**SCHOOL OF COMMERCE AND MANAGEMENT
LIFE SKILL DEVELOPMENT PROGRAMME
CRITICAL THINKING**

The School Of Commerce And Management Department Of Commerce Organized a Critical Thinking programmed for the students by the noted Family Counselor **Dr.D.ANAND**, Asst.Professor, and Department of Commerce. The aim of the programmed is to equip students in leading a successful life. Group activities were given to students for problem solving and decision making. Students actively participated in the programmed. At the end of the session all the students gave feedback and share their experience.

A joint initiative of General and Higher Education Departments launched with an objective to impart quality skill education to undergraduate students alongside their regular curriculum. is a combination of three courses, namely, Communication Skills in English, Basic IT and an Elective Domain Specific Skill Course. By imparting these soft skills to a large student community, the project envisages to create a large talent pool that can work in modern day organizations that promote a global work environment. By choice student groups receive sector specific skills that further enable them to be employable and industry ready. Normal College has been offering this programmed to our students from 2022 onwards. Foundation

course comprises of effective training in Communication Skills in English and basic IT Skills. Both these programmers are delivered to students for 1 Day. The college has a Skill Development Executive (SDE) appointed by ASAP, Govt. of Kerala for handling this course. This course is designed for first year degree students who are economically and socially backward. The students who successfully completed the course improved a lot in listening, writing and speaking in English.

what industry needs and what is available in terms of skills in students. Soft skills are personal qualities attributes or the level of commitment of a person that set him or her apart from other individuals who may have similar skills and experience soft skills are a new way to describe a set of abilities or talents that an individual may possess like the ability to work on a team. Communication skills, leadership skills and problem solving skills. Effective integration of soft skills in the educational institutional curriculum can help the students to obtain and retain employment in the workplace.

Employability Competencies are often to be vital such as verbal Communication, team Work analytical skills, initiative, written Communication and time management. The development of employability skills and its attributes in higher educational institution are to be integrated with the curriculum design and development. Human Resource (HR) managers are under Pressure to get the right skilled graduates who can take a head the firm to growth and success. Employability skill enhancement programs must ensure both employment opportunity and ability to develop modules in the academic Curriculum. The Employability enhancement program include both hard and soft skills which are inducted into the curriculum of colleges and universities. It is essential to determine the importance of the integration of soft skills in the educational curriculum along with the business outputs, techniques and activities.

ABOUT LIFE SKILL DEVELOPMENT

Life skills programs aim to develop young peoples' abilities and motivations to make use of all types of information. The approach should be interactive, using role plays, games, puzzles, group discussions, and a variety of other teaching techniques to keep the participant wholly involved in the sessions.

These life skills include problem solving, critical thinking, communication skills, decision-making, creative thinking, interpersonal relationship skills, self awareness building skills, empathy and coping with stress skills.

OBJECTIVES: -

The abilities for adaptive and positive behaviour that enable individuals to deal effectively with the demands and challenges of everyday life. 'Adaptive' means that a person is flexible in approach and can adjust in different circumstances

The 10 essential life skills are:-

- Communication skills.
- Creative thinking.
- Critical thinking.
- Decision-making skills.
- Empathy.
- Interpersonal skills.
- Problem-solving skills.

Registration Details:

Registration will be done on first come first serve basis. Number of seats are 50. Registration will be closed once the target participants are reached. The enclosed registration form is to be filled and mailed/mailed (scan copy of registration form along with payment details) to the following communication address:

Director, PRIST University, Vallam, Thanjavur-613 403, Tamil Nadu, India

ABOUT LIFE SKILL DEVELOPMENT

The abilities for adaptive and positive behaviour that enable individuals to deal effectively with the demands and challenges of everyday life. 'Adaptive' means that a person is flexible in approach and can adjust in different circumstances.

