CLASS COMMITTEE MEETING REPORT FOR THE MONTH

SFS Name : Class : Date:

Chairperson :

Staff Members:

S.No.	Name of the Staff	Course Code/ Course Name	Initial

Students Members:

S.No.	Name	Initial	S.No.	Name	Initial

Suggestions: (P1, P2... denotes Theory Papers. Separate Sheets may be enclosed)

P1: _____

P2: _____

P3: _____

P4: _____

P5: _____

P6: _____

Labs: _____

General: _____

Actions to be taken:

COMMITTEE CHAIRMAN

SFS

HOD

DEAN

PONNAIYAH RAMAYJAYAM INSTITUTE OF SCIENCE & TECHNOLOGY (PRIST)

CLASS COMMITTEE MEETING – Standard Operating Procedure

Student representatives (15 % of the class strength -fast learners, slow learners - equal representation for boys/girls), one senior faculty not handling any course for the concerned class - nominated by Dean, all members of faculty handling the class will be the members on the Class Committee. HoD / Dean / Registrar / Pro VC / VC may also attend, if required.

Class Advisor will be the Convener of the Class Committee. He will be responsible for sending out the notification for the meetings - at least 3 days in advance, recording the Minutes of the meeting, circulating the same among concerned and initiating action on the discussion points. He will also ensure that the Meeting Minutes (signed by all participants) is submitted, the next day itself, to the HoD. Through the Dean the O/o ProVC, Registrar and VC will also receive the copy of the Minutes.

Frequency of meeting:

Thrice a semester [Preferably, Two weeks after the commencement of semester, End of Test - 1 and Two weeks ahead of Test - 3]. If need be, emergency meetings may be called for anytime.

General agenda for Class committee meetings:

1. First meeting of the semester, the Class Committee will discuss on the overall conduct of the previous semester's class
2. Punctuality for classes/events/programmes - to be reiterated
3. Maintaining proper dress code
4. Attendance for classes
5. Participation in value added course conducted by the University/ Department/ School
6. Identifying possibilities for industry internships
7. Keeping pace with the lessons / syllabus completed in classes
8. Performance in Continuous Internal Assessment (CIA)
9. Industry / Field visits
10. Topics for project work
11. Discussion on students' choice for elective courses
12. Satisfactory completion of syllabus by faculty ahead of internal tests / semester exams
13. *Feedback on teaching (syllabus completion, Teachers' punctuality, effectiveness in communication/lecturing, usage of ICT tools in teaching, attitude of Teachers towards students - whether friendly, helpful etc.) – see note below
14. Possible introduction of new courses
15. Discussion / Analysis on the Test / Examination results – Performance of students
16. Need for remedial classes / extra classes
17. Feedback from advanced learners and slow learners (on the teaching-learning
18. process, internal assessments, co-/ extra-curricular activities, student support
19. services, mentoring, etc)
20. Usage, upkeep and maintenance of general amenities available for students
21. Conduct and Participation of students in Seminars / Workshops / Paper presentation events / Project exhibitions and similar co-curricular activities
22. Conduct and Participation of students in extra-curricular activities
23. Any other relevant issues raised by students / faculty

***Note:** The Senior faculty and Convener have to motivate the student-representatives to share a honest feedback, especially on the teaching-learning process. In case of any hesitation on the part of the students in this matter, efforts have to be made to elicit the feedback from the students in a confidential manner.

WORLD ENVIRONMENT DAY - 2021

In the connection of World Environment Day -2021, 05.06.2021 Online Quiz competition was conducted by Intach, Little Scholar Matric School, Clean Thanjavur Movement and National Green Corps, Thanjavur. EDUCATION DISTRICT conducted at Palace Campus. 120 students was participated in the competition. Prince Bhabaji Bhonsle, convenor, INTACH presided over the programme .DR.RADHIKA MICHAEL, President CTM awarded the prizes to winners Programme was conducted by following up Corona awareness, Protection Government Guidelines.

Students were participated the Environmental awareness program

VACCINATION AWARENESS PROGRAMME

NSS volunteers organized National vaccination day awareness program on 06.09.2021 and contributed actively for successful implementation of COVID-19 vaccine rollout activities such as mobilization and community engagement, dissemination of the message about benefit of vaccine and building confidence among the community regarding vaccine safety through by various mediums like social media, door to door awareness, public announcement, wall painting, posters etc. 150 NSS volunteers from encouraged people to adopt COVID-19 appropriate behavior and worked on environment building of vaccine acceptability throughout the country. For successful implementation of this nationwide campaign,

Vaccination awareness created by our volunteers

HEALTH AWARENESS PROGRAMME FOR SCHOOL STUDENTS AT BUDHALUR

NSS Programme Officer educated and created awareness about a very important disease that has been declared as a Pandemic by WHO- Corona virus disease (COVID 19) among the 125 NSS volunteers and NSS Programme Officers of our University. Awareness programme was conducted on 09.03.2022. Awareness was created regarding risk factors, high risk areas, symptoms, signs, diagnosis, treatment, complications, and most importantly the methods of prevention and precautions to be taken to safeguard oneself. The myths created on social media were also busted. They were made aware about the importance of using masks, the people at high risk who require the use of masks and that not everybody needs to wear a mask. They were also told that panic will not help in any way, but being aware of the problem, taking up the responsibility of creating awareness to peers and other family members to tackle the situation, approaching the healthcare providers and hospitals in case of any suspicion, is the key to control such a pandemic. Hand hygiene and its importance were also discussed. The programme continued till around 3:45 pm, followed by questions and answers session for the student volunteers and teachers/POs to clarify any doubts. The students enthusiastically participated in this discussion and asked their queries which were answered.

a. Students practice on respiration

b. Demo for proper Hand cleaning

WORLD TB DAY MARCH

The community Health Nursing Department with NSS CELL from PRIST University was created TB awareness program to the public through skit, puppet show in Munnaiyampayyi village. 120 students was participated in this programme. The program was felicitated by Dr. Joymarryja cquelinebmo, Thanjavur, Dr. Punithavathi Head, Mr. A. G. Kannan Field publicity officer, Mr. R. RAjkumar, Field TB awareness nodel officer Buthalur & NSS Coordinator PRIST University.

Lecturer for – TB day event

WOMEN EMPOWERMENT PROGRAM

100 NSS volunteers and staff members organized women empowerment program on 15th April 2022, In our University campus, totally 25 women's from near village are got training from our university.

While Women's are engaged training

HEALTH CAMP FOR VILLAGE PEOPLE AFTER COVID-19

NSS wing organized the Health camp for COVID-19 awareness program on 28th April 2022. Health screening inspection was engaged in village peoples including children. The doctors of Meenatchi hospital Thanjavur accepted the request made by NSS Unit of our University and deputed a team of staff members and 120 student including doctors in a mobile van in to the village.

Health inspection

EYE CAMP FOR VILLAGE PEOPLE

Free Eye Treatment to underprivileged Rural People on 25th May 2022. Vasana Eye Care Hospital-Thanjavur accepted our request of our NSS Unit and deputed a team of doctors in a mobile van into the village. Totally 350 peoples are benefited with the Eye camp. 100 Nss volunteers involved the eye camp.

Free eye screening to the villagers

BLOOD DONATION CAMP

The National Service Scheme (NSS) of our University in association with Thanjavur Raja Mirasudhar Hospital organized a Blood Donation program on 03.06.2022. Around 100 units of blood were collected in this blood donation event. Blood Donation Camp starts at 8 a.m. More than 150 volunteers of NSS participated in this mega event. Every donor was duly taken care of by the volunteers of the NSS group. All the donors were accompanied by the NSS volunteers to the refreshment, breakfast and awarded a blood donation certificate for donating blood and saving lives. The functioning of the camp went great by the sincere and disciplined efforts of the volunteers of each group present there and the event yet more exuberant.

INTERNATIONAL YOGA DAY

International Yoga Day was organized by NSS Unit from our University. 165 volunteers participated in the activity on the occasion of 8th International Yoga Day on 21st June, 2022. The International Day of Yoga has been celebrated annually on 21 June since 2015, following its inception in the United Nations General Assembly in 2014. Despite being times of the quarantine, the volunteers celebrated the true spirit of Yoga by practising Yoga at home. The volunteers performed various yoga asanas at convenient time between 5 AM and 8 AM in the morning. The photographs of volunteers and staff members are performing yoga asanas in university auditorium. Volunteers expressed that they had a wonderful and refreshing experience of peace through Yoga, the amalgamation of the fitness of the mind, body and soul.

Volunteers are engaged the yoga practices

BLOOD DONATION CAMP

The National Service Scheme (NSS) of PRIST Deemed to be University in associate with Thanjavur Medical College organized a Blood Donation program on 26.07.2022. Around 140 units of blood were collected in this blood donation event. Blood Donation Camp starts at 8 a.m. More than 200 volunteers of NSS participated in this mega event. All the donors were accompanied by the NSS volunteers to the refreshment, breakfast and awarded a blood donation certificate for donating blood and saving lives.

NSS volunteers involved blood donating

SWACHTAPAKHWADA ACTIVITIES

NSS organized Swachh Bharat activities on 07.08.2022 within the University campus. On the day of Swachh Bharat Fortnight inauguration, students and faculty members took pledge of cleanliness. A signature campaign was also organized to create awareness on keeping the campus clean and green. Further to the inaugural event, a seminar was conducted on “Awareness on Green Environment”. More than 200 students and volunteers engaged themselves in various activities including cleaning the surroundings of library building, hostel buildings, department buildings and administrative building. Apart from these, students were involved in removal of mesquite trees from the University campus and planting saplings in both academic and residential campuses. Awareness programmes and competitions were also conducted for students to bring about visible changes in the surroundings and to efficiently deal with waste disposal.

The NSS volunteers gathered to clean the surroundings of the individual buildings in the campus. NSS volunteers enthusiastically collected plastic wastes, tea cups, weeds, and dry leaves spread over the surrounding areas. The volunteers gathered all the waste and trash bags to the place where the university arranged for the removal of collected wastes. The whole cleaning drive was quite inspiring and motivating for the NSS team members.

Collection of Garbage from the University campus: The NSS volunteers gathered to clean the surroundings of the individual buildings in the campus. NSS volunteers enthusiastically collected plastic wastes, tea cups, weeds, and dry leaves spread over the surrounding areas. The volunteers gathered all the waste and trash bags to the place where the university arranged for the removal of collected wastes. The whole cleaning drive was quite inspiring and motivating for the NSS team members.

Removal of mesquite trees from the University campus: Invasion of mesquite trees in the University campus has been a long concern. Its encroachment reduces herbaceous resources and causes land dryness by sucking ground water. Our NSS volunteers actively took initiative to remove mesquite from the University campus.

NSS coordinator received awards

HEALTH AND HYGIENE AWARENESS PROGRAMME:

A Health Awareness programme was organized last 7th October 2021 our University premises.

The eminent and famous doctors of our locality were invited and they took part in this programme. The well-known dietitian of the locality Dr. Malarvizhi, was selected President of the camp. All the doctors emphasized the necessity for personal health and hygiene. The doctors advised the students to eat healthy balanced food and to keep him or her clean. Most of the doctors highlighted the need for sleeping inside mosquito nets at night and to drink boiled water to prevent diseases like malaria, dengue and enteric diseases. The students were told not be lured by fast food, colored drinks, cold drinks and cut fruits. The doctors also emphasized the need for taking physical exercise daily. Regular physical exercise makes one's body healthy and stout. They guest doctors also focused on the need for keeping oneself clean and on keeping hands cleaned and washed. They said that the students need to keep themselves free from any kind of unhealthy materials. Totally 50 housekeeping workers and 20 volunteer's involved in this programme.

Doctor gave instructions

PRIST University NSS Cell jointly organized with District Social Welfare Office and Ministry of Women and Child Development to create awareness among the College students about all the citizens of India have right to live quality life. Bharatiya Stree Shakti strives for gender equality and women empowerment so that women could live in peace and harmony in Indian society. The infamous “Nirbhaya” case generated widespread outrage and was widely condemned in India and abroad. The Ministry of Women and Child Development (MWCD), Government of India, investigated the impact of changed policies and laws. The research project “**Tackling Violence against Women: A Study of State Intervention Measures**” aimed at documenting the changes in registration of the cases of violence against women after the policy level changes and to compare the national scenario related to the violence against women. The awareness given by Mrs.M.VIMALA District Social Welfare Officer. Mrs.A.Juliya field officer, Mrs.N.Elamathi MWCD coordinator. Totally 150 girls students involve the programme.

BREAST CANCER AND CERVICAL CANCER AWARNESS PROGRAMME

Introduction

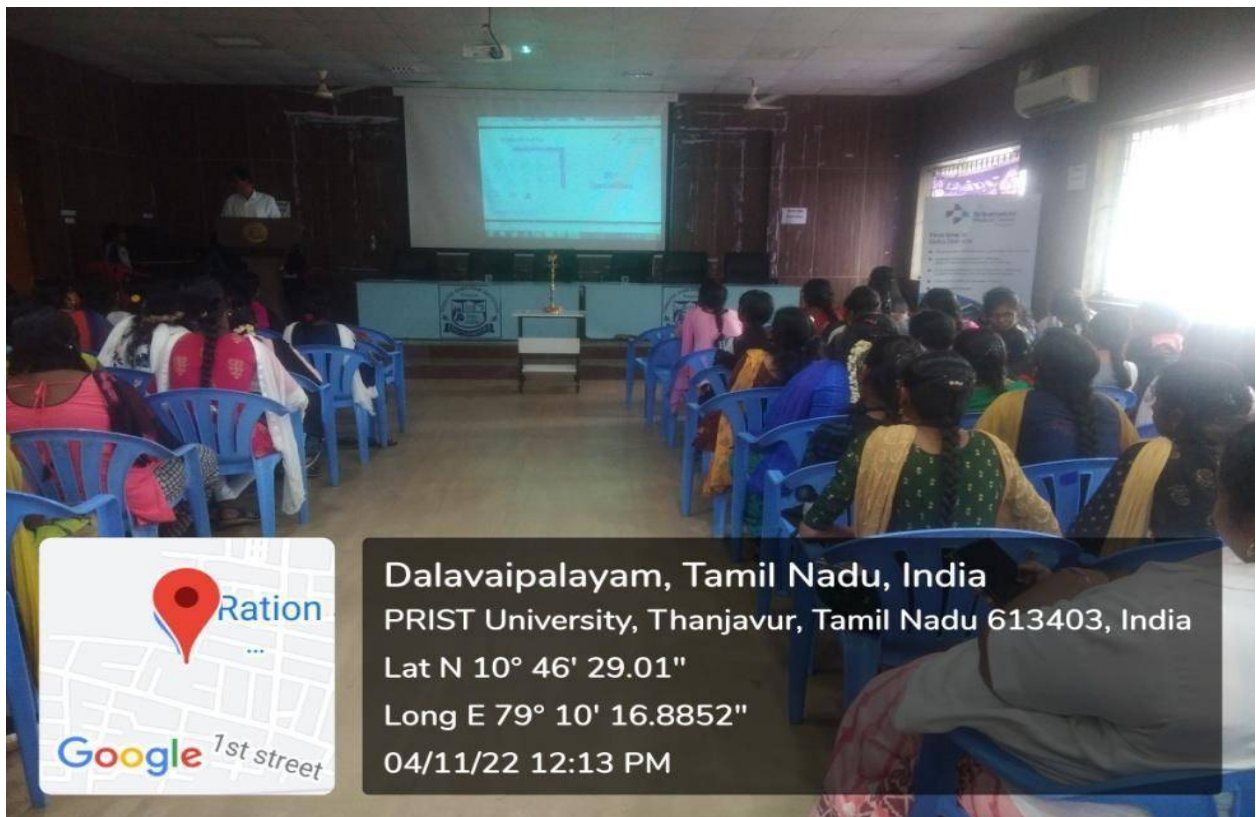

The posters provide awareness among students, regarding the types of cancer, early symptoms, diagnostic methods and preventive methods, and motivate them to avoid habits that increase the risk of cancer. The importance of cancer awareness has been emphasized as a means of ensuring behavior that facilitates early detection, whereas the absence of cancer awareness has been seen as a detriment to this end. Delay in health-seeking is also attributed to factors such as illiteracy, financial constraints, as well as myths and superstitions along with lack of awareness and this go hand-in-hand, most of the time. Screening is an important preventive measure in cancer control. Even though the national programme in India has a screening component, it is yet to take root in most part of the country. At present, most of the screening tests are available at higher centers only.

OBJECTIVES:

- Create cancer awareness and remove the stigma and fear attached.
- Help people recognize early signs and symptoms of cancer, thus enabling them to seek at an early stage.
- Educate students about the key risk factors, since more than 30% of cancer cases could be prevented by modifying lifestyle or avoiding the risk factor.
- Inform women about mammograms, clinical breast exam and breast self-exam
- Inform students about the importance of regular screening and check-ups

Date:

To:

The Principal/Director of Physical Education

Dear Sir/Madam,

Sub: Invitation to participate in the Ponnaiyah Ramajayam Memorial State Level
Tournaments (MEN) 2020-reg.

We are glad to inform that the **PONNAIYAH RAMAJAYAM MEMORIAL STATE LEVEL TOURNAMENTS (MEN) - 2020** have been organized by the **Department of Physical Education** of our University in Thanjavur-Vallam Campus from 3rd to 6th March 2020. The Tournament is open to all College and University students in Basket Ball, Volley Ball and Kabaddi.

We wish to extend our invitation to your institution for the participation of teams from your institution and look forward your kind co-operation to make this event a grand success.

The Brochure containing the Rules & Regulations and Registration Form are being enclosed with this letter. The filled-in Registration Forms may be sent to the undersigned not later than 29th February 2020.

Thanking you.

Yours sincerely,

(R.KARTHIKEYAN)

Director- Physical Education

About the Institution

Our Ponnaiyah Ramajayam Institute of Science and Technology (PRIST) is an Institution Deemed to be University, established Under Section 3 of UGC Act, 1956 and accredited by NAAC. It is situated on Trichy-Thanjavur National Highway (NH46) at 42 km from Tiruchirappalli and 15 km from Thanjavur. The University is having six campuses and is offering programmes in Engineering & Technology, Arts & Science, Commerce & Business Management, Education, Agriculture, Architecture, Law and Pharmacy. Under the able guidance of its founder Chancellor Dr. P. Murugesan, the University emerged as an Ideal University with excellence in all spheres of its activities.

About the tournament

Sports and games are essential for both healthy physic and mental relief of the human. It increases the immunity of the person.

Kabaddi is an ancient sport of Tamil Nadu, most popular in India played mainly among people in villages and received international exposure during the 1936. It is also an Olympic game and there are too many doyens of Kabadi in Thanjavur and Thiruvarur Districts.

Basket Ball is a Team sport invented in 1891 in Springfield, Massachusetts by Canadian physical education instructor. In India, the game of basketball started in 1930. Basketball is a fast moving game that involves a lot of variety, including shooting, dribbling, passing, rebounding, defence and much more.

Volley Ball is an international game of Olympic, yet the students in every High School and College have plenty of chances to play the game. There had been many leading players of international repute in Delta Districts.

Director of Physical Education
PRIST Deemed to be University
(U/s 3 of the UGC Act.1956)
Vallam, THANJAVUR - 613 403.

In order to give a fillip to the growth and glory to the Sports and Games, it has been decided to conduct a State Level Volley Ball, Kabaddi and Basket Ball Tournament in memory of the Parents of our founder Chancellor.

Department of Physical Education

Date:

To:
The Principal/Director of Physical Education

Dear Sir/Madam,

Sub: Invitation to participate in the Ponnaiyah Ramajayam Memorial State Level Basket Ball, Volley Ball, Kabaddi Tournament (MEN) 2021-reg.

