ERP SCREEN SHOTS

Student module is the core module of the software where all the details related to the students are maintained. This module contains various details about the students like personal details, attendance, extracurricular activities, conduct details etc. These details once entered can be viewed any time. Enrolled student's data are maintained course wise with periodical updates. Daily attendance entry of students is done period wise and these entries are done by the faculty themselves through their individual login. This attendance entry is then used to calculate overall attendance percentage of the student. Student module provides facility to send SMS to parents about their wards daily attendance details, so that they can also keep track of their wards activities. This attendance is used to calculate the internal marks to be allotted for the student. There is also facility to enter student leave details.
