ABOUT COMMUNICATION SKILL DEVELOPMENT

The definition of communication skills is the ability for an individual to accurately convey a message to another person or group of people. This is an important skillset to have in life because the exchange of information is an act that is constantly occurring in everyday life.

Communication skills involve listening, speaking, observing and empathising. It is also helpful to understand the differences in how to communicate through face-to-face interactions, phone conversations and digital communications like email and social media.

5 ESSENTIAL COMMUNICATION SKILLS

- WRITTEN COMMUNICATION. Convey ideas and information through the use of written language.
- ORAL COMMUNICATION. Convey ideas and information through the use of spoken language.
- NON-VERBAL AND VISUAL COMMUNICATION. ...
- ACTIVE LISTENING. ...
- CONTEXTUAL COMMUNICATION.

In previous years, I have outlined four types of communication, but I believe there are actually five types of communication: verbal, non-verbal, written, listening, and visual.

For effective communication, remember the 5 C's of communication: clear, cohesive, complete, concise, and concrete. Be Clear about your message, be Cohesive by staying on-topic, Complete your idea with supporting content, be Concise by eliminating unnecessary words, be Concrete by using precise words.

Expressing Thoughts and Ideas: Communication allows individuals to express their thoughts, ideas, and feelings to others. It is a means of self-expression and can help individuals to share their perspectives and experiences. 4. Making Decisions: Communication plays a crucial role in the decision-making process.

ABOUT COMMUNICATION SKILL DEVELOPMENT

The definition of communication skills is the ability for an individual to accurately convey a message to another person or group of people. This is an important skillset to have in life because the exchange of information is an act that is constantly occurring in everyday life. Communication skills involve listening, speaking, observing and empathising. It is also helpful to understand the differences in how to communicate through face-to-face interactions, phone conversations and digital communications like email and social media.

In previous years, I have outlined four types of communication, but I believe there are actually five types of communication: verbal, non-verbal, written, listening, and visual. For effective communication, remember the 5 C's of communication: clear, cohesive, complete, concise, and concrete. Be Clear about your message, be Cohesive by staying on-topic, Complete your idea with supporting content, be Concise by eliminating unnecessary words, be Concrete by using precise words.
