## **CIRCULAR**

### **Sub: Debugging Programs events-reg.,**

It is hereby informed that Program on code Rally listening events will be conducted cybernauts club 23.10.2019 (**Wednesday**) in C Block Seminar Hall, at 10.00am.

We cordially invite all students and teaching staffs to attend the event.

## The Department of Computer science and Engineering

### Cybernauts club conduct Debugging Programs

The Department of Computer science and Engineering, School of Engineering and Technology, Ponnaiyah Ramajayam Institute of Science & Technology (PRIST), organized Competition on “Debugging Programs” on October , 2019 in C Block Seminar Hall , The programme started at 10.00 AM The events start with Tamil thai vazhthu & Niruvanar vazhthu & Special Address by our Dr.K. Padmapriya prof followed by respected Deans & principal . They are the pillar to support and guidance to organize the events successfully.

The students have participated in various activities, such as code Rally listening etc.The events gone with lot of funs & enjoyment.

The events successfully concluded with Senior Student Speech, Prize **distribution** for the winners, followed by vote of thanks & National anthem.

## Debugging Programs

A debugger is a program with special privileges allowing it to start, stop, pause, inspect, and even modify the state of other programs while they are running for the purpose of finding software bugs. It is a fundamental tool for software development.

**Controlling Program Execution** One of the most fundamental functions of the debugger is to “pause” a program either at a specified source line, or when a certain condition is true to let you inspect what is going on. The simplest way to do this is through setting a breakpoint.

### Breakpoints

**Breakpoints** A breakpoint is a designated source line where the program will pause each time it is reached. When being debugged, the program will run up to (but not including) the line at the breakpoint. When paused, you can inspect the program’s state, change the state (memory, registers), set other breakpoints, etc. Virtually the only thing you cannot do is change the source code or compilation options - those require you to end your debug session and recompile before they take effect. Once done, you may continue. The software will run until it hits another breakpoint (or the same one again). Breakpoints can be set by clicking on the line numbers at the left of the source editor. You do not need to recompile after changing breakpoints. When set, a red square appears. You can clear it by clicking again. Any number of breakpoints can be set.

### Stepping

Once paused, there are several ways you may step through your program, with the basic ones listed below:

**Continue** Executes until the next breakpoint (including arriving at the current breakpoint again) or watch is triggered  
**Step Into** Executes only the first line in the called function then stops  
**Step Over** Executes the next function call in its entirety, without stepping you through the intermediate instructions  
**Step Out** Runs to the end of the current function, then stops at the next line in the calling function  
**Run to Cursor** You may select a source line using the cursor in the editor.

By definition, an exception condition is exceptional - a properly-written program should never terminate this way. You should always check for (or prevent) errors, catch them, and handle them properly.

Common Exceptions Some of the more common exceptions that you should watch out for are:

- Dividing by zero, or other invalid arithmetic operations

- Reading or writing past the end of an array `int x[100]; x[100] = 1; // oops! (remember x[100] runs from x[0] to x[99])`

- Reading or writing memory that does not belong to the program, for instance with an uninitialized pointer or reading past the end of a block of memory `int *p; // uninitialized pointer p=2; // what does p point to?`

- Trying to read something into a buffer that is too small `char dst[10]; strcpy(dst,very long string); // copying a string that is too large gets(dst,f); // reads a line from file - length unknown (hopefully less than 10!)`

Thanjavur.

Respected sir

Sub: Requesting Permission to Conduct "Brain Teasers-2018" for the Students of the Mathematics Department, School of Arts and Science-Reg.

The Department of Mathematics has planned to organize an academic mathematical club activity related function for the Mathematics Department students on August 20, 2018 for the academic year 2018-2019. So, I request that you give us permission to conduct the program.

Thanking you,

Yours faithfully,

ACADEMIC CLUB FEST  
2018-2019

**Brain Teasers - 2018**

REPORT

Venue : CRD- Block Seminar Hall

Date : 20.08.2018

One of the major aims of teaching mathematics is to create interest and to remove the fear of the subject. A good mathematics teacher can involve the students in several co-curricular activities such as Mathematics Club, Mathematics Fair, and Mathematics Laboratory. Mathematics Club helps the students in having an idea of the practical utility of mathematics in addition to creating their interest in Mathematics.

**Meaning:**

The meeting place when a number of persons meet to discuss something's or to study some problems is known as club & when student of mathematics sit & discuss together is called mathematics club. Maths club play an important role in motivating the students to learn mathematics with interest & involvement clubs provide excellent opportunity for students to break away from class room teaching of rigid & structured class room environment which is informal in nature student choose their own activities & passed them in a free & relaxed manner club provider a lot of freedom of expression for the students & it supplements class room learning.

