REGISTRAR,
Ponnaiyah Ramajayam Institute of
Science & Technology (PRIST),
(Institution Deemed to be University
U/s 3 of the UGC Act, 1956),
THANJAVUR - 613 403, TAMIL NADU.

Vision

To be internationally recognized Institution for its excellence of academic programmes, for its high-quality teaching across a broad range of disciplines, for its efforts in promoting world class research and for its community service in making quality and flexible higher education to reach wider community.

Mission

To dedicate to the communication, expansion and integration of knowledge through excellent undergraduate education as its primary priority and complementary excellent post graduate academic programmes.

To offer quality professional education opportunities which are accessible, flexible and borderless.

To have a distinct academic approach that emphasizes professional education fosters high achievement and promotes original inquiry, innovation and collaboration.

To make the Institution Campus as a Centre of Academic Excellence where high quality research and high-quality teaching are mutually sustaining.

To develop graduates who may be positioned to meet the challenges of a rapidly changing world.

To create fulfilling experiences for all students based on commitment of skilled and caring teaching faculty.

To aspire to contribute to our nation's economic growth, social development and sustainability.

3. Student Module:

Student module is the core module of the software where all the details related to the students are maintained. This module contains various details about the students like personal details, attendance, extracurricular activities, conduct details etc. These details once entered can be viewed any time. Enrolled student's data are maintained course wise with periodical updates. Daily attendance entry of students is done period wise and these entries are done by the faculty themselves through their individual login. This attendance entry is then used to calculate overall attendance percentage of the student. Student module provides facility to send SMS to parents about their wards daily attendance details, so that they can also keep track of their wards activities. This attendance is used to calculate the internal marks to be allotted for the student. There is also facility to enter student leave details.

5. COE Module:

Prj

Subank
 REGISTRAR,
 Ponnaiyah Ramajayam Institute of
 Science & Technology (PRIST),
 (Institution Deemed to be University
 U/s 3 of the UGC Act. 1956),

The COE module deals with examination related information of all the students who are appearing for the semester examination. This module helps in generating the time table, students list, attendance sheet, hall ticket. The faculty can enter attendance and marks of the students periodically and also can obtain the final results of the examination. In our university the examination process is automated starting from preparation for exams to publication of results. The system provides facility to select elective papers of student's interest if there is any. Based on the academic calendar COE office programmer will set the dates for End Semester Exams in the Semester Exam Time Table tab. The timings for the End Semester Exam were fixed by using the same tab. This module helps the student to register the subjects which they are going to appear in the semester examination. In the next stage hall tickets for the examinations are generated automatically. Once the examinations are conducted, attendance details and marks are entered in the software. Based on these inputs the data is processed automatically and the result is generated. This system contains option to enter exam schema for each subject, exam details for each batch with pass percentage. Mark entries are done using their names or register numbers. COE module. The module generates mark sheet automatically with or without photo, consolidated mark sheet, provisional certificate and course completion certificate once the student completes their course. These mark sheets are assigned with a unique serial number for each student which can be automatically assigned through the software. Mark and Grade statements are generated automatically for publication of results. This module has high confidentiality as only authorized users can access the examination software. Mark entry is done by the examiners itself in the centralized evaluation process which will be verified and approved by the Camp Officers, so that no alterations can be done. Even if there is any need for modification, it is done with the approval of the Controller of Examinations.

8. Finance and Accounts Module:

Accounts process is designed to generate fees structure and collect fees and generate receipts for students. This helps in managing the account details of each student electronically instead of maintaining manual vouchers and ledgers about the students. In the finance module first the fees structures for each course and batch is created. This structure is then used to assign fees to each applicant automatically. Once the applicants are selected for admission they are asked to pay the fees. During this process the applicant will be assigned the fees structure for their respective course and during this time the applicants will be converted as students of the university. Students can pay their fees in various methods like Cash / DD / Cheque and Bank Transfer. The paid fees will be accounted to their ledger and the remaining fees can be viewed automatically. There is also facility to collect optional fees and miscellaneous fees which will be applicable to particular student instead of all the students. Accounts process also has the feature to refund amount which are paid in excess or the caution deposit which is collected during the admission process. Finance module also provides feature to send SMS to parents regarding the fees due pending for their wards and its due date. Finance module generates various reports which can be viewed any time with up to date data, so that details like collection, dues etc. can be calculated easily.

PALPAP ERP UNIQUE MODULES

Palpap ERP offers 21 Unique Interlinked Modules

 <p>ADMISSION Customize pre-admission management to suit the process that you need, with custom forms and built-in lead management style system</p>	 <p>ATTENDANCE Ability to view attendance history & receive notification of absence. Send notifications to parents to via SMS, email or in-app notifications.</p>
 <p>MARK Digitalized performance analysis of the students. Manage the marks and grade with the ease of technology support. Time saving system yet improved efficiency.</p>	 <p>SCHEDULE As part of our administrative training, we'll gladly assist you in the setup of your classes and scheduling needs.</p>
 <p>OBE The software facilitates the administration with latest ways to monitor student progress in the classroom by recording and evaluating marks, behaviour, assignments, etc., of students.</p>	 <p>COE Define weightage of each curricular & extra curricular component to auto-generate final grade.</p>
 <p>FINANCE Manage expenses and billing with integrated finance module. Manage suppliers and their billings. Distribute & manage staff salaries.</p>	 <p>HR Maintain a detailed employee file, with the ability to create custom data fields. Manage access to student data and other Edumarshel modules via each employees portal</p>
 <p>LIBRARY Make your library operations more efficient. Rapid book issue and return speed up & simplify the process.</p>	 <p>HOSTEL Easy allotment of hostel rooms. Our software can allot rooms by checking the availability and preference of student automatically</p>
 <p>INVENTORY provides stock and inventory management for multiple positions. It allows to increase significantly operational effectiveness and categorize the assets.</p>	 <p>TRANSPORT Tackle the challenges of transport & fleet management with ease. Build your routes, define stops, and create fares for each stop.</p>