We are glad to inform you that the Ponnaiyah Ramajayam Memorial State Level Basket Ball, Volley Ball, Kabaddi Tournament (MEN) 2021 has been arranged by the Department of Physical Education of our University in Thanjavur, Vallam Campus from 6TH to 8TH JULY 2021. The Tournament is open to all University and College students.

We wish to extend our invitation to your institution for the participation of teams from your end. We eagerly expect the enthusiastic participation of your students in this event. The Brochure containing the rules and regulations, entry form and format for Identity Card are being enclosed with this letter. The entry forms must be sent to the undersigned so as to be received not later than 5th July 2021

We look forward your kind co-operation to make this event a grand success.

Thanking you

Director of Physical Education,
PRIST Deemed to be University
(of the UGC Act. 1956)
Vallam Campus, Thanjavur - 613 403.

Yours sincerely
(R.KARTHIKEYAN)

OFFENSIVE SKILLS DEVELOPMENT WORK SHOP IN KABADDI (MEN)

DEPARTMENT OF PHYSICAL EDUCATION

2022 -2023

Kabaddi is a contact sport, native to the Indian subcontinent. It is one of the most popular sports in India, played mainly among people in villages. India has taken part in four Asian Games in kabaddi, and won gold in all of them. Four forms of kabaddi played in India are Amar, Suranjeevi, huttuttoo, and Gaminee. Amar is generally played in Punjab, Haryana,

The United States, Canada, and other parts of the world, mostly by Punjabi sportsmen. Suranjeevi is the most played form of kabaddi in India and the world. This is the form used in international matches generally and played in Asian Games. Huttuttoo was played by men in Maharashtra. In Gaminee style, seven players play on each side and a player put out has to remain out until all his team members are out. The team that is successful in outing all the players of the opponent's side secures a point. The game continues until five or seven such points are secured and has no fixed time duration.

Modern kabaddi is a synthesis of the game played in various forms under different names. Kabaddi received international exposure during the 1936 Berlin Olympics. The game was introduced in the Indian Olympic Games at Calcutta in 1938.

In 1950 the All India Kabaddi Federation came into existence and compiled standard rules. The Amateur Kabaddi Federation of India (AKFI) was founded in 1973. After formation of the Amateur Kabaddi Federation of India, the first men's nationals were held in Tamil Nadu (Madras) (renamed Chennai), while the women's were held in AKFI has given new shape to the rules.

Dr.R. KARTHIKEYAN
DIRECTOR

Physical Education
Ponnaiyah Ramajayam Institute
of Science & Technology (PRIST)
(Institution Deemed to be University
U/s 3 of the UGC Act. 1956)
Vallam, Thanjavur-613 403. Tamil Nadu.

The Asian Kabaddi Federation (AKF) was founded under the chairmanship of kabaddi.

In 1979, a return test between Bangladesh and India was held at different places of India including Mumbai, Hyderabad, and Punjab. The Asian Kabaddi Championship was arranged in 1980 and India emerged as champion and Bangladesh runner-up. Bangladesh became runner-up again in 1985 in the Asian Kabaddi Championship held in Jaipur, India. The other teams in the tournament were Nepal, Malaysia and Japan. The game was included for the first time in the Asian Games in Beijing in 1990. India, China, Japan, Malaysia, Sri Lanka, Pakistan, and Bangladesh took part. India won the gold medal and has also won gold at the following six Asian Games in Hiroshima in 1994, Bangkok in 1998, Busan in 2002, Doha in 2006 and Guangzhou in 2010.

An attempt to popularise kabaddi in Great Britain was carried out by Channel 4, who commissioned a programme dedicated to the sport. The programme, kabaddi in the early 1990s, however, failed to capture viewer attention despite fixtures such as West Bengal Police versus the Punjab. Kabaddi was axed in 1992. Alt-rock band The Cooper Temple Clause formed a kabaddi team in 2001 and were, at one stage, ranked seventh in the British domestic standings.

In the 1998 Asian games held at Bangkok (Thailand), the Indian kabaddi team clinched the gold medal. The chief coach of the team was former kabaddi player and coach Flt. Lt. S P Singh.

In a major upset, seven-time gold medalist India suffered their first-ever loss in 28 years at the 2018 Asian Games to South Korea in the men's Kabaddi group A game. In the semi-final, Iran sent the seven-time Asiad champions packing with a 27-18 win. India, who took home the bronze for reaching the semi-finals, did not play in the final since the introduction of the Games in the Asiad in 1990 at Beijing.

There Are So Many Affencive Skills In Kabaddi, we are selected five important major skills as follows.

- 1, The Hand Touch
- 2, The Foot Touch
- 3, The Toe Touch
- 4, The Sudden/Squat Leg Thrust
- 5, The Roll/Side/Front/Back Kick

R. Karthikeyan

Dr.R. KARTHIKEYAN
DIRECTOR

Physical Education
Ponnaiyah Ramajayam Institute
of Science & Technology (PRIST)
(Institution Deemed to be University
U/s 3 of the UGC Act. 1956)
Vallam, Thanjavur-613 403. Tamil Nadu.

1 - The Hand Touch

Although this is one of the most basic offensive skills in Kabaddi, it requires plenty of practice in order to successfully apply it during a raid. This Kabaddi raiding skill involves tagging one or more defenders with either hand to score points for the raiding team (more defenders tagged, more points scored). Touching the defenders with the tip of a finger also counts.

The different situations that call for the application of this fundamental raiding skill include when there are 5 or fewer defenders on the field of play, when the defenders form a very close chain (in this situation, the risk of getting tackled is reduced when using the hand touch instead of other Kabaddi offensive skills), when the defenders are predominantly playing on the baulk line, and while the raider changes direction and can take the defenders by surprise.

Depending on the raider's typical offensive style, there are several types of hand touches, including:

- Running Hand Touch – this skill is best applied when the raider targets the corners and 2nd/supporting players during a natural, cross step, or running raid (the raider should run naturally to tag the targets but with an escape plan in mind, instead of running blindly).
- Turning Hand Touch – the raider suddenly changes direction and immediately tries to touch the Corner/2nd in the other direction; this skill serves as a surprise attack and should be applied only every now and then by the same raider; so that the defenders would not be able to anticipate it
- Stooping Hand Touch – the raider lunges for a defender's foot/ankle/leg (typically a Corner or Cover) by stooping forward or sideward and outstretching his arm; this sudden forward/sideward thrust of the body typically takes defenders by surprise, but if not careful, the risk of thigh hold is also increased
- Hopping Hand Touch – the raider makes a hopping movement when approaching one of the Corners/ Ins, to rapidly reduce the distance between them and achieve his goal; attacking closer to the defenders' lobby(a marked area parallel to the end line) can make it easier for him to get back to his side
- Feint & Hand Touch – the raider can create a deceptive situation using his upper body as part of his tactics, in order to divert the defenders' attention from his hands and then apply the hand touch to their surprise; excellent footwork is also required.

Vallam, Thanjavur-613 403. Tamil Nadu.

2 - The Foot Touch

- The foot touch is also among the fundamental skills of Kabaddi that raiders commonly use to score points. When executing this Kabaddi raiding skill, the raider uses his entire foot, instead of just a toe, to tag one or more defenders. Physical fitness and leg strength in particular are required for the execution of this skill which typically involves a single-leg hip thrust in the direction of the target. The raider then proceeds with dragging his foot towards the defenders in an attempt to touch one or more – this is known as “SLIP” in Kabaddi. The slip enables the raider to rapidly cover a larger area of the defending team’s half of the court, maximizing his chances of touching defenders with his foot.

3 The Toe Touch

- One of the most popular Kabaddi raiding skills, the toe touch is similar to the foot touch but the raider only uses his toe to tag one or more antis. This offensive skill is preferred by raiders who want to play safer because it can be executed while maintaining a certain distance from the defenders. When applying the toe touch, the raider’s leading leg should be fully extended, the elbows should be flexed, and the center of gravity should be shifted towards the other leg for proper balance. Likewise, the raider should try to apply this raiding skill nearer the midline to minimize the risk of getting captured with the ankle hold and increase his/her chances of getting back to safety.

4 The Sudden/Squat Leg Thrust

- These Kabaddi offensive skills share similarities with the foot touch and toe touch because they also involve a sudden thrust of the leg, often unexpected by the antis, especially when it comes to the skill called sudden leg thrust. The raider is free to slide/drag the attacking leg both sideward to backward and forward to sideward to touch two or more defenders to their surprise but to the raiding team’s benefit. The squat leg thrust is applied by a raider in a squatting or crouching position, preferably closer to the midline for an easier escape, by thrusting either leg towards the antis. Both of these fundamental skills of Kabaddi require rapid reaction so that the raider can capitalize on the opportunities to score points in due time.

of Science & Technology (PRIST)
(Institution Deemed to be University
U/s 3 of the UGC Act. 1956)
Vallam, Thanjavur-613 403. Tamil Nadu.

5 The Roll/Side/Front/Back Kick

- These different types of kicks in Kabaddi are regularly used by escape-minded raiders because it allows them to maintain a pretty safe distance and often achieve their goal. These widely accepted Kabaddi offensive skills should not be applied violently though (the scope of the game is to touch/tag the defenders, not to hurt them). Raiders who initiate a .back, front, roll/curve, or sidekick typically target the Covers of the defending team. Agile movement and leg strength are essential to the execution of these Kabaddi raiding skills, which are best applied when there are 4 or fewer defenders on the court or when the antis play on the baulk line. A back-kick, in particular, can be executed while running, standing, feinting, or changing direction.
- In addition to these fundamental skills of Kabaddi, professional Kabaddi players also use advanced Kabaddi offensive skills that include rolling on the mat and crawling back to the raiding team's side, jumping over a chain of defenders who are holding hands in order to score multiple points, and ducking as low as possible, below the arm level of the chain, to escape unscathed as in the sensational Kabaddi raiding skill Dubki.

ACADEMIC CULTURAL FEST 2019-2020

“ETHNOMATHEMATICS”

REPORT

Venue : CRD- Block Seminar Hall

Date : 27.07.2018

Department of Mathematics planned a Mathematics Cultural function entitled “ETHNOMATHEMATICS” on 27.07.2018. The programme began with the prayer followed by the welcome address by **Dr. S. Subramaniam**, Head of Department of Mathematics. **Dr. A. Venkatesh**, Professor, Department of Mathematics, A.V.V.M.Sri Pushpam College, Thanjavur was the chief guest. He addressed about the Mathematics cultural events and its system with the students that the Self-esteem underscores confidence in one’s beliefs and values. It emerges from attitudes that a person develops towards something, which could be a personal vision such as profession objectives, lifestyle, and other special responsibilities.

Every Student gave good performance in this function. The programme ended with the vote of thanks delivered by **Dr. A.Usha**, Assistant professor of Mathematics.

Global fusion2K18

The Department of Computer science and Engineering, School of Engineering and Technology, Ponnaiyah Ramajayam Institute of Science & Technology (PRIST), organized Competition on "Global fusion cultural events" on March 25, 2019 in Silver Jubilee Hall, The programme started at 10.00 AM The events start with Tamil thaivazhthu & Niruvanarvazhthu & Special Address by our Hon'ble Pro Vice-Chancellor Dr.S.Udayakumar, Hon'ble Registrar Dr.M.AbdulGhanikhan, Hon'ble Special Officer Dr.S.Nithyanandam followed by respected Deans & principal . They are the pillar to support and guidance to organize the cultural events successfully.

The students have participated in various activities, such as Bharatanatyam , Carnatic solo song, Musical Instrument, Singing, Dancing etc.. cultural events gone with lot of funs & enjoyment.

The cultural events successfully concluded with Senior Student Speech, Prize distribution for the winners, followed by vote of thanks & National anthem.

DEPARTMENT OF CIVIL ENGINEERING

About the Programme

Tensegrity structures consist of strings (in tension) and bars (in compression). Strings are strong, light, and foldable, so tensegrity structures have the potential to be light but strong and deployable. Pulleys, NiTi wire, or other actuators to selectively tighten some strings on a tensegrity structure can be used to control its shape. The article describes some principles we have found to be true in a detailed study of mathematical models of several tensegrity structures. We describe properties of these structures which hold quite generally. We describe how pretensing all strings of a tensegrity makes its shape robust to various loading forces. Another property asserts that the shape of a tensegrity structure can be changed substantially with little change in the potential energy of the structure. Thus shape control should be inexpensive. This is in contrast to the control of classical structures which require substantial energy to change their shape.

The term of tensegrity was introduced by Fuller in the middle 50th of XX century. There are several definitions of this concept. For the purpose of this paper the tensegrity is defined a pin-jointed system with a particular configuration of cables and struts that form a statically indeterminate structure in a stable equilibrium. Infinitesimal mechanism should exist in a tensegrity with equivalent self-stress state. Major advantages of tensegrity are: large stiffness-to-mass ratio, deployability, reliability and controllability.

About the Programme

3D printing is a process where a digital model created using computer-aided design software (CAD) is turned into a physical three-dimensional object by adding material a layer at a time. There are many methods of melting or softening the material to produce the layers. Whilst the technology has been around for 30 years it's only in the last 5 years, and the rise of desktop 3D printers, that people have become aware of its game changing potential across all industries. It is also known as additive manufacturing and is changing the way in which we manufacture and create, but not just in industry. Innovative designs are being used to develop machine parts, prosthetic limbs, sustainable housing and even 3D-printed medications. Empower your students to produce real world solutions and prepare them with needed skills to thrive in future careers. There are several ways to print and all those available are additive, differing mainly in the way layers are built to create the final object. Some methods use melting or softening material to produce the layers. Selective laser sintering (SLS) and fused deposition modeling (FDM) are the most common technologies using this way of 3D printing. Another method is when we talk about curing a photo-reactive resin with a UV laser or another similar power source one layer at a time. The most common technology using this method is called stereolithography (SLA). Printing technology, also known as Additive Manufacturing (AM), refers to processes used to generate a 3D object in which layers of material are successively formed under a computer controlled program to create a physical object. The 3D file source is usually sliced into several layers, each layer generating a set of computer controlled instructions. Both 3D printing and additive manufacturing reflect that the technologies share the theme of sequential-layer material addition or joining throughout a 3D work. 3D printing technologies can be split up into 2 groups: direct and indirect 3D printing. The main difference lies in the fact that the design is directly made from 3D printing (direct) or 3D printing was used in the process of creating your model (indirect).

The objects manufactured through 3D printing processes can be of almost any shape or geometry. They are typically produced using digital model data from a 3D model or another electronic data source such as a STereoLithography (STL) file, one of the most common file types that 3D printers can read. The term 3D printing originally referred to a process that deposited a binder material onto a powder bed with inkjet printer heads layer by layer. More recently, the term 3D printing is being used in popular vernacular to encompass a wider variety

of additive manufacturing techniques. For professionals, the additive manufacturing name remains more popular for its broader sense and longer existence. Other terms are also employed, such as desktop manufacturing, rapid manufacturing, direct digital manufacturing, and rapid prototyping.

CULTURAL ACTIVITY 2018-2019

CULTURAL FEST 2K19 REPORT

The Department of Computer Science conducted Cultural Activity named CULTURAL FEST 2K19 (which sounds festival with the full of Mysteries and Intelligence) for the year 2018-2019 on 14.12.2018.

The Grand Session began with its Inaugural function conducted by Computer science Association at 9.30 A.M. Dr.S.Udhayakumar, Registrar the Chief Guest for that occasion. The other dignitaries include Dr.K.Saravanan (DEAN and Head of the Department, Computer science), Faculty members and other department teaching and non-teaching faculty members.

It started with the auspicious note of invoking the almighty in the form of prayer song sung by Dr.GPreethi and G.Gayathri which was followed by lighting the kuthuvilakku by the dignitaries. The DR.P.Sathya welcomed the august gathering by her universal welcome address.

Dr. K.Saravanan, The Dean spreaded her goodness by her intellectual presidential address. She motivated the students to participate in all the events conducted by the colleges. His speech made the students to think out of the box.

Followed by, Prof.G.Gayathri, delivered the felicitation address. His speech composed of the achievements made by the students of the department and also the efforts taken to improve their skills by the department.

Prof P.Karthik, Staff Coordinator of Symposium delivered her insight of the day by her speech about CULTURAL FEST 2K19. She gave a knowledgeable address for the gathering by her explanation about cultural fest 2k19 events.

The introduction to Chief Guest was given by Mr.S.Vijay (student).

Dr.S.Udhayakumar, the Chief Guest gave the inaugural address. He motivated the students to become a program developer. He gave energy and enthusiasm to the gathering by his precious words. His speech helped the students for their holistic development.

The Cultural Activity started with its events (Singing, group singing, western dance and folk dance) by 10.30 A.M.

Valedictory was conducted around 4.00 P.M. Valuable feedback was given by the participants from other colleges. The Winners of the events conducted were appreciated by awards and prizes by the dignitaries. The occasion was ended with National Anthem to expose the patriotism.

Prof P.Karthik and DR.P.Sathya were the emcee for the Grand occasion.

Science & Technology (IIST)

(Institution Deemed to be University)

Thanjavur, Tamil Nadu, India

Thangaraj Kumarasamy an Institute of Science and Technology is a project is inaugurated by I. S. Jaffar GC, near 1450, is situated at 4 km from Tiruchengudi and 15 km from Tiruppur along the National Highway 7. Accredited by NAAC, the college spreads over five campuses establishing the academic excellence and deliverance to the society in the form of Graduate, Post Graduate and professional. Under the able guidance of Prof. P. Narayana, founder and Chancellor of PPSU University, the University is poised to establish academic excellence with quality education. It is situated in the temple city of Thanjavur, the pinnacle of glorious Chola dynasty vision for developing smart city and set a new set-up. The university offers a classical blend of technology, culture and ethics.

About the Conference

The conference NCRIT 2019 is the joint effort of Mechanical, Civil, Electronics and Communication, Computer Science and Electrical Engineering departments. The main objective of this conference is to spread collective knowledge amongst the various engineering fields. The conference NCRIT 2019 forms a platform to share and gain fresh insights into the issues and challenges related to Engineering and Technology disciplines.

Heat Transfer, Thermodynamics, and Energy Systems

Topics

- Alternate Fuels
- Big Data Technology & Cloud Computing
- Information Security
- Internet of Things (IoT)
- Telecommunication Techniques
- Robotics
- Bio-medical Instrumentation
- Intelligent Building Technology
- Water and Waste water Treatment
- Transportation Systems
- Power Systems and Distribution
- Industrial Process Modeling

Last Date for Submission: 21st Mar 2019
Acceptance Intimation: 1st week of April 2019

* Selected Papers will be published in Journal of Emerging Technologies and Innovative Research (JETIR), IJERT Approved Journal

Registration Fee: 500 INR

Eligibility

B.Tech students of all Disciplines

DEPARTMENT OF ENGLISH
SCHOOL OF ARTS AND SCIENCE

Department of English conducted Awareness of trends in modern technology -Cultural Fest' 18 on 07.03.2019 to accomplish the following objectives:

- To enhance creativity.
- To encourage to showcase their talents.

The programme began with the invocation followed by the welcome address by Dr.K.Shibila, Head the Department of English. Dr.K.Saravanan, Dean, School of Arts and Science, gave presidential address. The following events were conducted for the English department students: Solo song, Group song, Group dance, Solo dance, Mime, Henna. Students enthusiastically participated in all the events and exhibited their talents. The winners were awarded with certificates. The programme ended with vote of thanks by Dr.R.A.Rajasekaran, Professor of English.

Outcomes

- Helped to stage their talents.
- Elevated confidence to participate in competition

ACADEMIC CULTURAL FEST 2019-2020

“AESTHETIC VALUES OF MATHEMATICS”

REPORT

Venue : CRD- Block Seminar Hall

Date : 31.01.2020

Department of Mathematics planned a Mathematics Cultural function entitled “AESTHETIC VALUES OF MATHEMATICS” on 31.01.2020. The programme began with the prayer followed by the welcome address by Dr. S. Subramaniam, Head of Department of Mathematics. Dr. A. Venkatesh, Professor, Department of Mathematics, A.V.V.M.Sri Pushpam College, Thanjavur was the chief guest. He addressed about the Mathematics cultural events and its system with the students that the Self-esteem underscores confidence in one’s beliefs and values. It emerges from attitudes that a person develops towards something, which could be a personal vision such as profession objectives, lifestyle, and other special responsibilities.

