

Requisition Letter

Thanjavur,

09.08.2021

From

The Head,  
Department of Mathematics,  
PRIST Deemed to be University,  
Thanjavur.

To

The Registrar,  
PRIST Deemed to be University,  
Thanjavur.

Respected sir

Sub: Requesting Permission to Conduct "MOMATHS-Museum of Mathematics-2K21" for the Students of the Mathematics Department, School of Arts and Science-Reg.

The Department of Mathematics has planned to organize an academic mathematical club activity related function for the Mathematics Department students on August 16, 2021 for the academic year 2021-2022. So, I request that you give us permission to conduct the program.

Thanking you,

Yours faithfully,

Dean  
School of Arts & Science  
Ponnalyah Ramajayam Institute of  
Science & Technology ( PRIST )  
Deemed to be University

ACADEMIC CLUB FEST  
2021-2022

MOMATHS-Museum of Mathematics-2K21

REPORT

Venue : CRD- Block Seminar Hall

Date : 16.08.2020

One of the major aims of teaching mathematics is to create interest and to remove the fear of the subject. A good mathematics teacher can involve the students in several co-curricular activities such as Mathematics Club, Mathematics Fair, and Mathematics Laboratory. Mathematics Club helps the students in having an idea of the practical utility of mathematics in addition to creating their interest in Mathematics.

**Meaning:**

The meeting place when a number of persons meet to discuss something's or to study some problems is known as club & when student of mathematics sit & discuss together is called mathematics club. Maths club play an important role in motivating the students to learn mathematics with interest & involvement clubs provide excellent opportunity for students to break away from class room teaching of rigid & structured class room environment which is informal in nature student choose their own activities & passed them in a free & relaxed manner club provider a lot of freedom of expression for the students & it supplements class room learning.

**Objective of the activities:**

- To encourage creativity
- To ignite interest for mathematics

*Dr. S. S. Srinivasan*

- To reinforce the theorems, concepts, applications
- To establish design thinking
- To encourage real life applications of the concepts
- To develop team spirit and leadership

In this academic festentitled "MOMATHS-Museum of Mathematics-2K21"on16.08.2021. The programme began with the invocation followed by the welcome address by **Dr. S. Subramaniam**, Head of Department of Mathematics. **Dr.V.Ramadass**, Professor, Department of Mathematics, PRIST Deemed to be University, Thanjavur was the resource person. He discussed about the "MOMATHS-Museum of Mathematics-2K21"with the 75 number of students that the Self-esteem underscores confidence in one's beliefs and values. It emerges from attitudes that a person develops towards something, which could be a personal vision such as career objectives, lifestyles, and other personal responsibilities.

#### Activities planned and executed

Grade	Activity
1	Various Application in Mathematical Models
2	Number Art
3	Various Application in Statistical Models
4	Making Clock using paper plate and match sticks
5	Roman numerals using match sticks
6	Models of solid shapes
7	Geometrical City/Park using solid shapes
8	Puzzles
9	Making a number wheel to determine squares and cubes of numbers
10	Designs using square root spirals
11	Working models of theorems based on circles and triangles
12/	PPT Presentation on applications of any one mathematical concept of logarithms/sequences
13	Poster Presentations

#### Students' reflections on the activities conducted:

- The making of working models and the activities turned out to be a fun activity.
- There is a lot of learning from each other when creative activities are executed in teams.
- It is great to know that art, physics, and design thinking can be integrated in learning Mathematics.

*S. Subramaniam*

**Date : 27/10/2021**

**Venue : Prist, Valam.**

**Organised by : DESIGN MASTER CLUB.**

**No. of Participants : 60**

**INTRODUCTION :**

Fashion designing club aims at bringing out the inherent talent in students on the side of creativity. It also enables students to develop the unrecognized skills in them to a level where the student believes to turn out a creation of one's own. The club enables students to interact with people who have paved a path in the field of designing. In addition to that, the club focuses on promoting the creativity skills of students related to clothing, accessories, jewellery and even interior art.

The club envisions to be a suitable platform for various skills in designing which can ensure the growth of students in the path of creativity and entrepreneurship. The club emphasises on social skills, intellectual skills, organising skills, moral values, personality and character development of students.

