Mr.S.N.Hari Prakash explained all the processes that were involved in "Communication Skills Training". Communication is defined as the ability to convey or share ideas and feelings effectively. Effective communication in the workplace is the ability to exchange and create a free flow of information with and among various stakeholders at all organizational levels to produce impactful outcomes.

Several experts agree that communication skills include:

- Conveying messages without misinterpretation or misleading others
- Effectively communicating with a range of people from all walks of life
- Navigating from casual or informal communication to formal communication
- Showing language mastery and command

CONCLUSION : The lecture was of great success. It helps students to know about something new and prepare themselves for something innovative & new. The lecture came to an end of thanks by the professor