Every Student gave good performance in this function. The programme ended with the vote of thanks delivered by Dr. A.Usha, Assistant professor of Mathematics.

CULTURAL FEST - 2K20

Cultural activities provide opportunities to the students to express themselves, build confidence, increase capabilities to work in team and develop social skills that are essential for their overall development.

Cultural activities are an important part of the education system. Keeping in view the importance of cultural activities University has been providing opportunity to the students to showcase their talent in cultural activities as a regular feature at Prist Deemed to be University, Vallam, Thanjavur. Students participate in various cultural programmes and exhibits their talent in Dancing, Singing, Literary, Fine Arts, Enacting, Poem Recitation, Instrument Playing, One minute show, Mime, Folk Dance etc.

The following activities were organized on regular basis, while others cultural events were organized as per guidelines of Government and these programmes were conducted by the committee of the specific events.

The School of Arts & Science Conducted Cultural Fest - 2K20 for the year 2019-2020 on 9.1.2020.

The Grand Session began with its Inaugural function conducted by Computer science Association at 9.30 A.M. Mr.P.Palaniappan , Director, Info Sys. Thanjavur the Chief Guest for that occasion. The other dignitaries include Dr.L.Chinnappan (DEAN), HOD & Faculty members and other department teaching and non-teaching faculty members.

It started with the auspicious note of invoking the almighty in the form of prayer song sung by Mrs G.Precchi and P.Sathya which was followed by lighting the kuthuvilakku by the dignitaries. The R.Banumathi welcomed the august gathering by her universal welcome address.

Dr. K.Saravanan, The Hod spreaded her goodness by her intellectual presidential address. She motivated the students to participate in all the events conducted by the colleges. His speech made the students to think out of the box.

Followed by, Prof P.Karthik, delivered the felicitation address. His speech composed of the achievements made by the students of the department and also the efforts taken to improve their skills by the department.

Dean
School of Arts & Science
Ponnaiyah Ramajayam Institute of
Science & Technology (PRIST)
Deemed to be University
Vallam, Thanjavur - 613 403.

The introduction to Chief Guest was given by Mr.S. Chandra Varun (Student). Mr.P.Palaniappan, the Chief Guest gave the inaugural address. He motivated the students to become a program developer. He gave energy and enthusiasm to the gathering by his precious words. His speech helped the students for their holistic development.

All the Events (Dancing, Singing, Literary, Fine Arts, Enacting, Poem Recitation, Instrument Playing, One minute show, Mime, Folk Dance, etc) are started with its events by 10.45 A.M. Valedictory was conducted around 4.00 P.M. Valuable feedback was given by the participants from other colleges. The Winners of the events conducted were appreciated by awards and prizes by the dignitaries. The occasion was ended with National Anthem to expose the patriotism.

Prof Dr.S. Thiru Nirai Senthil and DR.R.Maruthi were the emcee for the Grand occasion.

DEPARTMENT OF CIVIL ENGINEERING

About the Programme

The ultimate goal is to store excess energy in or along-side the Solar Roadways. This renewable energy replaces the need for the current fossil fuels used for the generation of electricity. This, in turn, reduces the greenhouse gases by half. The Solar Roadways system would, at present, cost about three times what it costs to install an asphalt road, but would be more durable, more easily replaced in a modular fashion, and able to pay for itself by generating more electricity than our economy can consume. At just 15% efficiency, far below what is expected, a 100% Solar Roadways enabled driving infrastructure would produce three times total electricity demand. There are additional benefits as well, which is a built-in smart grid, major new investment, and job creation, the economic benefits inherent in global leadership in building the most advanced clean energy infrastructure every dollar invested in renewable sources, ultimately generates returns, because the resource is not burned and lost.

Road Surface Layer: This is the top most layers of the assembly & also from this layer the solar rays will reach up to the photovoltaic cells; they should be translucent and high-strength. Also, this is made in such a fashion that it is rough enough to provide great traction to avoid the skidding of vehicles. The material is made rough but the material used is translucent, it still passes sunlight through it to the solar collector photovoltaic cells embedded within it, along with LEDs & a heating element. And it is tough enough for handling today's heaviest loads under the worst conditions and it is made water-proof so that it can prevent electronics layer beneath

it. Electronics Layer Contains a microprocessor board with support circuitry for sensing loads on the surface and controlling a heating element. By implementing this technology no more snow/ice removal and no more school/business closings due to inclement weather in the snow falling regions. Electronics layer collects energy from the sun, it is the base plate layer that distributes power (collected from the electronics layer) and data signals (phone, TV, internet, etc.) "down-line" to all homes and businesses connected to the Solar Roadway.

Each panel's covers an area of about 4.39 square feet. The Solar panels generate 48 watt. 15840 panels for 1 mile. 414.984MWh produced per year for 1 mile. The glass has undergone both 3D Finite Element Method analysis and actual physical load testing at civil engineering labs. The results showed that Solar Roadways can handle trucks up to 250,000lbs (113,398kg). Originally, it was thought that Solar Roadways panels would need to support only about 80,000lbs (36,287kg), the maximum legal limit for a semitruck. Upon further research, it became apparent that since logging trucks have no scales in the woods, which can be exceeded. The goal was then adjusted to 150,000lbs. It was subsequently learned that oil companies can get permission to move refinery equipment up to 230,000lbs on frozen roads, so the goal was increased to 250,000lbs.

About the Programme

Soil nailing is a remedial construction measure to treat unstable natural soil slopes or unstable man-made (fill) slopes as a construction technique that allows the safe over-steepening of new or existing soil slopes. The technique involves the insertion of relatively slender reinforcing elements into the slope – often general purpose reinforcing bars (rebar) although proprietary solid or hollow-system bars are also available. Solid bars are usually installed into pre-drilled holes and then grouted into place using a separate grout line, whereas hollow bars may be drilled and grouted simultaneously by the use of a sacrificial drill bit and by pumping grout down the hollow bar as drilling progresses. Kinetic methods of firing relatively short bars into soil slopes have also been developed.

Bars installed using drilling techniques are usually fully grouted and installed at a slight downward inclination with bars installed at regularly spaced points across the slope face. A rigid facing (often pneumatically applied concrete, otherwise known as shotcrete) or isolated soil nail head plates may be used at the surface.[1] Alternatively, a flexible reinforcing mesh may be held against the soil face beneath the head plates. Rabbit proof wire mesh and environmental erosion control fabrics and may be used in conjunction with flexible mesh facing where environmental conditions dictate.

Soil nail components may also be used to stabilize retaining walls or existing fill slopes (embankments and levees); this is normally undertaken as a remedial measure.

CULTURAL FEST - 2K20

Cultural activities provide opportunities to the students to express themselves, build confidence, increase capabilities to work in team and develop social skills that are essential for their overall development.

Cultural activities are an important part of the education system. Keeping in view the importance of cultural activities University has been providing opportunity to the students to showcase their talent in cultural activities as a regular feature at Prist Deemed to be University, Vallam, Thanjavur. Students participate in various cultural programmes and exhibits their talent in Dancing, Singing, Literary, Fine Arts, Enacting, Poem Recitation, Instrument Playing, One minute show, Mime, Folk Dance etc.

The following activities were organized on regular basis, while others cultural events were organized as per guidelines of Government and these programmes were conducted by the committee of the specific events.

The School of Arts & Science Conducted Cultural Fest – 2K20 for the year 2019-2020 on 9.1.2020.

The Grand Session began with its Inaugural function conducted by Computer science Association at 9.30 A.M. Mr.P.Palaniappan , Director, Info Sys, Thanjavur the Chief Guest for that occasion. The other dignitaries include Dr.L.Chinnappan (DEAN), HOD & Faculty members and other department teaching and non-teaching faculty members.

It started with the auspicious note of invoking the almighty in the form of prayer song sung by Mrs G.Preethi and P.Sathya which was followed by lighting the kuthuvilakku by the dignitaries. The R.Banumathi welcomed the august gathering by her universal welcome address.

Dr. K.Saravanan, The Hod spreaded her goodness by her intellectual presidential address. She motivated the students to participate in all the events conducted by the colleges. His speech made the students to think out of the box.

Followed by, Prof P.Karthik, delivered the felicitation address. His speech composed of the achievements made by the students of the department and also the efforts taken to improve their skills by the department.

ABOUT US

The institute was founded in 1985 by Prof. P. Murugesan. It was initially known as the Institute of Computer Science and Technology. Murugesan founded the institute to introduce computer education to the Thanjavur District. In 1988, the institute received affiliation from Bharathidasan University to offer postgraduate diploma programmes in computer applications. Thereafter it expanded to include an Arts and Science College, College of Engineering and Technology, College of Education, Research Institution, and Polytechnic.

Report on
Event “Essay Competition”
By
Art & Craft Circle Committee

1. Objective of the Event:

- Essay must be original and unpublished. Plagiarized entries will be rejected.
- Essay must be written by one person. Co-authored essays are not accepted.
- This Event gives students an opportunity to showcase their various talents and interact with their teachers in a more informal environment.
- The importance of cultural activities is preparing students for real life and strengthening their personal skills.
- Cultural activities not only help students to identify themselves with the Department/College, but also assist students to develop themselves in a desired field and also improve skills such as organizational, presentation, leadership and interpersonal communication.
- As cultural activities are of paramount importance, the department/College encourages all extra co-curricular activities that are both in line with the educational objectives of the institution and meet the needs of the students.
- Students participate in arts and culture at varying levels of skill and engagement.

2. Content & Schedule :

11.00 – 11.05 AM	Inauguration presided Dr. L. Chinnappa Dean, School of Arts and Science
11.05 – 11.10 AM	Welcome address Prof. S.Amaresen, Associate Professor Department of Computer Science
11.15 – 11.20 AM	Instruction to the Students Dr.G. Preethi Associate Professor Department of Computer Science
11.20 – 01.10 PM	Time for Uploading a File

3. Event Details:

The essay should have a fresh point of view, Originality, Grammar, Ideas, Concepts and Unique writing style

Please put your name and class on top/bottom of your page without fail before submitting.

4. Event Contact Details:

Event Email: pristartcraft@gmail.com

Event Link: <https://forms.gle/p4gLK6F9zCTyZaVV8>

Event Contact Person: Team Unique Event

5. Outcome :

It also aims to inspire society to learn from the young minds and to think about how each of us can make a difference in the world.

- Encourage the young writer
- Set new benchmark of Talent

6. Conclusion :

The Programme was a grand success. The students got an opportunity to prove their skills in extra Co-curricular activities.

Chief Guest: Dr.T.V.Christy vice Chancellor, PRIST UNIVERSITY, Thanjavur
Dr. L. Chinnappa, , Dean School of Arts and Science

Art is intended to be a form of appreciation of beauty and expression of emotional power. Culture serves as a guideline for behavior, dress, language, and demeanor in a situation, which serves as a template for expectations in a social group. Arts festivals are a cultural highlight in many towns, cities and countries worldwide. Celebrations of the richness and diversity of culture and creativity, they often encompass a variety of contemporary and traditional art forms, music, arts and crafts.

Ponnaiyah Ramajayam Institute of Science and Technology (PRIST) was organized Inter-collegiate Cultural event "Art Valley" Theme- Universal Beauty on 27/06/2022 to 30.06.22 at PRIST Block. The programme started at around 10.00 A.M with Prayer song sung by our students. The purpose of the programme was students must develop their creativity and expose their talents without hesitation and able to adopt any type of working environment in future. Hon.Vice Chancellor. T.V.Chirsty was the chief guest of the event. Who gave a wonderful motivational speech with little story. Dr. Smitha Elsa Peter, Associate Professor, ECE and Mr.S.Rasakumar, Department of English were the Coordinators of the event. The following events were conducted: Rangoli, Instrumental music, Paper Dress making competition, Poster Making, Pencil powder drawing, Sand drawing. Students from various schools were participated and won prizes. The programme ended with the vote of thanks which was delivered by Dr.S. Smitha Elsa Peter, Associate Professor, ECE .

2.	Glass Painting	M.Mariya Jessi	AP/ENGLISH
3.	Clay – Designing	Dr.K.Arivukkani	AP/ENGLISH
4.	Scenaires Making (Painting)	S.Santhiya	AP/ENGLISH
5.	Rock Painting	M.Thamizhmani	AP/ENGLISH

The programme started with welcome address given by Ms.S.Santhiya, Assistant professor of English. Followed that presidential address given by our Dean, school of Arts and Science Dr. L. Chinnappa. Next to that Chief guest Dr.T.V.Christy Vice Chancellor, PRIST University, Thanjavur who gave the felicitation address on the programme. The purpose of Arts club is to provide students who have an interest in art, an opportunity to explore art and craft forms beyond what is offered in the curriculum.

It gives students the opportunity to work individually and in groups. The benefit of a creativity club is having a group to spark new ideas while also learning to push past mental or emotional blocks. It improves the imagination skill in entertainment. It gives the students artistic outlet and to help each enrich interest for art and personal experience through art. Students were eagerly participated on each programmes and they enjoyed learning with fun. The faculties are encouraged the students to be a part of it. The whole day passed with the positive surrounding and delighting way.

The event in charges were submitted the winners list. The winners of the programme were honored by the chief guest and they get winning certificates yet all other participants received certificates of participating. The day closes by the song sung by our college students. The programme ended with the note of vote of thanks proposed by Prof.S.Punniamoorthy Assistant professor of English.

Minutes of the programme:

Programme Name: Vision Quest

Date: 20.04.23

Venue: PRIST Block Seminar hall , PRIST University, Thanjavur

Time: 10.am

Dignitaries on Dais:

Resource person: Dr. S.Subramaniam Head the Department of Mathematics
Dr. L. Chinnappa, Dean School of Arts and Science.

The programme started with welcome address given by Mr.S.Rasakumar, Assistant professor of English. Followed that valuable speech was given by our Dean, school of Arts and science Dr. L. Chinnappa. Dr. S.Subramaniam, Head the Department of Mathematics was the resource person of the programme. He gave a lecture on Vision Quest. The programme reflected the role of spirituality and contemplative thinking in Indigenous cultures. He provided an important connection between the participants.

The resource person was taken the session powerfully revealed the purpose of the program was to review performance of the team and set goals with a fresh perspective and larger vision. The program includes training in the skills of awareness, spiritual protection, and the second level of quest, direct experience with holding protection for a real Vision Quest plus group and individual process. Dr.S.Subramaniam made a magnificent training programme which makes the students to participate in most interesting way. This training will enable people to build a program based business as a Vision Quest facilitator in their local community. The programme ended with the note of vote of thanks proposed by Prof. K.Veenai Muthu Assistant professor of Tamil.

Time : 10 am to 11.am

Dignitaries on Dais:

Judge- Dr. A.Usha, Dean, Student affair

Dr. L. Chinnappa, Director Admission, Dean School of Arts and Science

HOD'S of various Departments

The programme started with welcome address given by Dr.R.Iniyavan, Head the Department of English. Followed that grand speech was given by our Dean, School of arts and science Dr. L. Chinnappa. Dr.A.Usha, Dean, Student affair was the judge of the competition 'Creative Writing on Nature in literature'. Who motivated the students inaugurate the auspicious function. The intention of the event is express creative writing skills from the students. It inspired students to use their imagination to bring bags of personality and flair to their work. It focused on more traditional, technical forms of writing, like journalistic and academic styles, but instead displays imagination and invention. Students were participated in essay writing, drawing, story writing, poem writing, and making handiercrafts things and won prizes. The programme ended with the note of vote of thanks proposed by Prof. J.Subarna

DEPARTMENT OF ENGLISH
SCHOOL OF ARTS AND SCIENCE

Department of English conducted Awareness of trends in modern technology - Shakespeare club Fest'18 on 'Attitude towards social connection in modern trends' on 30.01.2019 to accomplish the following objectives:

- To enhance creativity and know modern technology.
- To encourage to showcase their talents.

The programme began with the invocation followed by the welcome address by Dr.K.Shibila, Head the Department of English. Dr.K.Saravanan, Dean, School of Arts and Science, gave presidential address. The following events were conducted for the English department students: Essay writing, poem writing, eloquence on the theme of Attitude towards social connection in modern trends. Students enthusiastically participated in all the events and exhibited their talents on using the theme. The winners were awarded with certificates. The programme ended with vote of thanks by Dr.R.A.Rajasekaran, Professor of English.

Outcomes

- Helped to stage their talents.
- Encouraged to participate in competition

Activity Report: Animal Health Care Workshop

Organizer: M.S. Swaminathan Club, School of Agriculture

Date: Oct 16th 2018

Location: School of Agriculture Auditorium

Objective:

To enhance students' knowledge and practical skills in animal health care, emphasizing preventive measures, early diagnosis, and treatment of common animal diseases.

Agenda:

1. Introduction and Welcome Remarks

- The event began with a welcome address by Dr.K.Shiv , highlighting the importance of animal health care in agricultural practices.

2. Expert Sessions

- Dr.P Latha : "Understanding Common Animal Diseases"

provided an overview of prevalent animal diseases, their symptoms, and prevention strategies.

- Dr.P Latha "Effective Vaccination and Biosecurity Measures"

This session focused on vaccination schedules and biosecurity protocols to minimize disease outbreaks.

3. Practical Demonstrations

Hands-on Training: Students participated in demonstrations of basic veterinary procedures, including administering vaccines and performing health checks.

- Case Studies: Analysis of real-life case studies involving diagnosis and treatment strategies.

4. Interactive Q&A Session

- Students engaged in a lively Q&A with the expert, discussing various scenarios and practical challenges in animal health care.

5. Closing Remarks and Acknowledgments

- The workshop concluded with a summary of key takeaways and a vote of thanks by Dr. Shanthi, Faculty Advisor.

Attendance:

students and faculty members attended, demonstrating a strong interest in advancing their knowledge of animal health care.

Outcomes:

- Enhanced understanding of common animal health issues and preventive measures.
- Improved practical skills in veterinary procedures.
- Increased awareness of the importance of biosecurity in preventing disease outbreaks.

Feedback:

Participants expressed high satisfaction with the workshop, appreciating the blend of theoretical knowledge and hands-on experience. Suggestions for future events included more case studies and extended practical sessions.

Requisition Letter

Thanjavur,

13.08.2018

From

The Head,
Department of Mathematics,
PRIST Deemed to be University,
Thanjavur.

To

The Registrar,
PRIST Deemed to be University,
Thanjavur.

Respected sir

Sub: Requesting Permission to Conduct "Brain Teasers-2018" for the Students of the Mathematics Department, School of Arts and Science-Reg.

The Department of Mathematics has planned to organize an academic mathematical club activity related function for the Mathematics Department students on August 20, 2018 for the academic year 2018-2019. So, I request that you give us permission to conduct the program.

Thanking you,

Yours faithfully,

Brain Teasers - 2018

REPORT

Venue : CRD- Block Seminar Hall

Date : 20.08.2018

One of the major aims of teaching mathematics is to create interest and to remove the fear of the subject. A good mathematics teacher can involve the students in several co-curricular activities such as Mathematics Club, Mathematics Fair, and Mathematics Laboratory. Mathematics Club helps the students in having an idea of the practical utility of mathematics in addition to creating their interest in Mathematics.

Meaning:

The meeting place when a number of persons meet to discuss something's or to study some problems is known as club & when student of mathematics sit & discuss together is called mathematics club. Maths club play an important role in motivating the students to learn mathematics with interest & involvement clubs provide excellent opportunity for students to break away from class room teaching of rigid & structured class room environment which is informal in nature student choose their own activities & passed them in a free & relaxed manner club provider a lot of freedom of expression for the students & it supplements class room learning.