OBJECTIVES: -

The abilities for adaptive and positive behaviour that enable individuals to deal effectively with the demands and challenges of everyday life. 'Adaptive' means that a person is flexible in approach and can adjust in different circumstances

These skills are usually clubbed into three major categories:

- Thinking skills (critical thinking, creative thinking, problem solving, decision making)
- Personal skills (self-awareness, self-management)
- Interpersonal skills (communication skills, empathy, cooperation etc.)

Registration Details:

Registration will be done on first come first serve basis. Number of seats are 50. Registration will be closed once the target participants are reached. The enclosed registration form is to be filled and mailed/mailed (scan copy of registration form along with payment details) to the following communication address:

Director, PRIST University, Vallam, Thanjavur-613 403, Tamil Nadu, India

WHAT IS PHYSICAL FITNESS?

Physical fitness refers to the ability of your body systems to work together efficiently to allow you to be healthy and perform activities of daily living. Being efficient means doing daily activities with the least effort possible.

Physical fitness classified into aerobic and anaerobic exercise.

Aerobic exercise

Playing sports such as lawn tennis is a common way to maintain/improve physical fitness. Image shows international tennis player Barbora Strýcová.

Cardiorespiratory fitness can be measured using VO_2 max, a measure of the amount of oxygen the body can uptake and utilize. Aerobic exercise, which improves cardiorespiratory fitness and increase stamina, involves movement that increases the heart rate to improve the body's oxygen consumption. This form of exercise is an important part of all training regiments, whether for professional athletes or for the everyday person.

Examples of Aerobic exercise:

- Jogging – Running at a steady and gentle pace. This form of exercise is great for maintaining weight and building a cardiovascular base to later perform more intense exercises.
- Working on elliptical trainer – This is a stationary exercise machine used to perform walking, or running without causing excessive stress on the joints. This form of exercise is perfect for people with achy hips, knees, and ankles.
- Walking – Moving at a fairly regular pace for a short, medium or long distance.
- Swimming – Using the arms and legs to keep oneself afloat in water and moving either forwards or backward. This is a good full-body exercise for those who are looking to strengthen their core while improving cardiovascular endurance.
- Cycling – Riding a bicycle typically involves longer distances than walking or jogging. This is another low-impact exercise on the joints and is great for improving leg strength.

Anaerobic exercise

Anaerobic exercise features high-intensity movements performed in a short period of time. It is a fast, high-intensity exercise that does not require the body to utilize oxygen to produce energy. It helps to promote strength, endurance, speed, and power; and is used by bodybuilders to build workout intensity. Anaerobic exercises are thought to increase the metabolic rate, thereby allowing one to burn additional calories as the body recovers from exercise due to an increase in body temperature and excess post-exercise oxygen consumption (EPOC) after the exercise ended.

Prominent examples of anaerobic exercises include:

- Weight training – A common type of strength training for developing the strength and size of skeletal muscles.
- Isometric exercise – Helps to maintain strength. A muscle action in which no visible movement occurs and the resistance matches the muscular tension.^[22]
- Sprinting – Running short distances as fast as possible, training for muscle explosiveness.^[23]
- Interval training – Alternating short bursts (lasting around 30 seconds) of intense activity with longer intervals (three to four minutes) of less intense activity. This type of activity also builds speed and endurance.

Training

Specific or task-oriented fitness is a person's ability to perform in a specific activity, such as sports or military service, with a reasonable efficiency. Specific training prepares athletes to perform well in their sport. These include, among others:

- 100 m sprint: In a sprint, the athlete must be trained to work anaerobically throughout the race, an example of how to do this would be interval training.
- Century ride: Cyclists must be prepared aerobically for a bike ride of 100 miles or more.
- Middle distance running: Athletes require both speed and endurance to gain benefit out of this training. The hard-working muscles are at their peak for a longer period of time as they are being used at that level for the longer period of time.
- Marathon: In this case, the athlete must be trained to work aerobically, and their endurance must be built-up to a maximum.

Many firefighters and police officers undergo regular fitness testing to determine if they are capable of the physically demanding tasks required of the job.

