"Let us know our village birds"

On November 21, 2020—National Birds Day—The Ponnaiyah Ramajayam Institution of Science and Technology(PRIST), NSS Cell celebrated the conservation of biodiversity via "Google Meet" on the institution's website. This initiative provides academics, staff, students, and the general public with online lectures on the value of the environment and ways to protect it, along with demonstrations. Professor D.K. Sharma of the Indian Institute of Technology in Delhi and Professor Pratap Kumar Padhy of he Department of Environmental Studies at Visva-Bharati University gave the welcome addresses.The speaker also stressed the value of nature in preserving our ecosystem and the need to plant more trees to create a more green space. A total of 153 people took part in the event, and each one received an online certificate at the end.

WORLD ENVIRONMENTAL DAY -TREE PLANTATION(2022-23)

PRIST University successfully finished the National Service Scheme tree-planting event on campus on March 31, 2022. The primary source of oxygen production in the environment, trees also contribute to the reduction of CO2 levels. As everyone is aware, planting trees has become one of the most crucial things to do in order to combat the global warming issue that the entire globe is now suffering. Inaugurating the occasion was Honourable Dean Dr. L. Chinappa as the guest. The program officer, Dr. T. Veeramani, gave the welcome address to PRIST University at that time. The dean advised volunteers to think differently in order for the society to grow and make positive changes. Following the visitors' felicitations, NSS volunteers sang an NSS song. "In society, all human beings are of equal importance, regardless of gender," he declared. He added that achieving one's aspirations and ambitions in life requires dedication. Everyone else, including the 100 volunteers and instructors, planted a single tree that day. After the tree-planting ceremony was over, everyone was pleased and proud because it feels wonderful to make a difference for the environment.

SWACCHTA BHARATH ACTIVITY – Awareness on Green Environment

Date of the Event	:	15/04/2023
Name of the Event	:	Swacchta Bharath Activity – Awareness on Green Environment
Venue	:	Thanjavur
No. of Participants	:	50

NSS Cell organized Swachh Bharat activities at Adopted villages on 15.04.2023. On the day of Swachh Bharat Fortnight inauguration, students and faculty members took pledge of cleanliness. A signature campaign was also organized to create awareness on keeping the village clean and green. Further to the inaugural event, a seminar was conducted on "Awareness on Green Environment".

Cleaning drive

ONE STUDENT-ONE TREE PROGRAMME

Date of the Event	:	27/03/2023
Name of the Event	:	One-Student One-Tree programme
Venue	:	Kuruvadipatti Village, Vallam, Thanjavur
No. of Participants	:	50

Trees represent life, growth, peace and nature. They produce oxygen, clean soil, prevent drought, control flood related disasters, prevent soil erosion, improve physiological, mental and spiritual health, and also reduce carbon footprints. Keeping this in mind the campaign for the One-Student One-Tree programme was initiated by the PRIST NSS Cell at Kuruvadipatti Village on 27th March 2023.

The students also took the Oath: "I will plant a tree sapling and take care of the sapling such that it grows into a mature tree"

We hope that such activities shall sensitize and encourage the students to "Love the trees until their leaves fall Off, then encourage them to try again next year".

PRIST NSS volunteers planted tree saplings in the Kuruvadipatti village