Objective of the activities:

- To encourage creativity
- To ignite interest for mathematics
- To reinforce the theorems, concepts, applications

Dr. Jigneshwar

- To establish design thinking
- To encourage real life applications of the concepts
- To develop team spirit and leadership

In this academic fest titled "Brain Teasers-2018" on 20.08.2018. The programme began with the invocation followed by the welcome address by Dr. S. Subramaniam, Head of Department of Mathematics. Dr. V. Ramadass, Professor, Department of Mathematics, PRIST Deemed to be University, Thanjavur was the resource person. He discussed about the "Brain Teasers-2018" with the 90 number of students that the Self-esteem underscores confidence in one's beliefs and values. It emerges from attitudes that a person develops towards something, which could be a personal vision such as career objectives, lifestyles, and other personal responsibilities.

Activities planned and executed

Grade	Activity
1	Puzzles
2	Number Art
3	Cracking Riddle videos
4	Making Clock using paper plate and match sticks
5	Roman numerals using match sticks
6	To Solve the Mathematical Equations
7	Different kinds of the mathematical Modeling
8	Geometrical City/Park using solid shapes
9	Find the Scientists Name
10	Making a number wheel to determine squares and cubes of numbers
11	Designs using square root spirals
12	Working models of theorems based on circles and triangles

Students' reflections on the activities conducted:

- The making of working models and the activities turned out to be a fun activity.
- There is a lot of learning from each other when creative activities are executed in teams.
- It is great to know that art, physics, and design thinking can be integrated in learning Mathematics.
- Students felt that they are confident to apply in real life the concepts on which they could successfully create working models.

Finally Every Student gave good response to this interactive session. The programme ended with the vote of thanks delivered by Dr. R. Balakumar, Assistant professor of Mathematics.

SCHOOL OF ENGINEERING AND TECHNOLOGY

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

Name of CLUB: Acer Club

Theme of program: VLSI DESIGNS

Date: 22.03.2019

Venue: Prist, vallam

Organized by: Acer Club

No of participants: 50

Introduction

- Very-large-scale integration (VLSI) is the process of creating an **integrated circuit (IC)** by combining thousands of transistors into a single chip. VLSI began in the 1970s when complex semiconductor and communication technologies were being developed. The microprocessor is a VLSI device.
- Before the introduction of VLSI technology, most ICs had a limited set of functions they could perform. An **electronic circuit** might consist of a CPU, ROM, RAM and other glue logic. VLSI lets IC designers add all of these into one chip.
- The electronics industry has achieved a phenomenal growth over the last few decades, mainly due to the rapid advances in large scale integration technologies and system design applications. With the advent of very large scale integration (VLSI) designs, the number of applications of integrated circuits (ICs) in high-performance computing, controls, telecommunications, image and video processing, and consumer electronics has been rising at a very fast pace.
- The current cutting-edge technologies such as high resolution and low bit-rate video and cellular communications provide the end-users a marvelous amount of applications, processing power and portability. This trend is expected to grow rapidly, with very important implications on VLSI design and systems design.

The Department of Computer science and Engineering

Cybernavts club conduct Debugging Programs

The Department of Computer science and Engineering, School of Engineering and Technology, Ponnaiyah Ramajayam Institute of Science & Technology (PRIST), organized Competition on “Debugging Programs” on October , 2019 in C Block Seminar Hall , The programme started at 10.00 AM The events start with Tamil thai vazhthu & Niruvanar vazhthu & Special Address by our Dr.K. Padmapriya prof followed by respected Deans & principal . They are the pillar to support and guidance to organize the events successfully.

The students have participated in various activities, such as code Rally listening etc.The events gone with lot of funs & enjoyment.

The events successfully concluded with Senior Student Speech, Prize **distribution** for the winners, followed by vote of thanks & National anthem.

Debugging Programs

A debugger is a program with special privileges allowing it to start, stop, pause, inspect, and even modify the state of other programs while they are running for the purpose of finding software bugs. It is a fundamental tool for software development.

Controlling Program Execution One of the most fundamental functions of the debugger is to “pause” a program either at a specified source line, or when a certain condition is true to let you inspect what is going on. The simplest way to do this is through setting a breakpoint.

Breakpoints

Breakpoints A breakpoint is a designated source line where the program will pause each time it is reached. When being debugged, the program will run up to (but not including) the line at the breakpoint. When paused, you can inspect the program’s state, change the state (memory, registers), set other breakpoints, etc. Virtually the only thing you cannot do is change the source code or compilation options - those require you to end your debug session and recompile before they take effect. Once done, you may continue. The software will run until it hits another breakpoint (or the same one again). Breakpoints can be set by clicking on the line numbers at the left of the source editor. You do not need to recompile after changing breakpoints. When set, a red square appears. You can clear it by clicking again. Any number of breakpoints can be set.

Stepping

Once paused, there are several ways you may step through your program, with the basic ones listed below:

Continue Executes until the next breakpoint (including arriving at the current breakpoint again) or watch is triggered
Step Into Executes only the first line in the called function then stops
Step Over Executes the next function call in its entirety, without stepping you through the intermediate instructions
Step Out Runs to the end of the current function, then stops at the next line in the calling function
Run to Cursor You may select a source line using the cursor in the editor.

By definition, an exception condition is exceptional - a properly-written program should never terminate this way. You should always check for (or prevent) errors, catch them, and handle them properly.

Common Exceptions Some of the more common exceptions that you should watch out for are:

- Dividing by zero, or other invalid arithmetic operations

- Reading or writing past the end of an array `int x[100]; x[100] = 1; // oops! (remember x[100] runs from x[0] to x[99])`

- Reading or writing memory that does not belong to the program, for instance with an uninitialized pointer or reading past the end of a block of memory `int *p; // uninitialized pointer p=2; // what does p point to?`

- Trying to read something into a buffer that is too small `char dst[10]; strcpy(dst,very long string); // copying a string that is too large gets(dst,f); // reads a line from file - length unknown (hopefully less than 10!)`

Brain Teasers - 2018

REPORT

Venue : CRD- Block Seminar Hall

Date : 20.08.2018

One of the major aims of teaching mathematics is to create interest and to remove the fear of the subject. A good mathematics teacher can involve the students in several co-curricular activities such as Mathematics Club, Mathematics Fair, and Mathematics Laboratory. Mathematics Club helps the students in having an idea of the practical utility of mathematics in addition to creating their interest in Mathematics.

Meaning:

The meeting place when a number of persons meet to discuss something's or to study some problems is known as club & when student of mathematics sit & discuss together is called mathematics club. Maths club play an important role in motivating the students to learn mathematics with interest & involvement clubs provide excellent opportunity for students to break away from class room teaching of rigid & structured class room environment which is informal in nature student choose their own activities & passed them in a free & relaxed manner club provider a lot of freedom of expression for the students & it supplements class room learning.

Objective of the activities:

- To encourage creativity
- To ignite interest for mathematics
- To reinforce the theorems, concepts, applications

- To establish design thinking
- To encourage real life applications of the concepts
- To develop team spirit and leadership

In this academic fest titled "Brain Teasers-2018" on 20.08.2018. The programme began with the invocation followed by the welcome address by Dr. S. Subramaniam, Head of Department of Mathematics. Dr. V. Ramadass, Professor, Department of Mathematics, PRIST Deemed to be University, Thanjavur was the resource person. He discussed about the "Brain Teasers-2018" with the 90 number of students that the Self-esteem underscores confidence in one's beliefs and values. It emerges from attitudes that a person develops towards something, which could be a personal vision such as career objectives, lifestyles, and other personal responsibilities.

Activities planned and executed

Grade	Activity
1	Puzzles
2	Number Art
3	Cracking Riddle videos
4	Making Clock using paper plate and match sticks
5	Roman numerals using match sticks
6	To Solve the Mathematical Equations
7	Different kinds of the mathematical Modeling
8	Geometrical City/Park using solid shapes
9	Find the Scientists Name
10	Making a number wheel to determine squares and cubes of numbers
11	Designs using square root spirals
12	Working models of theorems based on circles and triangles

Students' reflections on the activities conducted:

- The making of working models and the activities turned out to be a fun activity.
- There is a lot of learning from each other when creative activities are executed in teams.
- It is great to know that art, physics, and design thinking can be integrated in learning Mathematics.
- Students felt that they are confident to apply in real life the concepts on which they could successfully create working models.

Finally Every Student gave good response to this interactive session. The programme ended with the vote of thanks delivered by Dr. R. Balakumar, Assistant professor of Mathematics.

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

Name of CLUB: Elkon Club

Theme of program: Embedded Systems

Date: 23.03.2020

Venue: Prist,vallam

Organized by: Elkon Club

No of participants: 50

Introduction

An embedded system is a combination of computer hardware and software designed for a specific function. Embedded systems might also function within a larger system. These systems can be programmable or have a fixed functionality.

Objective

- The objective of an embedded system is to control a specific function within a device and allow the user to interact with it. Embedded systems are small computers that are part of a larger system, such as a machine or device. They are typically designed to perform a limited number of tasks repeatedly, but more advanced systems can control entire operating systems.
- Embedded systems are made up of a computer processor, memory, and input/output devices, and are often embedded within electrical or electronic hardware and mechanical parts. They often have real-time computing constraints because they typically control the physical operations of the machine they are embedded within.
- When designing an embedded system, manufacturers focus on the dedicated functions the system needs to perform and optimize it to perform each task efficiently. They may use a variety of processors, including general purpose, specialized, or custom designed for the application.

SCHOOL OF EDUCATION
CLUB ACTIVITY FOR THE ACADEMIC YEAR 2019 – 2020
TAMIL ILLAKIYA MANDRAM

REPORT OF THE PROGRAMME

Tamil Mandram serves as a platform for the students for enriching their talents in the three components of the Tamil language “Iyal, Isai, and Nadagam” Guest lectures by eminent scholars give an exposure to the in depth knowledge in the literature. Tamil Mandram was inaugurated by our respectful Dr.S.Selvaraj Assistant Professor of Tamil. Talents of our students were exhibited models related teaching of Tamil Grammar.

Programme was organized by our Department of Education on 15/11/2019. The programme was started at around 10.00 am. The purpose of the program students must be having some valuable ideas to improve their grammar skills. The programme co-ordinator Dr.S.Selvaraj, Assitant Professor, School of Education to conduct the program. The Dean Dr. K.B.Jasmine Suthanthira Devi to start the activities with valuble instructions to the Students. Students making the program grand success.

REPORT

Venue : CRD- Block Seminar Hall

Date : 17.08.2020

One of the major aims of teaching mathematics is to create interest and to remove the fear of the subject. A good mathematics teacher can involve the students in several co-curricular activities such as Mathematics Club, Mathematics Fair, and Mathematics Laboratory. Mathematics Club helps the students in having an idea of the practical utility of mathematics in addition to creating their interest in Mathematics.

Meaning:

The meeting place when a number of persons meet to discuss something's or to study some problems is known as club & when student of mathematics sit & discuss together is called mathematics club. Maths club play an important role in motivating the students to learn mathematics with interest & involvement clubs provide excellent opportunity for students to break away from class room teaching of rigid & structured class room environment which is informal in nature student choose their own activities & passed them in a free & relaxed manner club provider a lot of freedom of expression for the students & it supplements class room learning.

Objective of the activities:

- To encourage creativity
- To ignite interest for mathematics
- To reinforce the theorems, concepts, applications
- To establish design thinking

In this academic festentitled "Queen of Science -2020"on17.08.2020. The programme began with the invocation followed by the welcome address by Dr. S. Subramaniam, Head of Department of Mathematics. Dr.V.Ramadass, Professor, Department of Mathematics, PRIST Deemed to be University, Thanjavur was the resource person. He discussed about the Queen of Science -2020with the 85 number of students that the Self-esteem underscores confidence in one's beliefs and values. It emerges from attitudes that a person develops towards something, which could be a personal vision such as career objectives, lifestyles, and other personal responsibilities.

Activities planned and executed

Grade	Activity
1	Paper Presentation in Various mathematics area
2	Number Art
3	Making Clock using paper plate and match sticks
4	Roman numerals using match sticks
5	Prepare animal using fraction cutouts ($1/2$, $1/4$ etc.)
6	Mathematical Modeling Shapes with its Applications
7	Geometrical City/Park using solid shapes
8	Puzzles
9	Making a number wheel to determine squares and cubes of numbers
10	Designs using square root spirals
11	Working models of theorems based on circles and triangles
12/	Easy Writing with relevant mathematical titles

Students' reflections on the activities conducted:

- > The making of working models and the activities turned out to be a fun activity.
- > There is a lot of learning from each other when creative activities are executed in teams.
- > It is great to know that art, physics, and design thinking can be integrated in learning Mathematics.
- > Students felt that they are confident to apply in real life the concepts on which they could successfully create working models.

Finally Every Student gave good response to this interactive session. The programme ended with the vote of thanks delivered by Dr..R.Abirami, Assistant professor of Mathematics.

SCHOOL OF ENGINEERING AND TECHNOLOGY

DEPARTMENT OF CIVIL ENGINEERING

NAME OF CLUB : CAD SQUAD CLUB.

Theme of program : TECHNICAL QUIZZES.

Date : 18/11/2020

Venue : Prist, Valam.

Organised by : CAD SQUAD CLUB.

No. of Participants : 60

INTRODUCTION :

To create awareness among students on Latest Innovations and Emerging Technologies, few clubs have been initiated in the Department of Mechanical Engineering. As a part of that, Robotic Club is initiated. The aim of this club is to excel the students in multi-disciplinary technologies. Here student teams must design, build and programming a robot to participate in various Robotic Competitions to be conducted by various organizations in India.

These club activities will help to develop professional engineering skills, leadership skills and communication skills among the students. With 3D CAD, you can share, review, simulate, and modify designs easily, opening doors to innovative and differentiated products that get to market fast.

Engineering drawing entails the use of graphical symbols such as points, lines, curves, planes and shapes. As a CAD operator, you may be designing buildings, machinery or component parts.

SCHOOL OF EDUCATION
CLUB ACTIVITY FOR THE ACADEMIC YEAR 2020 – 2021

HEALTH CLUB

REPORT OF THE PROGRAMME

Health Club serves as a platform for the students for enriching their talents in the components of the Yoga. Guest lectures by eminent scholars give an exposure to the in depth knowledge in the Yoga and Health Activities. Health Club was inaugurated by our respectful Dr.R.Gunasekaran Assistant Professor of Education and our students were practice Yoga activities.

Programme was organized by our Department of Education on 08/09/2020. The programme was started at around 10.00 am. The purpose of the program students must be having some valuable health habits and lead the life in peaceful manner. The programme co-ordinator Dr.R.Gunasekaran, Assitant Professor, School of Education to conduct the program. The Dean Dr. K.B.Jasmine Suthanthira Devi to start the activities with valuble instructions to the Students. Students making the program grand success.

Sub: Shakespeare club conducting JAM TALK

Shakespeare club and English department jointly organize a programme JAM TALK (create and telling story by a given word) for all Arts and Science students on 14.8.2020 (Friday). The faculties and class in charges are insisted to encourage the students to participate on it.

Those who are willing to participate in this programme are kindly registering your name in Shakespeare Club President Vinciya .A within couple of day.

Report of the JAM TALK (STORY TELLING)

Time: 11 am -1.00 pm

The programme begins with the Thamizhthai vazhththu. Shakespeare club president Vinciya .A , delivered welcome address. Chief guest Dr. L.Chinnappa gives amazing and enlightening speech to encourage the participants and all other students with few stories , those evoke our sense of creativity and our culture not only that but for the importance of the English language speaking .

Jam Talk: The In charge of the programme Dr.R.Iniyavan starts the programme .There are lots of funny and interesting words are given to the students. Students have to tell it to the audience. At the same time they have to tell a story by using that word, which makes more interesting, lot of students eagerly, participated in it.

Thanjavur.

Respected sir

Sub: Requesting Permission to Conduct "MOMATHS-Museum of Mathematics-2K21" for the Students of the Mathematics Department, School of Arts and Science-Reg.

The Department of Mathematics has planned to organize an academic mathematical club activity related function for the Mathematics Department students on August 16, 2021 for the academic year 2021-2022. So, I request that you give us permission to conduct the program.

Thanking you,

Yours faithfully,

ACADEMIC CLUB FEST

2021-2022

MOMATHS-Museum of Mathematics-2K21

REPORT

Venue : CRD- Block Seminar Hall

Date : 16.08.2020

One of the major aims of teaching mathematics is to create interest and to remove the fear of the subject. A good mathematics teacher can involve the students in several co-curricular activities such as Mathematics Club, Mathematics Fair, and Mathematics Laboratory. Mathematics Club helps the students in having an idea of the practical utility of mathematics in addition to creating their interest in Mathematics.

Meaning:

The meeting place when a number of persons meet to discuss something's or to study some problems is known as club & when student of mathematics sit & discuss together is called mathematics club. Maths club play an important role in motivating the students to learn mathematics with interest & involvement clubs provide excellent opportunity for students to break away from class room teaching of rigid & structured class room environment which is informal in nature student choose their own activities & passed them in a free & relaxed manner club provider a lot of freedom of expression for the students & it supplements class room learning.

Objective of the activities:

- To encourage creativity
- To ignite interest for mathematics

Dr. S. S. Srinivasan

- To reinforce the theorems, concepts, applications
- To establish design thinking
- To encourage real life applications of the concepts
- To develop team spirit and leadership

In this academic festentitled "MOMATHS-Museum of Mathematics-2K21"on16.08.2021. The programme began with the invocation followed by the welcome address by **Dr. S. Subramaniam**, Head of Department of Mathematics. **Dr.V.Ramadass**, Professor, Department of Mathematics, PRIST Deemed to be University, Thanjavur was the resource person. He discussed about the "MOMATHS-Museum of Mathematics-2K21"with the 75 number of students that the Self-esteem underscores confidence in one's beliefs and values. It emerges from attitudes that a person develops towards something, which could be a personal vision such as career objectives, lifestyles, and other personal responsibilities.

Activities planned and executed

Grade	Activity
1	Various Application in Mathematical Models
2	Number Art
3	Various Application in Statistical Models
4	Making Clock using paper plate and match sticks
5	Roman numerals using match sticks
6	Models of solid shapes
7	Geometrical City/Park using solid shapes
8	Puzzles
9	Making a number wheel to determine squares and cubes of numbers
10	Designs using square root spirals
11	Working models of theorems based on circles and triangles
12/	PPT Presentation on applications of any one mathematical concept of logarithms/sequences
13	Poster Presentations

Students' reflections on the activities conducted:

- The making of working models and the activities turned out to be a fun activity.
- There is a lot of learning from each other when creative activities are executed in teams.
- It is great to know that art, physics, and design thinking can be integrated in learning Mathematics.

SCHOOL OF ENGINEERING AND TECHNOLOGY

DEPARTMENT OF CIVIL ENGINEERING

NAME OF CLUB : DESIGN MASTER CLUB.

Theme of program : To improve the leadership quality among the students.

Date : 27/10/2021

Venue : Prist, Valam.

Organised by : DESIGN MASTER CLUB.

No. of Participants : 60

INTRODUCTION :

Fashion designing club aims at bringing out the inherent talent in students on the side of creativity. It also enables students to develop the unrecognized skills in them to a level where the student believes to turn out a creation of one's own. The club enables students to interact with people who have paved a path in the field of designing. In addition to that, the club focuses on promoting the creativity skills of students related to clothing, accessories, jewellery and even interior art.

The club envisions to be a suitable platform for various skills in designing which can ensure the growth of students in the path of creativity and entrepreneurship. The club emphasises on social skills, intellectual skills, organising skills, moral values, personality and character development of students.

The Design Club is more than just an extracurricular activity—it's an investment in your child's future. By joining, students will: Develop Critical Skills: Gain valuable skills in creativity, critical thinking, and problem-solving. Boost Confidence: Build confidence as they see their ideas come to life through design.

