 1.0 (Enterprise Edition)

The screenshot shows the PALPAP website's 'STREAMLINING TECHNOLOGIES' section. It features a navigation menu with links for HOME, ABOUT, PRODUCT, TECHNOLOGY, UPDATES, ONLINE, and MORE. A sidebar on the right contains links for Chairman Message, Milestone, Contact, and Gallery. The main content area lists six technologies:

- Artificial Intelligence**: AI will enhance its new leadership framework, generate a better technology infrastructure, and thereby optimize business procedures in every single institutions.
- ML**: Higher education needs to be improved to improve the experience of students, faculty, and staff. Although machine learning is the new revolution in higher education.
- BI**: Effective teaching, communication, engagement, and careful assessment of progression can build a strong foundation for students' success.
- Cloud**: Cloud management technology gives you very good deployment possibilities. These include smart spaces, access control applications, mobile application, and ambient intelligence environments, among
- RFID**: With an RFID attendance solution, eliminate the need for manual attendance is eliminated. From class rooms to college entrance, RFID access control tags restrict access to only those pre-approved.
- BIO**: Biometric identification management technology gives you very good deployment possibilities. These include smart spaces, access control applications, mobile application,

PALPAP ERP UNIQUE MODULES

Palpap ERP offers 21 Unique Interlinked Modules

 <p>ADMISSION Customize pre-admission management to suit the process that you need, with custom forms and built-in lead management style system.</p>	 <p>ATTENDANCE Ability to view attendance history & receive notification of absence. Send notifications to parents to via SMS, email or in-app notifications.</p>
 <p>MARK Digitalized performance analysis of the students. Manage the marks and grade with the ease of technology support. Time saving system yet improved efficiency.</p>	 <p>SCHEDULE As part of our administrative training, we'll gladly assist you in the setup of your classes and scheduling needs.</p>
 <p>OBE The software facilitates the administration with latest ways to monitor student progress in the classroom by recording and evaluating marks, behaviour, assignments, etc., of students.</p>	 <p>COE Define weightage of each curricular & extra curricular component to auto-generate final grade.</p>
 <p>FINANCE Manage expenses and billing with integrated finance module. Manage suppliers and their billings. Distribute & manage staff salaries.</p>	 <p>HR Maintain a detailed employee file, with the ability to create custom data fields. Manage access to student data and other edumarshal modules via each employees portal.</p>
 <p>LIBRARY Make your library operations more efficient. Rapid book issue and return speed up & simplify the process.</p>	 <p>HOSTEL Easy allotment of hostel rooms. Our software can allot rooms by checking the availability and preference of student automatically.</p>
 <p>INVENTORY provides stock and inventory management for multiple positions. It allows to increase significantly operational effectiveness and categorize the assets.</p>	 <p>TRANSPORT Tackle the challenges of transport & fleet management with ease. Build your routes, define stops, and create fares for each stop.</p>
 <p>BACKUP Backup is a full-featured, automated, backup and recovery system managed through the Cloud Backup. Using multi-vault technologies, you can securely back up your data.</p>	 <p>MONITORING Monitoring the staff activities according to the management schedule. Maintained with secret alarm system.</p>
 <p>OFFICE ADMINISTRATOR This usually includes the storage and distribution of information within an organization.</p>	 <p>QUESTION In most cases, it is the responsibility of the teachers to perform various duties related to examinations and one of them is calculating the marks scored by the students in the exams.</p>