The Design Club is more than just an extracurricular activity—it's an investment in your child's future. By joining, students will: Develop Critical Skills: Gain valuable skills in creativity, critical thinking, and problem-solving. Boost Confidence: Build confidence as they see their ideas come to life through design.

**The Department of Computer science and Engineering  
Cybernavts club conduct Code Rally Listening Event**

The Department of Computer science and Engineering, School of Engineering and Technology, Ponnaiyah Ramajayam Institute of Science & Technology (PRIST), organized Competition on “code Rally listening” events on September 14, 2022 in C Block Seminar Hall , The programme started at 10.00 AM The events start with Tamil thai vazhthu & Niruvanar vazhthu & Special Address by our Dr.K. Padmapriya prof followed by respected Deans & principal . They are the pillar to support and guidance to organize the events successfully.

The students have participated in various activities, such as code Rally listening etc.The events gone with lot of funs & enjoyment.

The events successfully concluded with Senior Student Speech, Prize distribution for the winners, followed by vote of thanks & National anthem.

## CODE RALLY LISTENING

code Rally listening is an activity that involves team mates giving each other suggestions to try out. Each week, team members give each other recommendations. Every member of the team can contribute one suggestion per week, or you can assign teammates weeks to take turns giving assignments.

Examples of suggestions may include:

- Start the morning with a one-minute meditation
- Set a reminder to take water breaks
- Try this recipe for veggie lasagna
- Listen to the new Fiona Apple album
- Do a funny walk every time you get a snack

Suggestions can be silly or serious. We recommend giving participants a few different options to choose from. At the end of the week, the group gets together to share results and discuss outcomes.

### Listening

This part contains strategies for the Listening part of IELTS, structure and tips.

Listening is the first part of IELTS exam. It lasts for **30 minutes** and consists of four sections with 10 questions each. Each section is different in its topic, the number of speakers, and the overall difficulty. This page will walk you through the basics of IELTS Listening, various types of tasks and provide tips on how to improve your score.

Ponnalyah Ramajayam Institute of  
Science and Technology (PRIST)  
Deemed to be University  
Vallam, Thanjavur - 613 403.

## IELTS Listening Structure

**Section 1** is a conversation between two people who make an arrangement. It can be something like a travel agency phone conversation, a talk between a shop assistant and a customer, a chat between a landlord and a tenant, and so on. This part tests your ability to catch and understand factual information.

**Section 2** is a monologue. A person is giving a talk that can be about an activity, event, or arrangement. As there is only one person speaking, you won't have to adapt to several accents or paces. Again, the test-taker's skill to comprehend factual information is tested.

**Section 3** is a talk between several speakers on an academic-related topic, such as preparing a term-paper, presentation, diploma etc. You will listen to these people discussing the issue and sharing their opinions on the matter. This section tests your ability to distinguish relevant information and understand the speaker's attitude about the issues discussed.

**Section 4** is usually a lecture-type narrative by one person. It is an academic, term-packed speech on a topic that tests your ability to understand scientific terms and guess the meaning of those you possibly do not understand. The most difficult of the four, this section gauges your ability to understand the focus of the speech, the speaker's opinion on the ideas presented as well as factual information.

Name of CLUB: SUPER NOVA CLUB

Theme of program: Story of Electronics

Date: 24.03.2022

Venue: Prist,vallam

Organized by: Electronics Society Club

No of participants: 50

**Introduction**

Club merely a four-letter word but holds a great meaning inside it. As the name suggests it teaches us to work in a team. In Super nova club we deal with electronics construction or automation of any hardware. Students who are interested in learning about and working with electronics can become a part of this club. In college, electronics clubs typically take place after college, in a classroom. It is of the student, for the student and by the student group. Faculty coordinators are in supporting role. There are also competitions and workshops related to robotics. At electronics competitions, teams of students design and build a electronic kit that can compete in a series of specific challenges and are motivated to represent college.

**Objective**

1. Attract student's interest into Electronics subject through interactive activities.
2. Encourage students to learn Electronics.
3. Lessen students feeling of fear in Electronics.
4. Promote Electronics Subject as an informative subject.