**The Department of Computer science and Engineering
Cybernavts club conduct Code Rally Listening Event**

The Department of Computer science and Engineering, School of Engineering and Technology, Ponnaiyah Ramajayam Institute of Science & Technology (PRIST), organized Competition on “code Rally listening” events on September 14, 2022 in C Block Seminar Hall , The programme started at 10.00 AM The events start with Tamil thai vazhthu & Niruvamar vazhthu & Special Address by our Dr.K. Padmapriya prof followed by respected Deans & principal . They are the pillar to support and guidance to organize the events successfully.

The students have participated in various activities, such as code Rally listening etc.The events gone with lot of funs & enjoyment.

The events successfully concluded with Senior Student Speech, Prize distribution for the winners, followed by vote of thanks & National anthem.

CODE RALLY LISTENING

code Rally listening is an activity that involves team mates giving each other suggestions to try out. Each week, team members give each other recommendations. Every member of the team can contribute one suggestion per week, or you can assign teammates weeks to take turns giving assignments.

Examples of suggestions may include:

- Start the morning with a one-minute meditation
- Set a reminder to take water breaks
- Try this recipe for veggie lasagna
- Listen to the new Fiona Apple album
- Do a funny walk every time you get a snack

Suggestions can be silly or serious. We recommend giving participants a few different options to choose from. At the end of the week, the group gets together to share results and discuss outcomes.

Listening

This part contains strategies for the Listening part of IELTS, structure and tips.

Listening is the first part of IELTS exam. It lasts for **30 minutes** and consists of four sections with 10 questions each. Each section is different in its topic, the number of speakers, and the overall difficulty. This page will walk you through the basics of IELTS Listening, various types of tasks and provide tips on how to improve your score.

Deemed to be University
Vallam, Thanjavur - 613 403.

IELTS Listening Structure

Section 1 is a conversation between two people who make an arrangement. It can be something like a travel agency phone conversation, a talk between a shop assistant and a customer, a chat between a landlord and a tenant, and so on. This part tests your ability to catch and understand factual information.

Section 2 is a monologue. A person is giving a talk that can be about an activity, event, or arrangement. As there is only one person speaking, you won't have to adapt to several accents or paces. Again, the test-taker's skill to comprehend factual information is tested.

Section 3 is a talk between several speakers on an academic-related topic, such as preparing a term-paper, presentation, diploma etc. You will listen to these people discussing the issue and sharing their opinions on the matter. This section tests your ability to distinguish relevant information and understand the speaker's attitude about the issues discussed.

Section 4 is usually a lecture-type narrative by one person. It is an academic, term-packed speech on a topic that tests your ability to understand scientific terms and guess the meaning of those you possibly do not understand. The most difficult of the four, this section gauges your ability to understand the focus of the speech, the speaker's opinion on the ideas presented as well as factual information.

Sample Question

1. Table/flowchart/form completion involves filling the gaps in these documents. The order of information in the document and the recording is the same.

Write **NO MORE THAN THREE WORDS AND/OR A NUMBER** for each answer.

PACKHAM'S SHIPPING AGENCY – customer quotation form

Example

Country of destination: **Kenya**.....

Name: **Jacob 1**

Address to be collected from: **2** College, Downlands Rd

Town: **Bristol**

Postcode: **3**

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

Name of CLUB: SUPER NOVA CLUB

Theme of program: Story of Electronics

Date: 24.03.2022

Venue: Prist,vallam

Organized by: Electronics Society Club

No of participants: 50

Introduction

Club merely a four-letter word but holds a great meaning inside it. As the name suggests it teaches us to work in a team. In Super nova club we deal with electronics construction or automation of any hardware. Students who are interested in learning about and working with electronics can become a part of this club. In college, electronics clubs typically take place after college, in a classroom. It is of the student, for the student and by the student group. Faculty coordinators are in supporting role. There are also competitions and workshops related to robotics. At electronics competitions, teams of students design and build a electronic kit that can compete in a series of specific challenges and are motivated to represent college.

Objective

1. Attract student's interest into Electronics subject through interactive activities.
2. Encourage students to learn Electronics.
3. Lessen students feeling of fear in Electronics.
4. Promote Electronics Subject as an informative subject.

Activity Report: Integrated Farming System

Organized by: M S Swaminathan Club, School of Agriculture

Date: 20th December 2022

Venue: School of Agriculture Auditorium

Duration: 10:00 AM - 4:00 PM

Objective:

The workshop aimed to provide students and local farmers with practical insights into Integrated Farming Systems (IFS) to promote sustainable agriculture and enhance productivity.

Agenda:

1. Opening Session (10:00 AM - 10:30 AM):

The event commenced with a welcome address by the club president, followed by an introduction to the objectives of the workshop. A brief overview of IFS and its significance was presented.

2. Technical Session I (10:30 AM - 12:00 PM):

Dr. Arun Kumar, an expert in sustainable agriculture, delivered a lecture on the principles of IFS. He covered the integration of crops, livestock, and aquaculture to optimize resource use and improve farm income.

3. Lunch Break (12:00 PM - 12:45 PM):

Attendees had the opportunity to network and discuss insights from the morning sessions.

4. Technical Session II (12:45 PM - 2:15 PM):

HEAD
School of Agriculture
Ponnaiyah Ramajayam Institute of
Science & Technology (PRIST)
Institution Deemed to be University
U/s 3 of the UGC Act, 1956
THANJAVUR - 613 403, TAMIL NADU.

DEAN

Ponnaiyah Ramajayam Institute of
Science & Technology (PRIST)
Institution Deemed to be University
U/s 3 of the UGC Act, 1956
THANJAVUR - 613 403, TAMIL NADU.

A hands-on demonstration was showcasing the practical implementation of IFS techniques. Participants engaged in activities such as setting up a model integrated farm and learning about soil management and crop rotation strategies.

5. Panel Discussion (2:15 PM - 3:00 PM):

A panel of experts, including local farmers who have successfully implemented IFS, shared their experiences and answered questions from the audience. This session provided valuable real-world perspectives on the challenges and benefits of IFS.

6. Closing Session (3:00 PM - 4:00 PM):

The workshop concluded with a summary of key takeaways and a feedback session. Participants were encouraged to share their thoughts and suggestions for future events.

Attendance:

The workshop was attended by students from the School of Agriculture, 5 local farmers, and 5 faculty members.

Outcomes:

- Enhanced understanding of Integrated Farming Systems among participants.
- Increased awareness of sustainable farming practices.
- Strengthened community connections between students and local farmers.
- Valuable feedback for future workshops and educational activities.

Acknowledgements:

We extend our gratitude to Dr. Arun Kumar and the panel of experts for their invaluable contributions. Special thanks to the students, farmers, and faculty members for their active participation.

DR. T.V. CHRISTY VICE CHANCELLER
PRIST DEEMED TO BE UNIVERSITY, THANJAVUR.

PRESIDENTIAL ADDRESS

DR.L.CHINNAPPA, DEAN OF ARTS AND SCIENCE,
PRIST DEEMED TO BE UNIVERSITY, THANJAVUR.

EVENTS:

1. ART FROM WASTE
2. GLASS PAINTING
3. CLAY - DESIGNING
4. SCENERIES MAKING (PAINTING)
5. ROCK PAINTING

With Warm Regards

Dr.R.Iniyavan Head, Department of English
PRIST Deemed to be University,
Thanjavur.

Iniyavan

Minutes of the programme :

Programme Name: Shakespeare Club -Creative Arts Club competition

Date: 09.09.22

Venue : PRIST Block, Seminar hall

Time : 10 am

Dignitaries on Dais:

Chief Guest: Dr.T.V.Christy vice Chancellor, PRIST UNIVERSITY, Thanjavur

Dr. L. Chinnappa, . Dean School of Arts and Science

S.N.O	EVENT NAME	INCHARGES	DESIGNATION
1.	Art From Waste	J.Subarna	AP/ENGLISH
2.	Glass Painting	M.Mariya Jessi	AP/ENGLISH
3.	Clay – Designing	Dr.K.Arivukkani	AP/ENGLISH
4.	Scenaires Making (Painting)	S.Santhiya	AP/ENGLISH
5.	Rock Painting	M.Thamizhmani	AP/ENGLISH

The programme started with welcome address given by Ms.S.Santhiya, Assistant professor of English. Followed that presidential address given by our Dean, school of Arts and Science Dr. L. Chinnappa. Next to that Chief guest Dr.T.V.Christy Vice Chancellor, PRIST University, Thanjavur who gave the felicitation address on the programme. The purpose of Arts club is to provide students who have an interest in art, an opportunity to explore art and craft forms beyond what is offered in the curriculum.

It gives students the opportunity to work individually and in groups. The benefit of a creativity club is having a group to spark new ideas while also learning to push past mental or emotional blocks. It improves the imagination skill in entertainment. It gives the students artistic outlet and to help each enrich interest for art and personal experience through art. Students were eagerly participated on each programmes and they enjoyed learning with fun. The faculties are encouraged the students to be a part of it. The whole day passed with the positive surrounding and delighting way.

The event in charges were submitted the winners list. The winners of the programme were honored by the chief guest and they get winning certificates yet all other participants received certificates of participating. The day closes by the song sung by our college students. The programme ended with the note of vote of thanks proposed by Prof.S.Punniamoorthy Assistant professor of English.

Net2Net connection Report

The Department of Computer science and Engineering, School of Engineering and Technology, Ponnaiyah Ramajayam Institute of Science & Technology (PRIST), organized Competition on "Net2Net connection" eventson December03, 2018 in C Block Seminar Hall, The programme started at 10.00 AM The events start with Tamil thai vazhthu & Niruvananar vazhthu & Special Address by our Dr.L.S. Usharani prof followed by respected Deans & principal . They are the pillar to support and guidance to organize the events successfully.

The students have participated in various activities, such as Connection , puzzles etc.. The events gone with lot of funs & enjoyment.

The events successfully concluded with Senior Student Speech, Prize distribution for the winners, followed by vote of thanks & National anthem.

Net2Net connection

Connection games are activities meant to encourage interactions and help build bonds among players. Examples of games include personal trivia, photo challenges, and mingle Bingo. The purpose of these exercises is to make it easier for folks in large or distant groups to get to know each other and form relationships.

This list includes:

- picture connection games
- connection activities for adults
- connection games for students
- group connection activities
- connect games

Connection Game

- Two Truths and a Lie is one of the most popular connection games for students and coworkers. This exercise is a staple at orientations and team building events. The game asks participants to share two facts and one fiction with the group. Other players must then decide which claim is false. Telling the difference between reality and make-believe can be surprisingly difficult. Participants leave the game with a better understanding of their peers, along with fun facts and entertaining stories.

- Most folks play the game out loud. However, you could also post statements in a Slack thread and ask players to vote via emoji. TeamBuilding uses Two Truths and a Lie as part of our company directory. Each staff member creates a card on a Trello board that contains a picture, description of the teammate's role within the company, along with two true tidbits and one total fabrication.

Real-time machine learning

Real-time machine learning involves continuously training a machine learning model with live data instead of relying on historical testing data in an offline mode. This approach is practical when limited initial data is available for training or when the data needs to adapt to new patterns.

Real-time machine learning involves:

- Deploying machine learning models into production environments.
- Receiving live data.
- Continuously updating the model's predictions.

The technologies used to make Real-time Machine Learning?

The scenario involves building an app that utilizes machine learning to learn from user data in real time. The data is first streamed in real-time using Apache Kafka software to a model built and trained using the Spark library. While these specific technologies are not mandatory, they are commonly used for this use case.

Applying an ML model to the feature vector for prediction is crucial when responding to real-time requests using machine learning. However, using Golang can complicate things. Different approaches can be taken, such as using an -

- Inference endpoint
- Custom application code
- Cross-runtime algorithms
- Portable model formats

Criteria for real-time:

There are two evaluation criteria for real-time processing in general,

- **Faster data collection/processing:** This heavily depends on the infrastructure to collect and process the incoming data to be able to feed to the model as input features. For example, the data streaming from Apache Kafka/Kinesis should appropriately be handled and processed by stream processing engines like Apache Flink, Beam, Storm, Spark etc. The infrastructure and framework that supports maximum through must be chosen for real-time processing.
- **Faster data consumption:** This depends on achieving low latency and high throughput on the consumption side of the resultant data from the model. For example, the model serving infrastructure that produces/pulls model scores for the real-time requests should minimize the latency and maximize the throughput overall by considering caching layer for inferences(Prediction Store).

Types of real-time model processing:

When it comes to the real-time model processing, there are two types we can consider processing,

1. **Online scoring:** This produces in-session model inferences for the real-time requests/features from the consumption side.
2. **Online training/learning (continual learning):** This produces online training of a model to change/fine-tune weights and remodel/gain new learnings .

SCHOOL OF AGRICULTURE

About the programme:

The programme is about Apiculture. Beekeeping (or apiculture) is the maintenance of bee colonies, commonly in artificial beehives. Honey bees in the genus *Apis* are the most commonly kept species but other honey producing bees such as *Melipona* stingless bees are also kept. Beekeepers (or apiarists) keep bees to collect honey and other products of the hive: beeswax, propolis, bee pollen, and royal jelly. Other sources of beekeeping income include pollination of crops, raising queens, and production of package bees for sale. Bee hives are kept in an apiary or "bee yard"

Typical Seminar Content

1. **History of bee keeping:** In India first attempt to keep bees in movable frame hives was made in 1882 in Bengal in 1883-1884 in Punjab. Bee keeping was also started in the Travancore state (now Cochin) in 1917 and in Mysore in 1925
2. **Cultivation Techniques:** A container shaped like a box in which bees are kept so that their honey can be collected. Bee hives firstly recognized and promoted by the Philadelphia minister Lorenzo Langstroth in 1851.
3. **Methods of hiving:** a) Indigenous method: Fixed hive and Movable hive.
b) Modern methods : Langstroth hive and Newtons hive
4. **Economic and Business Considerations:** For those interested in turning their passion into a business, the seminar might include sessions on market analysis, business planning, marketing strategies, and regulatory considerations.
5. **Interactive Workshops:** Hands-on activities where participants can practice skills like inoculating substrates, setting up a cultivation system, or identifying different bee species. These practical sessions enhance learning and confidence.
6. **Q&A and Expert Panels:** Opportunities for attendees to ask questions and engage in discussions with experts in the field. These sessions allow participants to gain personalized insights and advice on specific topics of interest.

Benefits of Attending

HEAL
School of Agriculture
Ponnaiyah Ramajayam Institute of
Science & Technology (PRIST)
Institution Deemed to be University
U/s 3 of the UGC Act, 1956
THANJAVUR - 613 403, TAMIL NADU.

DEAN
School of Agriculture
Ponnaiyah Ramajayam Institute of
Science & Technology (PRIST)
Institution Deemed to be University
U/s 3 of the UGC Act, 1956
THANJAVUR - 613 403, TAMIL NADU.

1. Knowledge and Expertise: Attendees gain a thorough understanding of bee cultivation, from basic principles to advanced techniques, enabling them to start their own cultivation projects or enhance existing practices.

2. Practical Experience: Hands-on workshops and demonstrations provide valuable experience, allowing participants to apply what they've learned and troubleshoot common challenges.

3. Networking and Collaboration: The seminar provides opportunities to connect with like-minded individuals, experts, and potential collaborators, fostering a supportive community and opening doors to new opportunities.

4. Inspiration and Motivation: Exposure to successful case studies, innovative practices, and the broader potential of bee cultivation can inspire participants to pursue their own projects or ventures in the field.

DEPARTMENT OF ENGLISH

SCHOOL OF ARTS AND SCIENCE

Department of English conducted Technical Fest'18- 'Journal Writing on 06.04.2019 to accomplish the following objectives:

- To develop writing skills
- To encourage write journals

The programme began with the invocation followed by the welcome address by Dr.R.A.Rajasekaran, Professor of English. Dr.K.Saravanan, Dean, School of Arts and Science, gave presidential address. Dr.K.Shibila, Head the Department of English was the resource person. She gave a lecture on 'Journal Writing'. She handled the session in effective manner. She has given some important journal list and that methodology. Participants were eagerly interacted with the resource person and clear their doubts. The programme ended with vote of thanks by Ms.R.Visalakshi, Assistant, and Professor of English.

Outcomes

- Developed writing skills
- Learned how to write Journals

About the Programme

In this programme, we have addressed the question of How to cultivate the mushroom for commercial purpose. We have presented an elaborative structure for an all life science students. All the student and staff also interested to leaning the tips of mushroom cultivation. In this programme student get the beneficial role of mushroom cultivation. In the current scenarios mushroom are very nutritive component of food.

Nutritional value of mushrooms

Mushrooms contain an extra amount of vitamins B2 and B3. These vitamins take care of the metabolism and the release of energy from carbohydrates, proteins and fats. Vitamin B2 is also necessary for a healthy skin. Folic acid is necessary for growth and the production of blood. It is one of the few vitamins of which, on average, we take in too little from our food. Potassium is necessary for a healthy blood pressure and for muscle and nerve activity. Phosphorous takes care of healthy bones and teeth and of energy metabolism. Copper is necessary for your immune system, nerves and for the synthesis of body cells. All these nutritional values occur in high concentrations in mushrooms.

Mushrooms are the fruiting bodies of a fungus, just like apples are the fruiting bodies of an apple tree. A mushroom is a kind of fungus with the Latin name of *Agaricus bisporus*. Other cultivated mushrooms in the Netherlands are the oyster mushroom (*Pleurotus ostreatus*) and the shiitake (Japanese mushroom) (*Lentinula edodes*).

In the vegetable kingdom the mushroom is ranked with the heterotrophic organisms (lower plants). In contrast to the higher, green plants, these heterotrophs are not capable of

photosynthesis. Fungi are the scavengers of nature. In mushroom cultivation too, waste products such as chicken manure, horse manure, straw, gypsum and waste water (from their own composting) are used to produce a high-quality substrate from which the mushrooms will grow. Ammonia is removed by means of an ammonia washer from the process air before it is returned to nature. Even the ammonia from the air is used as a source of nitrogen in composting. The fungus, also called mycelium, uses the compost as a source of energy for its combustion, in which energy is released that is used for growth.

27th Km Milestone, Delhi-Bapur Bypass Road P.O Adhyatmik Nagar Ghaziabad - 201009

As per the culture of PRIST deemed to be university every academic year Department of commerce organizes inter college technical fest for the aspirants assembling from various engineering colleges with a very high competitive spirit to participant and with the strong determination to include their achievements & accomplishments to their resumes. These fests are organized every year with the objective to provide platform for the students to showcase their talent with a competitive spirit. The event was successful enough to attract as many as 350 registrations across the country for a two-day national level fest which includes all the events. Students are actively participated in all the events and presented their work. The fest executed with a total of 11 events planned and organized at its best of quality. Focusing on the types of events to include in the fest was decided by fest coordinators keeping the interest and need of the engineering student into

ANNA

consideration, with little emphasis on the fun full events behind the scene. The events like paper presentation, poster presentation, project expo, programming, creative writing and many more events were equally planned, executed and have managed to gather maximum response. As far as Paper presentation event is into consideration the registrations were done in advance as the paper scrutiny needed to be done and to give opportunity to present best innovative idea submitted during the fest days. A total nearing to 40 Innovative ideas were acknowledged in various papers and problem statements from nearly 20 esteemed colleges like Periyar,sastra etc.. Apart from these many fun events like gaming, etc. were also organized. The winners were encouraged with a cash prizes for all the events. For the academic toppers also gold and silver medals were given in the presence of their parents. Department feels proud to organize such a successful event and would like to convey thanks to Dean and management for their timely advice and cooperation for organizing successful Fest. Arranged nearly 25 stalls of food and games by the students voluntarily. Not to forget final year thanks for contributed their complete effort and participants for making Technical Fest a grand success.

TECHNICAL FEST 2018-2019
BRASIKO'18 REPORT

The Department of Computer Science conducted Game Event named BRASIKO'18 for the year 2018-2019 on 09.10.2018.