**Objective of the activities:**

- To encourage creativity
- To ignite interest for mathematics
- To reinforce the theorems, concepts, applications

*Dr. Jigneshwar*

**H.O.D.**

- To establish design thinking
- To encourage real life applications of the concepts
- To develop team spirit and leadership

In this academic fest titled "Brain Teasers-2018" on 20.08.2018. The programme began with the invocation followed by the welcome address by **Dr. S. Subramaniam**, Head of Department of Mathematics. **Dr. V. Ramadass**, Professor, Department of Mathematics, PRIST Deemed to be University, Thanjavur was the resource person. He discussed about the "Brain Teasers-2018" with the 90 number of students that the Self-esteem underscores confidence in one's beliefs and values. It emerges from attitudes that a person develops towards something, which could be a personal vision such as career objectives, lifestyles, and other personal responsibilities.

#### Activities planned and executed

Grade	Activity
1	Puzzles
2	Number Art
3	Cracking Riddle videos
4	Making Clock using paper plate and match sticks
5	Roman numerals using match sticks
6	To Solve the Mathematical Equations
7	Different kinds of the mathematical Modeling
8	Geometrical City/Park using solid shapes
9	Find the Scientists Name
10	Making a number wheel to determine squares and cubes of numbers
11	Designs using square root spirals
12	Working models of theorems based on circles and triangles

#### Students' reflections on the activities conducted:

- The making of working models and the activities turned out to be a fun activity.
- There is a lot of learning from each other when creative activities are executed in teams.
- It is great to know that art, physics, and design thinking can be integrated in learning Mathematics.
- Students felt that they are confident to apply in real life the concepts on which they could successfully create working models.

Finally Every Student gave good response to this interactive session. The programme ended with the vote of thanks delivered by **Dr. R. Balakumar**, Assistant professor of Mathematics.

Name of CLUB: Elkon Club

Theme of program: Embedded Systems

Date: 23.03.2020

Venue: Prist,vallam

Organized by: Elkon Club

No of participants: 50

**Introduction**

An embedded system is a combination of computer hardware and software designed for a specific function. Embedded systems might also function within a larger system. These systems can be programmable or have a fixed functionality.

**Objective**

- The objective of an embedded system is to control a specific function within a device and allow the user to interact with it. Embedded systems are small computers that are part of a larger system, such as a machine or device. They are typically designed to perform a limited number of tasks repeatedly, but more advanced systems can control entire operating systems.
- Embedded systems are made up of a computer processor, memory, and input/output devices, and are often embedded within electrical or electronic hardware and mechanical parts. They often have real-time computing constraints because they typically control the physical operations of the machine they are embedded within.
- When designing an embedded system, manufacturers focus on the dedicated functions the system needs to perform and optimize it to perform each task efficiently. They may use a variety of processors, including general purpose, specialized, or custom designed for the application.

**TAMIL ILLAKIYA MANDRAM**

**REPORT OF THE PROGRAMME**

Tamil Mandram serves as a platform for the students for enriching their talents in the three components of the Tamil language “Iyal,Isai,and Nadagam” Guest lectures by eminent scholars give an exposure to the in depth knowledge in the literature. Tamil Mandram was inaugurated by our respectful Dr.S.Selvaraj Assistant Professor of Tamil. Talents of our students were exhibited models related teaching of Tamil Grammar.

Programme was organized by our Department of Education on 15/11/2019. The programme was started at around 10.00 am. The purpose of the program students must be having some valuable ideas to improve their grammar skills. The programme co-ordinator Dr.S.Selvaraj, Assitant Professor, School of Education to conduct the program. The Dean Dr. K.B.Jasmine Suthanthira Devi to start the activities with valuble instructions to the Students. Students making the program grand success.

**SCHOOL OF ARTS AND SCIENCE**

Department of English conducted Shakespeare Club Fest'19 on 'Support Digital Literacy' on 05.02.2020 to accomplish the following objectives:

- To enhance creativity and knowing digital literacy.
- To encourage to showcase their talents.

The programme began with the invocation followed by the welcome address by Dr.K.Shibila, Head the Department of English. Dr.K.Saravanan, Dean, School of Arts and Science, gave presidential address. He insisted importance of digital literacy among the students. The following events were conducted for the English department students: Essay writing, poem writing, Eloquence, painting, Quiz. Students enthusiastically participated in all the events and exhibited their talents. The winners were awarded with certificates. The programme ended with vote of thanks by Ms.K.Jayapriya, Assistant Professor of English.

**Outcomes**

- Gained knowledge on digital literacy
- Elevated confidence to exhibit their talents