- > Members of armed forces are often required to pass a formal fitness test. For example, soldiers of the U.S. Army must be able to pass the Army Physical Fitness Test (APFT).
- > Hill sprints: Requires a high level of fitness to begin with; the exercise is particularly good for the leg muscles. The Army often trains to do mountain climbing and races.

Advantages of Physical fitness:

- > Controlling blood pressure
- > Cancer prevention
- > Inflammation
- > Immune system
- > Weight control

WHAT IS YOGA?

Yoga" also refers to an inner science comprising of a variety of methods through which human beings can realize this union and achieve mastery over their destiny. Yoga, being widely considered as an 'immortal cultural outcome' of Indus Saraswati Valley civilization – dating back to 2700 B.C., has proved itself catering to both material and spiritual upliftment of humanity. Basic humane values are at the very identity of Yoga Sadhana.

A BRIEF HISTORY AND DEVELOPMENT OF YOGA

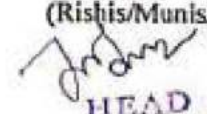

The practice of Yoga is believed to have started with the very dawn of civilization. The science of yoga has its origin thousands of years ago, long before the first religions or belief systems were born. In the yogic lore, Shiva is seen as the first yogi or Adiyogi, and the first Guru or Adi Guru.

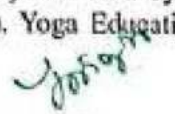

Several Thousand years ago, on the banks of the lake Kantisarovar in the Himalayas, Adiyogi poured his profound knowledge into the legendary Saptarishis or "seven sages". The sages carried this powerful yogic science to different parts of the world, including Asia, the Middle East, Northern Africa and South America. Interestingly, modern scholars have noted and marvelled at the close parallels found between ancient cultures across the globe. However, it was in India that the yogic system found its fullest expression. Agastya, the Saptarishi who travelled across the Indian subcontinent, crafted this culture around a core yogic way of life.

THE FUNDAMENTALS OF YOGA SADHANA

Yoga works on the level of one's body, mind, emotion and energy. This has given rise to four broad classifications of Yoga: karma yoga, where we utilize the body; bhakti yoga, where we utilize the emotions; gyana yoga, where we utilize the mind and 2ilful2ri; and kriya yoga, where we utilize the energy.

Each system of Yoga we practice would fall within the gamut of one or more of these categories. Every individual is a unique combination of these four factors. "All the ancient commentaries on Yoga have stressed that it is essential to work under the direction of a Guru." The reason being that only a Guru can mix the appropriate combination of the four fundamental paths, as is necessary for each seeker. Yoga Education: Traditionally, Yoga Education was imparted by knowledgeable, experienced, and wise persons in the families (comparable with the education imparted in convents in the west) and then by the Seers (Rishis/Munis/Acharyas) in Ashramas (compared with 2ilful2ries). Yoga Education, on the

other hand, aims at taking care of the individual, the 'Being'. It is presumed that a good, balanced, integrated, truthful, clean, transparent person will be more useful to oneself, family, society, nation, nature and humanity at large. Yoga education is 'Being oriented'. Details of working with 'being oriented' aspect have been outlined in various living traditions and texts and the method contributing to this important field is known as 'Yoga'.

Pranayama consists in developing awareness of one's breathing followed by 3ilful regulation of respiration as the functional or vital basis of one's existence. It helps in developing awareness of one's mind and helps to establish control over the mind. In the initial stages, this is done by developing awareness of the 'flow of in-breath and out-breath' (svasa-prasvasa) through nostrils, mouth and other body openings, its internal and external pathways and destinations. Later, this phenomenon is modified, through regulated, controlled and monitored inhalation (svasa) leading to the awareness of the body space/s getting filled (puraka), the space/s remaning in a filled state (kumbhaka) and it's getting emptied (rechaka) during regulated, controlled and monitored exhalation (prasvasa).