The Grand Session began with its Inaugural function conducted by Computer science Association at 9.30A.M. Mr.S.Stephen Raj, Director, Ads-E-Park, Chennai the Chief Guest for that occasion. The other dignitaries include Dr.K.Saravanan(DEAN and Head of the Department, Computer science), Faculty members and other department teaching and non-teaching faculty members.

It started with the auspicious note of invoking the almighty in the form of prayer song sung by Dr.G.Preethi and G.Gayathri which was followed by lighting the kuthuvilakku by the dignitaries. The DR.P.Sathya welcomed the august gathering by her universal welcome address.

Dr. K.Saravanan, The Dean spreaded her goodness by her intellectual presidential address. She motivated the students to participate in all the events conducted by the colleges. His speech made the students to think out of the box.

Followed by, Prof P.Karthik, delivered the felicitation address. His speech composed of the achievements made by the students of the department and also the efforts taken to improve their skills by the department.

Prof.G.Gayathri, Staff Coordinator of Symposium delivered her insight of the day by her speech about BRASIKO'18. She gave a knowledgeable address for the gathering by her explanation about BRASIKO'18 events.

The introduction to Chief Guest was given by Mr.R.Ragul (student).

Mr.S.Stephen Raj, the Chief Guest gave the inaugural address. He motivated the students to become a program developer. He gave energy and enthusiasm to the gathering by his precious words. His speech helped the students for their holistic development.

All the Events(Quiz, Group Quiz and Puzzle) are started with its events by 10.00A.M.

Valedictory was conducted around 4.00 P.M. Valuable feedback was given by the participants from other colleges. The Winners of the events conducted were appreciated by awards and prizes by the dignitaries. The occasion was ended with National Anthem to expose the patriotism.

Prof P.Karthik and DR.P.Sathya were the emcee for the Grand occasion.

ACADEMIC TECHNICAL FEST 2019-2020

“STATICA MATH”

REPORT

Venue : CRD- Block Seminar Hall

Date : 17.02.2020

Department of Mathematics organized a Technical fest entitled “**Statica Math**” on 17.02.2020. The programme began with the invocation followed by the welcome address by **Dr. R. Abirami**, Assistant professor of Mathematics. **Dr. A. Venkatesh**, Professor, Department of Mathematics, A.V.V.M.Sri Pushpam College, Thanjavur was the resource person. He discussed about the Statica Maths and its system with the students that the Self-esteem underscores confidence in one’s beliefs and values. It emerges from attitudes that a person develops towards something, which could be a personal vision such as career objectives, lifestyles, and other personal responsibilities.

Every Student gave good response to this interactive session. The programme ended with the vote of thanks delivered by **Dr. S. Subramaniam**, Head of Department of Mathematics.

To

The Principal/Dean/HOD

Dear Sir,

**Sub: Announcement of State level Technical Symposium “
MECHNOVA'19” to be held on 20th Sep 2019.**

PONNAIYAH RAMAJAYAM INSTITUTIONS was established in the year 1986 in the Delta district of Thanjavur by Prof. P. Murugesan, an Eminent Academician. Subsequently it was upgraded as “PRIST” Deemed to be University in the year 2008.

At this juncture, it is our pleasure to convey that the Department of Mechanical Engineering of PRIST Deemed to be University is organizing the State Level Technical Symposium “MECHNOVA'19” at our Campus.

This symposium is conducted for the benefit of the Mechanical Engineering students. Lease find herewith attached the Poster showing the details regarding the various events to be conducted for your kind perusal.

We would be extremely grateful if you could display the enclosed Poster on your Institution notice board and give a wide publicity among your students.

We anticipate the active participation from the students of your college.

STATE LEVEL TECHNICAL SYMPOSIUM

ORGANIZED BY

MECHANICAL ENGINEERING ASSOCIATION

Symposium Report

The initiative for conducting the state level Technical symposium – MECHNOVA'19 was taken by the final year students a month ago. The proposal was then prepared and submitted to the Management.

After getting approval from the Management, various committees such as Poster Printing, Catering, Registration, Certificate, Finance, Discipline, Decoration and Event committee comprising of all the second, third and Final year students were formed and the event started rolling on. Posters were printed and distributed to around 100 Institutions of the state and we started receiving the registration from then onwards and we have conducted the MECHNOVA' 19 with flying colors.

In the morning chief guest Dr.C.Sathyanarayanan, HoD, Department of Production Engineering, NIT, Trichy delivered an inspiring speech about “Entrepreneurship and Personal Development”. The Special Officer of P R Institutions also gave a wonderful speech. 75 students from 15 Institutions participated in various events namely Paper Presentation, Adzap, Cad Modelling, Autoquiz, Minimilitia, On spot Memes etc., from various Colleges across the state and more than 11,000 rupees of cash has been distributed as prize money to the students.

We thank the Management on behalf of our department , Dean, HoD, both Teaching and Non Teaching Staff members for permitting us to organize this event in a grand manner and we especially thank the participants from various colleges who made this event into a colorful and memorable event in our college history.

Sub: One day training programme on "Mushroom cultivation"

It is informed that a One-day training programme on "Mushroom cultivation" be arranged by the School of Agriculture on 12/11/2019 for the academic year 2019-20. Heads of the respected department are requested to inform their students to attend the programme. HODs are also requested to nominate one faculty member to co-ordinate the same.

SCHOOL OF AGRICULTURE

About the programme:

The programme is about Mushroom cultivation. Mushroom cultivation is the practice of growing edible fungi in controlled environments for consumption, research, and commercial purposes. This ancient agricultural technique, which dates back thousands of years, has evolved into a sophisticated industry that combines science, technology, and sustainability. By understanding the life cycle of mushrooms and creating optimal conditions for their growth, cultivators can produce a diverse array of mushroom varieties, from common button mushrooms to exotic species like shiitake and oyster mushrooms. Beyond its culinary appeal, mushroom cultivation offers benefits in sustainable agriculture, waste recycling, and nutritional enhancement, making it a compelling field of study and practice.

A mushroom cultivation seminar is an event designed to educate participants about the various aspects of growing mushrooms, from basic techniques to advanced practices. These seminars often target hobbyists, aspiring entrepreneurs, agricultural professionals, and students interested in fungi and sustainable agriculture. Here's an overview of what a typical mushroom cultivation seminar might include:

Typical Seminar Content

- 1. Introduction to Mushroom Biology:** A foundational overview of fungal biology, including the life cycle of mushrooms, types of fungi, and their ecological roles. This segment helps participants understand the scientific basis for cultivation practices.
- 2. Cultivation Techniques:** Detailed discussions on various cultivation methods, such as growing mushrooms on substrates like straw, sawdust, or coffee grounds. This section may cover both traditional techniques and modern innovations like indoor farming and vertical systems.
- 3. Environmental Requirements:** Insights into creating and maintaining optimal growing conditions, including temperature, humidity, light, and airflow. Participants learn how to set up and manage cultivation environments, whether in small-scale home setups or large commercial operations.
- 4. Disease and Pest Management:** Strategies for identifying and managing common issues such as contamination, pests, and diseases that can affect mushroom crops. This includes preventive measures and treatment options.

Institution Deemed to be University
11/s 3 of the UGC Act.1956
THANJAVUR - 613 403, TAMIL NADU.

5. **Harvesting and Post-Harvest Handling:** Techniques for harvesting mushrooms at the right stage and handling them properly to ensure quality and longevity. This section may also cover drying, packaging, and storage.

6. **Economic and Business Considerations:** For those interested in turning their passion into a business, the seminar might include sessions on market analysis, business planning, marketing strategies, and regulatory considerations.

7. **Interactive Workshops:** Hands-on activities where participants can practice skills like inoculating substrates, setting up a cultivation system, or identifying different mushroom species. These practical sessions enhance learning and confidence.

8. **Q&A and Expert Panels:** Opportunities for attendees to ask questions and engage in discussions with experts in the field. These sessions allow participants to gain personalized insights and advice on specific topics of interest.

Benefits of Attending

1. **Knowledge and Expertise:** Attendees gain a thorough understanding of mushroom cultivation, from basic principles to advanced techniques, enabling them to start their own cultivation projects or enhance existing practices.

2. **Practical Experience:** Hands-on workshops and demonstrations provide valuable experience, allowing participants to apply what they've learned and troubleshoot common challenges.

3. **Networking and Collaboration:** The seminar provides opportunities to connect with like-minded individuals, experts, and potential collaborators, fostering a supportive community and opening doors to new opportunities.

4. **Inspiration and Motivation:** Exposure to successful case studies, innovative practices, and the broader potential of mushroom cultivation can inspire participants to pursue their own projects or ventures in the field.

TECHNICAL SYMPOSIUM - PRISTCSCON-2K20

The Department of Computer Science conducted Symposium **PRISTCSCON - 2K20** for the year 2019-2020 on 19.10.2020.

The Grand Session began with its Inaugural function conducted by Computer science Association at 9.30 A.M. Mr.S.Kannan , Director, Info Tech, Chennai the Chief Guest for that occasion. The other dignitaries include Dr.L.Chinnappan (DEAN), Head of the Department, Computer science), Faculty members and other department teaching and non-teaching faculty members.

It started with the auspicious note of invoking the almighty in the form of prayer song sung by Mrs M.Aarathi and Sakila which was followed by lighting the kuthuvilakku by the dignitaries. The R.Rajayogeswari welcomed the august gathering by her universal welcome address.

Dr. K.Saravanan, The Dean spreaded her goodness by her intellectual presidential address. She motivated the students to participate in all the events conducted by the colleges. His speech made the students to think out of the box.

Followed by, Prof P.Karthikeyan, delivered the felicitation address. His speech composed of the achievements made by the students of the department and also the efforts taken to improve their skills by the department.

The introduction to Chief Guest was given by Mr.S. SaiKumar (Student). Mr.S.Kannan, the Chief Guest gave the inaugural address. He motivated the students to become a program developer. He gave energy and enthusiasm to the gathering by his precious words. His speech helped the students for their holistic development.

All the Events (Quiz, Group Quiz and Puzzle, etc) are started with its events by 10.45 A.M. Valedictory was conducted around 4.00 P.M. Valuable feedback was given by the participants from other colleges. The Winners of the events conducted were appreciated by awards and prizes by the dignitaries. The occasion was ended with National Anthem to expose the patriotism.

Prof P.Karthik and DR.P.Sathya were the emcee for the Grand occasion.

TECH TRISHNA

FEB 2K19

27th Km Milestone, Delhi-Hapur Bypass Road P.O Adhyatmik Nagar Ghaziabad - 201009

As per the culture of PRIST deemed to be university every academic year Department of commerce organizes inter college technical fest for the aspirants assembling from various engineering colleges with a very high competitive spirit to participant and with the strong determination to include their achievements & accomplishments to their resumes. These fests are organized every year with the objective to provide platform for the students to showcase their talent with a competitive spirit. The event was successful enough to attract as many as 350 registrations across the country for a two-day national level fest which includes all the events. Students are actively participated in all the events and presented their work. The fest executed with a total of 11 events planned and organized at its best of quality. Focusing on the types of events to include in the fest was decided by fest

coordinators keeping the interest and need of the engineering student into consideration, with little emphasis on the fun full events behind the scene. The events like paper presentation, poster presentation, project expo, programming, creative writing and many more events were equally planned, executed and have managed to gather maximum response. As far as Paper presentation event is into consideration the registrations were done in advance as the paper scrutiny needed to be done and to give opportunity to present best innovative idea submitted during the fest days. A total nearing to 40 Innovative ideas were acknowledged in various papers and problem statements from nearly 20 esteemed colleges like Periyar,sastra etc.. Apart from these many fun events like gaming, etc. were also organized. The winners were encouraged with a cash prizes for all the events. For the academic toppers also gold and silver medals were given in the presence of their parents. Department feels proud to organize such a successful event and would like to convey thanks to Dean and management for their timely advice and cooperation for organizing successful Fest. Arranged nearly 25 stalls of food and games by the students voluntarily. Not to forget final year thanks for contributed their complete effort and participants for making Technical Fest a grand success.

About the Programme

Electricity theft can be termed as fraud which can be in the form of meter tampering, illegal connections, billing irregularities and unpaid bills. The financial records indicate that most of the theft of electricity is in the form of stealing of power. In modern electronic meters, meter tampering and magnetic locking cannot be done. Hence now a days the most common type of power theft is done by hooking directly from the distribution lines. Electricity consumer dishonesty is a problem faced by all power utilities. Finding efficient measurements for detecting fraudulent electricity consumption has been an active research area in recent years. This project focusses on the detection of unofficial power consumption and high lightning some ways to prevent power theft.

- **Power Tapping:** Power theft is frequently committed during transmission by illegally tapping power lines to divert power to the required destinations. It is also done through illegal connections to power grid stations, which are cut during billing.
- **Meter fraud:** In many areas where meter readings are done manually, the person is frequently bribed to give false readings, and thus the amount paid is for less power than is actually consumed. Meters are also tampered with by obstructing the movement of the disc (usually electro-mechanical consists of slowly spinning discs to record the power consumed).

About the Programme

The vehicle is to be used in the Shell Eco-marathon competition, engineering standards are written in the rulebook for the urban concept division. With the goal of designing an energy efficient vehicle, matters such as safety, connections for equipment, size limits, visibility are all considered. If these constraints are not met, the vehicle will not be permitted in the Shell Ecomarathon race in the future. Spatial constraints were of primary concern during the design phase. Since material was purchased by previous teams, frame design and fabrication were started before the complete model was finished; therefore, when designing the various systems of the vehicle, the designer would need to check the frame model to assure that interference with the frame was not occurring. This added one more factor to consider during the design process.

Since combustion engines never achieve complete combustion, resulting extraneous gases add to the problem of global warming. Electric motors produce zero emissions; therefore, the application of urban electric driven vehicle will dramatically decrease the amount carbon dioxide (CO₂) contributing to global warming. One other environmental factor should be considered when weighing the switch from combustion engines to electric motors. Electric motor drives require a power source. Due to the need to apply many life cycles to the battery and the need for lightweight application, the use of lithium ion batteries are inevitable. Lithium is a rare-Earth element which produces considerable waste water to obtain. This would result in a negative impact on the environment. Regulations should be in place to minimize the amount of waste water for lithium harvesting.

About the Programme

Electricity theft can be termed as fraud which can be in the form of meter tampering, illegal connections, billing irregularities and unpaid bills. The financial records indicate that most of the theft of electricity is in the form of stealing of power. In modern electronic meters, meter tampering and magnetic locking cannot be done. Hence now a days the most common type of power theft is done by hooking directly from the distribution lines. Electricity consumer dishonesty is a problem faced by all power utilities. Finding efficient measurements for detecting fraudulent electricity consumption has been an active research area in recent years. This project focusses on the detection of unofficial power consumption and high lightening some ways to prevent power theft.

- **Power Tapping:** Power theft is frequently committed during transmission by illegally tapping power lines to divert power to the required destinations. It is also done through illegal connections to power grid stations, which are cut during billing.
- **Meter fraud:** In many areas where meter readings are done manually, the person is frequently bribed to give false readings, and thus the amount paid is for less power than is actually consumed. Meters are also tampered with by obstructing the movement of the disc (usually electro-mechanical consists of slowly spinning discs to record the power consumed).

About the Programme

The vehicle is to be used in the Shell Eco-marathon competition, engineering standards are written in the rulebook for the urban concept division. With the goal of designing an energy efficient vehicle, matters such as safety, connections for equipment, size limits, visibility are all considered. If these constraints are not met, the vehicle will not be permitted in the Shell Ecomarathon race in the future. Spatial constraints were of primary concern during the design phase. Since material was purchased by previous teams, frame design and fabrication were started before the complete model was finished; therefore, when designing the various systems of the vehicle, the designer would need to check the frame model to assure that interference with the frame was not occurring. This added one more factor to consider during the design process.

Since combustion engines never achieve complete combustion, resulting extraneous gases add to the problem of global warming. Electric motors produce zero emissions; therefore, the application of urban electric driven vehicle will dramatically decrease the amount carbon dioxide (CO₂) contributing to global warming. One other environmental factor should be considered when weighing the switch from combustion engines to electric motors. Electric motor drives require a power source. Due to the need to apply many life cycles to the battery and the need for lightweight application, the use of lithium ion batteries are inevitable. Lithium is a rare-Earth element which produces considerable waste water to obtain. This would result in a negative impact on the environment. Regulations should be in place to minimize the amount of waste water for lithium harvesting.

About the Programme

First road tunnel construction across the Bosphorus linking Europe and Asia: innovation and international collaboration to solve technical challenges. Turkey. International Tunnelling Association (ITA) - Tunnelling Project of the Year, 2015. Engineering News-Record (ENR) - Global Best Project, Bridge/Tunnel, 2016. One Tunnel to Connect Two Continents. The only city settled on two continents, the city of Istanbul dates back to 660 BC and is now one of the most populous in the world with over 15 million people. The first road tunnel crossing of the Bosphorus in Turkey will provide an important transportation link between the European and Asian sides of Istanbul, reducing travel time from 100 minutes to 15 minutes. It is part of a 9 mile (14.6 kilometres) highway project. Complex Conditions Call For Innovation and Collaboration Four lanes of roadway will pass in stacked upper and lower decks through 3.3 miles (5.4km) of tunnel. This includes a 45 foot diameter (13.7 metre) bored submarine tunnel over 2 miles (3.4km) long and twin New Austrian Tunnelling Method (NATM) tunnels, each 0.6 miles (1 km). At depths of 330 feet (100m) below the water surface, in sand and gravel, the single pass segmental lining will be required to resist 11 bars of water pressure and large seismic forces. Construction also requires tunnelling through poor quality rock at both the Asian and European sides of the crossing, and mixed-face conditions beneath the Bosphorus. Special attention had to be given to design of the bored tunnel lining segments, gaskets, and bolted connections. The significant technical challenges faced by the designers and builders are coupled with both obstacles and opportunities brought together by the multinational design and construction teams. The design and construction coordination was accomplished with support by staff in Turkey, Korea, Great Britain, Austria, and the United States. The construction drawings were bilingual, Turkish and English; and the design was required to meet Turkish, European, and American codes.

CIRCULAR

SUB: WEBINAR ON “USE OF E-WASTE IN CONCRETE”

It is informed that **WEBINAR ON “USE OF E-WASTE IN CONCRETE”** will be held on 25.02.2021 for the academic year 2020-2021. The detailed schedule will be given by the department. Heads of the departments are requested to inform their students about the **Webinar On “USE OF E-WASTE IN CONCRETE”** and motivate them to attend the class. HODs are also requested to nominate one faculty member to co-ordinate the same.

About the Programme

- The idea of managing and recycling electronic waste is getting broad acceptance because it is a resource that is rapidly available in bulk, contains various hazardous substances and has a low recycling rate. Meanwhile, increasing industrialization and urbanization has increased concrete production and consumption, resulting in environmental problems via resource depletion. As a result, the utilization of aggregates prepared from e-waste is a viable solution to different conservation and environmental issues caused by e-waste and concrete production. This article discusses the types of e-waste and types and production techniques of e-waste aggregates (e-waste plastic and cathode ray tube (CRT) glass). The primary focus of this article is the influence of e-waste aggregates on the properties of concrete, including workability, fresh and dry density, compressive strength, flexural strength, splitting tensile strength, and thermal resistance. Moreover, this study also discusses the suitable percentages of e-waste aggregates that can be incorporated as natural coarse aggregates to prepare sustainable concrete for structural and nonstructural purposes. It can be concluded that e-waste modified concrete provide a glimmer of hope for the safe and sound disposal of increasing quantity of e-waste. However, more comprehensive experimental studies are required to explore full potential of e-waste aggregates as natural coarse aggregates replacement for the large-scale production of concrete. The disposal of toxic e-waste in landfill sites causes irreplaceable health and environmental hazards. Therefore, reusing raw materials obtained from e-waste recycling is the most viable solution to reduce the substantial growth in e-waste.

