Annual e- Governance Report
2020-2021

Preface

In line with our visionary goals, PRIST has fully embraced e-governance, driving transformative change toward systems that are user-friendly, time-efficient, and cost-effective. Our e-governance model is intricately designed not just for functionality, but to enhance the overall educational experience by seamlessly integrating processes and ensuring accessibility across various operational dimensions

Internet link

In a strategic move to further enhance our digital infrastructure, we are proud to announce a substantial internet link. This leased link involves a significant bandwidth of 1GB. This substantial enhancement aims to ensure seamless online operations, meeting the escalating demands for high speed and reliable internet access on campus. This link not only supports the current requirements of students, faculty and administrative operations but also positions us for future technological advancements and increased data traffic.

Desktops

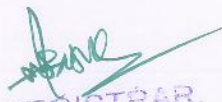

As part of our ongoing commitment to provide an enhanced academic environment, we are embarking on a significant upgrade by deploying total 1170 advanced desktops in labs to further facilitate academic activities for student use.

Firewalls

As part of our commitment for data and infrastructure security at gateway level, we have implemented a firewall which configured as HA(high availability)mode, Fortinet firewall model number 400 E has been implemented for management of student traffic and other works. These firewall containing logs which helps us to monitor all security related incidents to make our infra more secure and accessible for our students, employees and their data.