Incorporation of manufactured e-waste plastic, SG, and CG aggregates increases the workability of concrete owing to their smooth surface texture. However, using unmanufactured e-waste

plastic aggregates can decrease the workability of concrete because they (e-waste aggregates) entrap available moisture in created voids, which is required for concrete to flow.

The mechanical properties (e.g., compressive strength, flexural strength, and splitting tensile strength) of concrete containing e-waste plastic aggregate decrease at higher e-waste aggregate replacement levels owing to the lower density of e-waste aggregates and increased porosity of the concrete matrix. Increasing the amount of e-waste plastic aggregates leads to high reduction in mechanical properties of concrete. However, using low w/c ratio to prepare concrete with e-waste plastic aggregates can decrease the reduction in mechanical properties (particularly compressive strength).

Like e-waste plastic aggregates, incorporation of SG or/and CG also pose detrimental impact on the mechanical properties of concrete, which can be attributed to their smooth surface and similar size (particularly SG). However, the negative impact of SG/CG on the mechanical properties of concrete is not significant like e-waste plastic aggregate. The decrease in mechanical properties of SG and CG modified concrete can be countered by using both CG and SG in different proportions because it will ultimately get maximum benefits via the properties of the mentioned glass types or will negate their deficiencies.

The fresh and dry properties of concrete with e-waste aggregates can be enhanced with admixtures (like fly ash and steel slag), superplasticizer, and biomineralization. However, more data is necessary to estimate the long-term performance potential of e-waste incorporated concrete.

The availability of limited data on the impact of e-waste on the engineering properties of concrete suggests in-depth analysis of e-waste modified concrete should be investigated comprehensively by incorporating various factors, i.e., w/c ratio, concrete type, cement type, curing and environmental conditions. This will enable concrete technologists to conclude whether e-waste aggregates are suitable replacements for coarse aggregates in the preparation of concrete.

E-waste modified concrete has the potential to decrease the thermal conductivity due to its lower density, which makes it a suitable material for energy conservation in buildings. However,

limited literature is available on the mentioned topics, which makes it difficult to predict whether it would satisfy the conditions of designing lightweight or fireproof concrete.

Manufactured e-waste modified concrete performs better than using unmanufactured e-waste aggregate. However, an evaluation of the cost and environmental impact of preparing manufactured aggregates is missing. Therefore, a life cycle assessment of e-waste modified concrete should be conducted to see how its manufacturing affects social, economic, and environmental conditions. Such evaluation will enable concrete technologists to see if the environmental impact of e-waste may be diminished by using it as a supplement to coarse aggregates in concrete.

Most of the studies suggest that e-waste aggregates can be used to prepare non-structural members of a concrete structure. However, some researchers suggest that incorporation of e-waste increases durability and mechanical properties of concrete, which indicates that it has the potential to be used in preparing structural concrete. Moreover, a few studies also suggest that e-waste aggregate enhances the ductility of concrete as compared to conventional concrete, which indicates its ability to resist seismic loads. This should be studied more extensively to make the most of increasing e-waste worldwide.

One Day Seminar on **APPLIED BIOLOGY**

Date : 04th May 2022

Time : 9.30 A.M - 12.30 P.M

Venue : Silver Jubilee Seminar Hall, First floor (CRD)

AGENDA

- 9.30 – 09.40 AM: Opening ceremony**
Tamil thai valthu
Lighting Kuthuvillakku
- 9.40 – 09.45 AM: Welcome address**
Dr. A. Bakrudeen Ali Ahmed
Professor, Department of Biochemistry, PRIST University
- 9.45 – 09.50 AM: Presidential address**
Dr. T.V. CHRISTY
Vice – Chancellor, PRIST University
- 9.50 – 09.55 AM: Inaugural Address**
Dr. L. Chinnappa
Dean, School of Arts and Science, PRIST University
- 10.00 – 10.30 AM: Dr. R. Sukirtha,**
Invited talk - 1 Research Director, Ashwanth Diagnostics and Research Centre, Madurai.
Title : NANOVESICLES: THE KEY BIOMARKERS FOR CANCER STEM CELLS NICHE
- 10.30 – 10.40 AM: Tea Break**
- 10.40 – 11.10 AM: Dr. Arul Selvan**
Invited talk - 2 Managing Director, Scigen Research & Innovation PVT LTd., Thanjavur.
Title : CELL LINES AND IT'S APPLICATIONS
- 11.15 – 11.45 AM: Dr. J. Sebastinraj**
Invited talk - 3 Associate Professor & Head
Department of Biotechnology, Jamal Mohamed College, Tiruchirappalli.
Title : ENVIRONMENTAL VISION - 2022
- 11.45 – 12.20 PM: Dr. Manjula Kesavan**
Invited talk - 4 Managing Director, Bio Techno Solutions, Tiruchirappalli.
Title : NATURAL HERBAL REMEDIES FOR PERIODONTITIS DISEASES PREVALENCE AMONG THE TYPE 2 DIABETES MELLITES
- 12.20 – 12.30 PM: Vote of Thanks**
Dr. J. Ilamathi
Assistant Professor, Department of Biotechnology, PRIST University.

REPORT
ONE DAY SEMINAR ON “APPLIED BIOLOGY”
DATE 04 MAY 2022

The Department of Life Science- Biochemistry, Biotechnology and Microbiology had organised one day Seminar on Applied Biology on 04th May 2022. Welcome address Dr. A. Bakrudden Ali Ahmed Professor, Department of Biochemistry, Presidential address Dr. T. V. Christy Vice – Chancellor, Inaugural address given by Dr. L. Chinnappa Dean, School of Arts and Science, PRIST University respectively. Introduction to Chief Guests given by Dr. S. Ambiga, Associate Professor, Department of Biochemistry, PRIST University. Lecturer given by the resource persons were Dr. R. Sukirtha Research Director, Ashwanth Diagnostics and Research Centre, Madurai, Title: Nanovesicles: The Key Biomarkers For Cancer Stem Cells Niche, Dr. Arul Selvam Managing Director, Scigen Research & Innovation PVT Ltd., Thanjavur, Title: Cell Lines and It's Applications, Dr. J. Sebastinraj Associate Professor & Head Department of Biotechnology, Jamal Mohamed College, Tiruchirappalli. Title: Environmental Vision – 2022, Dr. Manjula Kesavan Managing Director, Bio Techno Solutions, Tiruchirappalli. Title: Natural Herbal Remedies for Periodontitis Diseases Prevalence among the Type 2 Diabetes Mellites. Vote of Thanks Dr. J. Ilamathi, Assistant Professor, Department of Biotechnology, PRIST University, Vallam, Thanjavur, Tamil Nadu. Total participated members 190 among that 16 Faculty members from the Department of biochemistry, Biotechnology and Microbiology, 194 students were participated in this events. Invited speakers are enlighten the students regarding above topics. Students were asked so many questions and get clarification from the resource persons. The lecture was very useful for students and it was highly appreciated by all students and faculty.

RECENT TRENDS IN SMART GRID

PONNAIYAH RAMAJAYAM INSTITUTE OF SCIENCE & TECHNOLOGY

PRIST UNIVERSITY

Vallam, Thanjavur.

Date: 06.02.2021

Sir,
Sub: Two days' workshop conducted by Department of Electrical and Electronics Engineering.

I have the honour to invite your kind attention to participate two days' workshop in the title of "Recent Trends in Smart Grid" scheduled on 15.02.2021 & 16.02.2021

All are invited to participate and provide your support.

Thanking you.

With Regards

HEAD of the

Two day National Workshop cum hands-on training program on Recent Trends in Smart Grid Technology
(15th & 16th September, 2022)

Organized by

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING PRIST

University,
Vallam, Thanjavur
Email: eee.prist@gmail.com

About the Course

The rapidly increasing energy needs of our nation and the ever-growing generation demand gap necessitate the introduction of new technologies in power sector. Researchers from both industry and institutions have been working on the problem for a long period and are able to device feasible solutions.

In power grid, the traditional fossil fuels are facing the problem of depletion and the decarbonization demands the power system to reduce the carbon emission. Although the rising awareness of sustainable development have become the impetus to the utilization of renewable energy sources, the intermittent characteristics of wind and photovoltaic energies bring huge challenges to the safe and stable operation in a low inertia power system.

The Smart Grid represents an unprecedented opportunity to move the energy industry into a new era of reliability, availability, and efficiency that will contribute to our economic and environmental health. During the transition period, it will be critical to carry out testing, technology improvements, consumer education, development of standards and regulations, and information sharing between projects to ensure that the benefits we envision from the Smart Grid become a reality. The benefits associated with the Smart Grid include:

- More efficient transmission of electricity
- Quicker restoration of electricity after power disturbances
- Reduced operations and management costs for utilities, and ultimately lower power costs for consumers
- Reduced peak demand, which will also help lower electricity rates
- Increased integration of large-scale renewable energy systems
- Better integration of customer-owner power generation systems, including renewable energy systems
- Improved security

It is earnestly hoped that such a forum will enhance the knowledge and perspective of both students and research scholars in the area of power systems while providing great opportunities for collaborative research.

On each topic, there will be presentations on the principles and concepts involved as well as case studies, quizzes, followed by practical sessions demonstrating the exposure of the participants to fold actual experience on the renewable energy system with software tools.

Registration Form

Two days National Workshop cum hands-on training program on Power Electronics for Renewable Energy System
(15th & 16th September, 2022)

About PRIST University

Ponnaiyah Ramajayam Institute of Science and Technology is a university recognized by U/S 3 of UGC Act, 1956. It is situated at 42 km from Tiruchirappalli and 15 km from Thanjavur, along the National Highway 67. Accredited by NAAC the university spreads over five campuses establishing the academic excellence and deliverance to the society in the form of Graduates, Post Graduates and professionals.

Under the able guidance of its founder and Chancellor Prof. P. Murugesan, the University is poised to establish academic Excellence with quality education. It is situated in temple city, Thanjavur, the pinnacle of glorious Chola dynasty vis-à-vis fast developing smart city and yet agrarian set-up, the university offers a classical blend of technology, culture and ethics.

Department of Electrical and Electronics Engineering

The department of Electrical and Electronics of PRIST UNIVERSITY was established in 2008. Since then its excellence in each and every aspects has played an important role in the institute. The department received university status under section 3 of UGC Act 1956.

The EEE Department is dedicated to delivering competent electrical engineers to the arena of the real world. They are outfitted with core technical knowledge as well as professional skills necessary to face the challenges of the future. The committed faculty and staff are fully geared up towards this end.

The department has spacious laboratories such as Machines lab, Power Electronics Lab and Power systems Simulation Lab with latest,

modern and sophisticated equipment at both Undergraduate (UG) and Postgraduate (PG) levels to provide quality education with practical knowledge.

Boarding and Lodging Facilities

Workshop venue is Vallam, Thanjavur, PRIST University. There are limited student hostel rooms available for both male and female.

Registration fees

Registration fee : Rs 500.00

Registration fee includes refreshment and lunch, a kit, a course material and a certificate.

Eligibility

Research scholars (Full Time / Part Time), UG/PG students of various engineering/science discipline, faculty members pursuing (or interested in pursuing) doctoral research.

Registration Details:

Registration will be done on first come first serve basis.

Number of seats are 50. Registration will be closed once the target participants are reached.

The enclosed registration form is to be filled and mailed/emailed (scan copy of registration form along with payment details) to the following communication address:

Sir,

Sub: Two days' workshop conducted by Department of Electrical and Electronics Engineering.

I have the honour to invite your kind attention to participate two days' workshop in the title of "Recent Trends in Smart Grid" scheduled on 23.09.2021 & 24.09. 2021

All are invited to participate and provide your support.

Thanking you.

With Regards

Two day National Workshop cum hands-on training program on Recent Trends in Smart Grid Technology
(23th & 24th FEBRUARY, 2021)

Organized by

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING PRIST

University,
Vallam, Thanjavur
Email: eee.prist@gmail.com

About the Course

The rapidly increasing energy needs of our nation and the ever-growing generation demand gap necessitate the introduction of new technologies in power sector. Researchers from both industry and institutions have been working on the problem for a long period and are able to device feasible solutions.

In power grid, the traditional fossil fuels are facing the problem of depletion and the decarbonization demands the power system to reduce the carbon emission. Although the rising awareness of sustainable development have become the impetus to the utilization of renewable energy sources, the intermittent characteristics of wind and photovoltaic energies bring huge challenges to the safe and stable operation in a low inertia power system.

The Smart Grid represents an unprecedented opportunity to move the energy industry into a new era of reliability, availability, and efficiency that will contribute to our economic and environmental health. During the transition period, it will be critical to carry out testing, technology improvements, consumer education, development of standards and regulations, and information sharing between projects to ensure that the benefits we envision from the Smart Grid become a reality. The benefits associated with the Smart Grid include:

- More efficient transmission of electricity
- Quicker restoration of electricity after power disturbances
- Reduced operations and management costs for utilities, and ultimately lower power costs for consumers
- Reduced peak demand, which will also help lower electricity rates
- Increased integration of large-scale renewable energy systems
- Better integration of customer-owner power generation systems, including renewable energy systems
- Improved security

It is earnestly hoped that such a forum will enhance the knowledge and perspective of both students and research scholars in the area of power systems while providing great opportunities for collaborative research.

On each topic, there will be presentations on the principles and concepts involved as well as case studies, quizzes, followed by practical sessions demonstrating the exposure of the participants to fold actual experience on the renewable energy system with software tools.

CIRCULAR

PRIST/A&S/BC/22-23/3.3

Date: 16.08.2022

The department of Biochemistry is pleased to inform that, we are planned to organize a science carnival event on 22nd August 2022. In this regards, we invite all students and faculty members to participate and make the function a grand success.

The aim of the Science Carnival is to provide an opportunity for the students to showcase their aesthetic ideas, passion and creative innovations as well as ignite the minds of the students in the field of Science and Technology. We invite the students to participate their Science project ideas on Life Science in the following events

- Science Lectures
- Scientific Exhibition
- Hands-on-training - Phytochemical analysis
- Rangoli

REPORT FOR SCIENCE CARNIVAL EVENT

Department of Biochemistry, Ponnaiyah Ramajayam Institute of Science & Technology [PRIST], organized the **Science Carnival-2022** on August 22, 2022 in Seminar hall-II, CRD.

The dignitaries on the dais were Dr. L. CHINNAPPA, Ph.D., Dean, School of Arts and Science, Dr. A. Bakrudeen Ali Ahmed, Ph.D., Professor and Scientist, Department of Biochemistry PRIST, Dr. S. Ambiga, Head, Department of Biochemistry, PRIST, Dr. A. NOORJAHAN, Ph.D., Research Director and CEO, Biofocus Scientific Solutions Pvt, Ltd., Kumbakonam, and Dr. S. Sathishkumar, Assistant Professor, Department of Biochemistry, PRIST.

The programme started at 09:00 am with the welcome address by Dr. A. Bardeen Ali Ahmed, Ph.D., Department of Biochemistry. Dr. L. CHINNAPPA, Ph.D., Dean, School of Arts and Science delivered an Inaugural address about the Science and Technology today. Dr. S. Ambiga, Head, Department of Biochemistry introduce the Guest. Dr. A. NOORJAHAN, Ph.D., Research Director and CEO, Biofocus Scientific Solutions Pvt, Ltd. delivered the invited talk about the science in daily life.

Finally Dr. S. Sathishkumar, Assistant Professor, Department of Biochemistry delivered vote of thanks.

About the Programme

Vehicle-to-grid (V2G) shows promise in optimizing the power demand, shaping the load variation, and increasing the sustainability of smart grids. However, no comprehensive paper has been compiled regarding the operation of V2G and types, current ratings and types of EV in sells market, policies relevant to V2G and business model, and the implementation difficulties and current procedures used to cope with problems.

Energy is one of the key requirements for development of industrial and commercial sectors in the country. With the increased demand of energy and faster depletion of conventional energy sources like petroleum extracts, the alternative solutions to retain the reserves are increasing Energy Efficiency and integration of renewable energy sources. World action plans with respect to CO₂ mitigation and climate change has a remarkable action in cutting down of coal and gas based conventional power generation. For a sustainable development, the penetration of renewable energy sources to the power grid has a commendable increase in the past five years and will continue as such. With the increased tying of renewable energy sources such as solar and wind has resulted in attachment of more power converters to the power system leading to power system stability issues. Frequency instability including larger Rate of Change of Frequency (ROCOF) and reduction of system inertia are addressed. The Battery Energy Storage System (BESS) seems to be a feasible solution.

SCHOOL OF ENGINEERING AND TECHNOLOGY

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING

About the Programme

This webinar on public charging infrastructure in the frame of the GEF Global e-mobility programme's Working Group 4 on charging and grid integration.

The webinar will address public charging infrastructure roll-out strategies and regulatory measures to enable successful business models. Expert presentations will allow listeners to understand the strategies for the deployment of public charging infrastructure and identify relevant business models. The presentations will be followed by a panel discussion with a focus on infrastructure deployment in emerging economies.

Bringing energy, mobility and real estate business leaders together to propose a common vision of interconnected system that can improve the business case for charging infrastructure deployment and catalyze EV market growth.

The potential of electric vehicles

EVs have great potential as a way for cities to reduce local air pollution, greenhouse gas emissions and transport sector oil use. When powered by renewable energy, EVs can produce zero emissions at the vehicle tailpipe and much lower life-cycle emissions. However, they still contribute to congestion and air pollution due to particles released from tyres and braking. Therefore, a shift to EVs should be positioned within a wider plan for most city journeys to be made by public transport, bike or on foot.

About the Programme

The major focus of the club is to foster scientific temper among the students about the field of astronomy and astrophysics. The club actively works with the students to bring about seminars, technical sessions, exhibitions and workshops that promote their curiosity towards astrophysics and space phenomena.

Objectives Of The Club

1. To nurture a scientific passion towards the development of astronomy and related technology.
2. To assist the students to participate in various science outreach programmes.
3. To arrange sky watching sessions for students and the public at chosen sites using various telescopes.
4. To organise technical visit to renowned institutes so as to explore the advancements in the field of astronomy and allied fields.
5. To conduct lectures, demonstrations and webinars by eminent scientists around the globe.
6. To motivate the students to take part in projects, competitions and summer camps organised by institution in the field of astronomy and astrophysics.
7. To organise intercollegiate competitions in the field of astronomy and astrophysics.

About the Programme

Renewable energy is energy derived from natural sources that are replenished at a higher rate than they are consumed. Sunlight and wind, for example, are such sources that are constantly being replenished. Renewable energy sources are plentiful and all around us. Bringing energy, mobility and real estate business leaders together to propose a common vision of interconnected system that can improve the business case for charging infrastructure deployment and catalyze EV market growth.

Benefits of Renewable Energy

The advantages of renewable energy are numerous and affect the economy, environment, national security, and human health.

- Enhanced reliability, security, and resilience of the nation's power grid
- Job creation throughout renewable energy industries
- Reduced carbon emissions and air pollution from energy production
- Increased U.S. energy independence
- Increased affordability, as many types of renewable energy are cost-competitive with traditional energy sources
- Expanded clean energy access for non-grid-connected or remote, coastal, or islanded communities.

About the Programme

Astrophysics is a branch of space science that applies the laws of physics and chemistry to seek to understand the universe and our place in it. The field explores topics such as the birth, life and death of stars, planets, galaxies, nebulae and other objects in the universe.

The origins of astrophysics can be traced back to the advent of a single physics in the seventeenth century, in which the same rules applied to the celestial and terrestrial realms. There were scientists who were trained in both physics and astronomy who laid the groundwork for today's astrophysics research.

In practice, modern astronomical research often involves a substantial amount of work in the realms of theoretical and observational physics. Some areas of study for astrophysicists include their attempts to determine the properties of dark matter, dark energy, black holes, and other celestial bodies; and the origin and ultimate fate of the universe. Topics also studied by theoretical astrophysicists include Solar System formation and evolution; stellar dynamics and evolution; galaxy formation and evolution; magneto hydrodynamics; large-scale structure of matter in the universe; origin of cosmic rays; general relativity, special relativity, quantum and physical cosmology, including string cosmology and astro particle physics.

PRIST DEEMED TO BE UNIVERSITY

ABOUT THE INSTITUTION

Ponnaiyah Ramajayam Institute of Science and Technology (PRIST), a Deemed University (U/s 3 of the UGC Act 1956), is one of the renowned units of Ponnaiyah Ramajayam Institutions, which are serving for more than 25 years in promoting quality education and research for our Indian community, since its Inception. The institution is now brimming with many social responsibilities, particularly in promoting quality education through research.

Role of Engineering for Sustainable Environment

There are several reasons why manufacturers should focus on sustainable engineering:

- To reduce overall CO2 emissions
- To minimize energy & materials consumption, which increases operational efficiency by reducing costs
- To build in recyclability and reuse, which optimizes the top and bottom line
- To improve company culture, employee engagement, and customer satisfaction
- To increase competitive advantage, strengthen the brand, and build public trust
- To compete in markets with strict environment, health, and safety regulations

Use resources effectively

When designing products, engineers should make sure non-renew resources are properly and sparingly used in the manufacturing process to reduce depletion and minimize waste.

Eliminate excess waste

PLM for green engineering enables you to utilize digital thread capabilities to support sustainability initiatives. You can design, visualize, develop, and test products in the digital realm as opposed to doing it in the physical world, avoiding scrap and waste.

Consider material alternatives

When sourcing parts, it's important to consider suppliers that offer sustainable options such as recycled or reused materials.

RESOURCE PERSON

Dr. D. Vincent Herald Wilson,

Professor - VIT

DATE : 15.09.2022

Role of Engineering for Sustainable Environment

Dr. D. Vincent Herald Wilson explained all the processes that were involved in "Role of Engineering for Sustainable Environment". A number of excellent colleges and universities are building environmental studies into their curricula for both bachelor's and master's programs, including Stanford University, the University of California at Berkeley and Carnegie Mellon University. That number is growing as schools increasingly realize that engineering design parameters (e.g., ambient temperature, sea level, storm intensity, droughts, volcanic activity, earthquakes and flooding) will be different in the years to come. Years of unsustainable practices have made those design assumptions unpredictable. Mining, oil drilling, gas exploration and overconsumption of those resources combined with pollution, such as greenhouse gas emissions, have taken a toll on the Earth's natural resources. Therefore, significant changes in resource availability have resulted, and infrastructure must be redesigned to operate safely in this new environment. Resource availability and environmental operating conditions are evolving. Engineers who understand how those changes will impact engineering projects are in demand now and for the foreseeable future.

Sample Feedback Responses from the participants.

The objective of the Role of Engineering for Sustainable Environment was achieved. The overall session discussion benefitted the Students. This Role of Engineering for Sustainable Environment would help the participants to program in an effective way and also it would help them to do their implementation in future.

A REPORT ON THE SEMINAR 24.03.2023

Topics: “DEVELOPMENT IN ASTROPHYSICS”

Department of Physics, Ponnaiyah Ramajayam Institute of Science & Technology (PRIST), organized a one-day seminar on “**DEVELOPMENT IN ASTROPHYSICS** ” on March 24, 2023 in Seminar Hall-I. The seminar focused on Professional skills development.

The dignitaries on the Dias were **Dr. L. CHINNAPPA**, Dean, School of Arts and Science, **Dr. S. SUBASHCHANDRABOSE**, Professor, Department of Physics, **Dr. M. SIVANANTHAM**, Associate Professor and Scientist, **Dr. V. VIDHYA**, Department of Physics, **Dr. S. JAGADESAN**, **Dr. N. NISHA BANU**, **Dr. S. SNEGA**, **Dr. K. VINOTH**, Assistant Professor, Ponnaiyah Ramajayam Institute of Science and Technology. The programe started at 11:30 am with the welcome address by **Dr. K . VINOTH**, Department of Physics. **Dr. L. CHINNAPPA**, Dean, School of Arts and Science delivered an Inaugural address about the seminar. **Mr. K. SWAMINATHAN**, PRIST University delivered the Guest Introduction about the seminar.

Dr. S. SUBASHCHANDRABOSE, Professor, gave lecture on “**DEVELOPMENT IN ASTROPHYSICS**”. In the past years, enormous progress has been made in the field of exoplanet transmission spectroscopy. New techniques and instruments like the JWST now enable the determination of the properties of planetary atmospheres, as well as the detection of molecular species. In order to search for life on other planets via the minute signatures of biomarkers, we need to make sure that as many potential sources of systematic bias as possible are accounted for in the transit model. After the seminar he interacted with the students and clarifies their doubts. Finally, **DR. S. JAGADESAN**, Assistant Professor, Department of Physics delivered a vote of thanks.

A REPORT ON THE FUNPHILIA 28.03.2023

Department of Physics, Ponnaiyah Ramajayam Institute of Science & Technology (PRIST), organized a one-day Program on “**Funphilia**” on March 28, 2023 in Seminar Hall.

The dignitaries on the dias were **Dr. L. CHINNAPPA**, Dean, School of Arts and Science, **DR.K.SARITHA**, Professor and Scientist, **DR. C. YOGAMBAL**, **DR. M. SIVANANTHAM**, **DR. S. SUBASHCHANDRABOSE**, Professor, Ponnaiyah Ramajayam Institute of Science and Technology. The programme started at 11:30 am with the **DR. S. SUBASHCHANDRABOSE**, Department of Physics. **Dr. L. CHINNAPPA**, Dean, School of Arts and Science delivered an Inaugural address about the Event.

After 12.00 Pm the event was started Classical Dance, Solo and Group Signing, Western Dance, Folk Dance, Mime, Drama. The students are very enjoying this function. Philia, keeping up with its tradition of bringing together the entire staff of e-Zest along with their families, gave a fantastic platform to all the hidden talent of e-Zestians. The event saw some of the most melodious and pitch perfect singers, sing beautiful renditions flawlessly. Right from classical to rock music, all the singers and guitarists delivered outstanding performances that set the mood of the evening in just the perfect manner. The movers and shakers were not left behind either, as the dancers grooved and displayed grace and unparalleled levels of energy that almost brought the house down. Philia’s fashion show this year was almost like a thorough pack of professional models catwalking on the ramp in their variety of costumes with much élan, grace and a zestful attitude. After the Event the prizes were distributed to the winners. Finally, **DR. N. NISHA BANU**, Assistant Professor, Department of Physics delivered a vote of thanks.

From artificial intelligence (AI) and the internet of things (IoT) to adaptable design and on-demand manufacturing, these trends are paving the way for mobility service providers and businesses to enhance EV adoption and eco-friendly operations. This overview sheds light on the pivotal electric mobility trends shaping the industry.

Resource Person: Mrs.V.Mangaleswari, Dept of EEE explained all the processes that were involved Top 8 Electric Mobility Trends

The surge in EV adoption, driven by sustainability goals, necessitates the swift expansion of electric vehicle supply equipment (EVSE), encompassing hardware, software, and charging stations. The fluctuating power demand of EVs can cause disruptions in the electric grids, a challenge met by charging point owners and grid operators through data sharing on cloud platforms.

EV charging trends guarantee secure power delivery to electric vehicles. Innovations from startups, including electric road systems (ERS) for on-the-go power supply and ultra-fast DC charging, are emerging. Additionally, the advent of solar-powered EVs with photovoltaic (PV) cells and wireless charging options enhances the ease of using electric vehicles.

Robotics

Robotics is very overwhelming. There are so many topics you need to know, and so many "unknown unknowns."

1. Pick out a Robot or Project to Build

The first tip is to find a cool project and start building it. I find that I learn the most when I just dive right in!

You can get any number of robotics kits (we have one, too), but if you want more of a "hacker" experience, there are a bunch of cool options on Amazon.

[amazon box="B07FLVZ2DN,B07KRVBGQM,B07Z4HJF35,B00UMOSQCI" template="list"]

You will need some basic hand tools, but other than that, the best way to build something is to just build it.

Kotil
Head of the Department
Department of Computer Science
and Engineering
Ponnaiyah Ramajayam Institute of
Science & Technology (PRIST)

U/s 3 of the UGC Act, 1956)
THANJAVUR - 613 403, TAMILNADU.

Deen
DEAN
School of Engineering and Tech.
Ponnaiyah Ramajayam Institute of
Science and Technology (PRIST)
Deemed to be University
Vallam, Thanjavur - 613 403.

If you're more of a "book" person, here are a few options:

```
[amazon box="0521692121,1420073141,1523731516,B073XK7KP8,B0091XN49Y,1133948650"  
template="list"]
```

Depending on your level and interests, some of these books might be too easy or too advanced.

I wanted to give you a mix of beginner and university-level options so that you have the best starting point for your skillset.

6. Join a Robotics Group

If you're looking to get into robotics more socially, then joining a robotics group is a great option.

A lot of robotics people I know are very introverted by nature. But that doesn't mean you shouldn't join a robotics team or group.

Oftentimes professional organizations, local groups, and communities will host robotics and tech events. They might be regular meetups, clubs, or competitive robotics teams.

There are even robotics groups on Facebook that you can join. You can join the Learn Robotics Facebook group, [here](#).

The best way to find robotics groups is to search on Meetup, Eventbrite, or Facebook within your city.

If there isn't a group already there, you can always start one!

7. Just Start a Robotics Hobby, Already!

It doesn't matter which of these steps you choose to start your robotics hobby. All that matters is that you start!

Take a look at the list above and see if any of these tips *speak* to you.

- Have a project you've been putting off? Buy the parts for it.
- Not sure where to start? If you're completely new, sign up for Arduino for Beginners.
- If you want to work with me, you can join my Build Arduino Robots program.
- Is there a robotics book that's collecting dust on your shelf? Go get it and read 10 pages!
- Have a friend who's crazy about robotics? Give them a call!
-

There are so many ways you can weave robotics into your life. All you have to do is just take the first steps and get started!

What's holding you back? Are you ready to begin your robotics hobby?

Which of these tips are you going to use to break into the robotics field? Let me know in the comments below!

And if you enjoyed this article, be sure to share it on your favorite Social Media platform.

2. Take an Online Robotics Course

If you're not the kind of person who wants to "get your hands dirty" and would rather have a more logical approach to getting started, then you can take online robotics courses.

We have two online courses that are designed for beginners with little to no experience in robotics.

The first program, Learn Code & Circuits, is designed to teach you the fundamentals of coding and circuits. You'll walk away with a functional device that you coded from start to finish!

The second program, Build Arduino Robots, will show you how to interface motors and sensors to design an autonomous mobile robot. Again, our courses are designed to walk you through the process, so you'll be building, wiring, and coding everything from scratch.

Our courses use the Learn Robotics Alpha Kit, which includes all of the components you need to get started. It takes the guesswork out of trying to figure out which parts are compatible and where to buy them.

You can pick up a kit, join the courses, and start gaining robotics skills in a matter of a few days.

Plus, when you have questions, you can contact me directly (via our live chat system), and I'm here to help.

There's nothing better than being able to interact with an instructor while you're learning. And, robotics is a very hair-pulling subject. So, I try to minimize hair loss (lol) while you're taking our courses!

If you've already built a bunch of robots before, (*I'm not sure why you're reading this article*), then you might be interested in taking an intermediate or advanced online course.

We have a Special Topics course and CAD modeling course (coming soon) that you can also check out.

3. Learn to Code

Thirdly, it's very helpful if you know some form of programming before starting with robotics.

If you know you want to be writing sophisticated algorithms for mechatronic systems, then you'll want to learn to code first.

How to Learn Coding Online

Learn, practice, and apply job-ready skills using Codecademy. This is a great option if you're looking for interactive coding lessons and daily practice.

On the other hand, if you want to work with Industrial Robots and PLCs, I recommend learning the basics of Ladder Logic.

A lot of Industrial Robot manufacturers (FANUC, KUKA, Universal Robots, etc.) also have online training programs you can take. Universal Robots has a very comprehensive, free training, that you can take online.

4. Create a Prototype

Additionally, you can create your prototypes.

Pick up a 3D printer and learn how to make parts. Once you have experience manufacturing parts, you can learn to design your parts in CAD.

Combine 3D printing with some basic robotics skills, and the possibilities are endless.

5. Read Robotics Articles

Maybe you're looking for a more passive way to get into the robotics field. If you're interested in learning about robots without building anything, then reading articles is a good way to ease into the field.

To see images just like a human would, neural networks execute convolutions and examine the accuracy of the output in numerous iterations. Just like humans would discern an object far away, a convolutional neural network begins by identifying rudimentary shapes and hard edges. Once this is done, the model patches the gaps in its data and executes iterations of its output. This goes on until the output accurately 'predicts' what is going to happen.

While a convolutional neural network understands single images, a recurrent neural network processes video inputs to enable computers to 'learn' how a series of pictures relate to each other.

FIVE - Examples of Computer Vision

Listed below are five key examples of computer vision that exhibit the potential of this AI-powered solution to revolutionize entire industries.

1. Google Translate

In 2015, technology leader Google rolled out its instant translation service that leverages computer vision through smartphone cameras. Neural Machine Translation, a key system that drives instantaneous and accurate computer vision-based translation, was incorporated into Google Translate web results in 2016.

When the app is opened on internet-enabled devices with cameras, the cameras detect any text in the real world. The app then automatically detects the text and translates it into the language of the user's choice. For instance, a person can point their camera at a billboard or poster that has text in another language and read what it says in the language of their choice on their smartphone screen.

Apart from Translate, Google also uses computer vision in its Lens service. Both services are capable of instantly translating over 100 languages. Google's translation services are already benefiting users across Asia, Africa, and Europe, with numerous languages concentrated in relatively small geographic areas.

Over the past few years, more than half of Google's translation toolkit languages have been made available for offline use. As such, no network connection is required for these neural net-powered translations.

2. Facebook 3D Photo

Not to be left behind, technology giant Meta (earlier known as Facebook) is also dabbling in computer

Launched in 2018, Facebook 3D Photo originally required a smartphone with dual cameras to generate 3D images and create a depth map. While this originally limited the popularity of this feature, the widespread availability of economically priced dual-camera phones has since increased the use of this computer vision-powered feature.

Through this process, a realistic-looking 3D effect is applied to the picture.

Human Vision System

Computer Vision System

Human Vision vs. Computer Vision

As humans, we generally spend our lives observing our surroundings using optic nerves, retinas, and the visual cortex. We gain context to differentiate between objects, gauge their distance from us and other objects, calculate their movement speed, and spot mistakes. Similarly, computer vision enables AI-powered machines to train themselves to carry out these very processes. These machines use a combination of cameras, algorithms, and data to do so.

However, unlike humans, computers do not get tired. You can train machines powered by computer vision to analyze thousands of production assets or products in minutes. This allows production plants to automate the detection of defects indiscernible to the human eye.

Computer vision needs a large database to be truly effective. This is because these solutions analyze information repeatedly until they gain every possible insight required for their assigned task. For instance, a computer trained to recognize healthy crops would need to 'see' thousands of visual reference inputs of different crops to differentiate them from unhealthy crops, gauge farmland quality, detect pests and other animals among the crops, and so on.

Machine learning (ML) leverages algorithm-based models to enable computers to learn context through visual data analysis. Once sufficient data is provided to the model, it will be able to 'see the big picture' and differentiate between visual inputs. Instead of being programmed to recognize and differentiate between

3. YOLO

YOLO, which stands for You Only Look Once, is a pre-trained object detection model that leverages transfer learning. You can use it for numerous applications, including enforcing social distancing guidelines.

As a computer vision solution, the YOLO algorithm can detect and recognize objects in a visual input in real-time. This is achieved using convolutional neural networks that can predict different bounding boxes and class probabilities simultaneously.

As its name implies, YOLO can detect objects by passing an image through a neural network only once. The algorithm completes the prediction for an entire image within one algorithm run. It is also capable of 'learning' new things quickly and effectively, storing data on object representations and leveraging this information for object detection.

Enforcing social distancing measures during the height of the COVID-19 pandemic was critical yet extremely difficult for jurisdictions with limited resources and large populations. To address this issue, authorities in some parts of the world adopted computer vision solutions such as YOLO to develop social distancing tools.

YOLO can track people within a specific geographical area and judge whether social distancing norms are being followed. It applies object detection and tracking principles in real-time to detect social distancing violations and alert the relevant authorities.

4. Faceapp

Faceapp is a popular image manipulation application that modifies visual inputs of human faces to change gender, age, and other features. This is achieved through deep convolutional generative adversarial

recognize key facial features such as cheekbones, eyelids, nose bridge, and jawline. Once these features are outlined on the human face, the app can modify them to transform the image.

Faceapp works by collecting sample data from the smartphones of multiple users and feeding it to the deep neural networks. This allows the system to 'learn' every small detail of the appearance of the human face. These learnings are then used to bolster the app's predictive ability and enable it to simulate wrinkles, modify hairlines, and make other realistic changes to images of the human face.

5. SentioScope

SentioScope is a fitness and sports tracking system developed by Sentio. It primarily operates as a player tracking solution for soccer, processing real-time visual inputs from live games. Recorded data is uploaded

computer vision-powered solution creates a conceptual model of the soccer field, representing the game in a

two-dimensional world. This 2D model is partitioned into a grid of dense spatial cells. Each cell represents a unique ground point on the field, shown as a fixed image patch in the video.

SentioScope is powered by machine learning and trained with more than 100,000 player samples. This enables it to detect 'player' cells in the footage of soccer games. The probabilistic algorithm can function in numerous types of challenging visibility conditions.

Sentio is one of the many companies working to infuse computer vision with sports training regimens. These solutions usually analyze live feeds from high-resolution cameras to track moving balls, detect player positions, and record other useful information that one can use to enhance player and team performance.

Exposure and field visit for problem identification

Date : 10.08.2020

Time: 10.00 am – 1.00 pm

Faculty, PG & Ph.D students visit Incubation Centre

PRIST School of Engineering and Technology and Institution Innovation Council (IIC) – organizes the IIC driven activity of Exposure visit for problem identification in TANBIO R&D solutions, Thanjavur on 10.08.2020. Totally 5 faculty members (Engineering Technology, Science and management), 6 Post graduate and 10 Ph.D students were attended the exposure visit and interact with Industry Expert-Dr.Purusothaman-Scientist and CEO. He informs the requirements of drug delivery system with robotics and also gave 10 problems for Ph.D students and 5 problems of PG students. The faculty coordinator Dr.TTM.Kannan is proposed to Vote of thanks to TANBIO R&D solutions Expert and staff members.

Visiting areas

Institution Innovation council (IIC) organizes MIC driven activity of Importance of IP literacy initiative

Report

Date : 19.10.2020

PRIST –IIC organizes a MIC driven activity of Importance of IP Literacy on 19.10.2020 @ 11.30 am through you tube channel creating awareness regarding the need of IP filing, mechanism and methodology of IP filing in India and global, mainly amongst the students. How to generate revolutionary ideas, Seeding Ideas to Harvesting Innovation for Social Good : Role of Intellectual Property Rights ,Building IP, Innovation Ecosystem in Academic Institutions, IP Clinic , Building IP, Innovation Ecosystem in Academic Institutions , Patent Filing Process. All the sessions were very informative and the participants gained deep knowledge in the field of Intellectual Property. Apart from the online sessions various other activities i.e. a song on “Innovation, Intellectual Property & entrepreneurship” was composed and recorded, a banner was created and shared widely through different social media to create awareness among students regarding the campaign, a short video on best innovative practices/innovation and incubation facilities existing in campus to support student regarding innovation, Intellectual Property and entrepreneurship was created to promote the Intellectual Property Literacy Week.