Conclusion:

Now-a-days, millions and millions of people across the globe have benefitted by the practice of Yoga which has been preserved and promoted by the great eminent Yoga Masters from ancient time to this date. The practice of Yoga is blossoming, and growing more vibrant every day.

HUMAN VALUES DEVELOPMENT PROGRAMME 2019-2020
REPORT

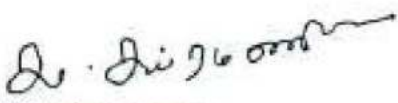

Venue: CRD- Block Seminar Hall

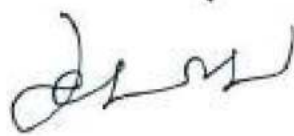

Date: 10.09.2019

Department of Mathematics organized Human Values Development programme on 10.09.2019. The programme began with the invocation followed by the welcome address by Dr. S. Subramaniam Head of Department of Mathematics

Dr. Senthil Kumar, Professor, Department of Mathematics, Rajah Serfoji Govt Arts College, Thanjavur was the resource person. He discussed with the students that basic human values refer to those values which are at the core of being human. They are essential for positive human behavior and actions in our daily lives. They are formed on the basis of interests, choices, needs, desires and preferences. Basic values are truth, honesty, loyalty, love and peace, because they bring out the fundamental goodness of human beings and society at large. Human values are integral part of one's personality and affects employability quotient.

Every Student gave good response to this interactive session. The programme ended with the vote of thanks delivered by Dr. P. Padma Assistant professor of Mathematics.

ABOUT LIFE SKILL DEVELOPMENT

The Life Skills Education aims to reinforce existing knowledge and positive attitudes and values along with the prevention of negative attitudes and risky behaviours. Life Skills Education contributes to the promotion of personal and social development and the prevention of health and social problems.

The Most Important Life Skills for

- Focus and Self-Control.
- Perspective-Taking.
- Communication.
- Making Connections.
- Critical Thinking.
- Taking on Challenges.
- Self-Directed, Engaged Learning.

Discuss appropriate manners and model them for youth. Show youth how to use tools and have older youth help you with home repairs. Develop a chore chart, and have youth help you think of all the chores that need to get done around the house. Once the chores are done, check them off the chart.

ABOUT LIFE SKILL DEVELOPMENT

The Life Skills Education aims to reinforce existing knowledge and positive attitudes and values along with the prevention of negative attitudes and risky behaviours. Life Skills Education contributes to the promotion of personal and social development and the prevention of health and social problems.

The 10 essential life skills are:

- Coping with emotions.
- Communication skills.
- Creative thinking.
- Critical thinking.
- Decision-making skills.
- Empathy.
- Interpersonal skills.
- Problem-solving skills.

In top industries like technology and finance, critical thinking skills are even more important than some technical and digital [hard skills](#). According to [PwC](#), 77% of employers in [financial services](#) say that critical thinking skills are crucial for their business, compared with digital skills at 70%. Critical thinking is one of the top five skills employers in technology are looking for, too, according to [Forage internal data](#), preceded only by [communication skills](#), data analysis, and Python

WHAT IS HEALTHY LIFE STYLE EXACTLY?

These five areas were chosen because prior studies have shown them to have large impact on risk of premature death. How are these healthy habits defined and measured.:

1. **Healthy diet**, which was calculated and rated based on the reported intake of healthy foods like vegetables, fruits, nuts, whole grains, sugar sweetened beverages, trans fat and sodium.
2. **Healthy physical activity level**, which was measured at least 30 minutes per day of moderate to vigorous activity daily.
3. **Healthy body weight**, defined as a normal body mass index (BMI) which is between 18.5 and 24.9
4. **Smoking well**, there is no healthy amount of smoking "Healthy" here meant never having smoked.

WHAT IS PERSONAL HYGIENE?

Good personal hygiene is about keeping your body clean. It also helps to protect you from getting infections such as gastroenteritis, colds, flu and COVID-19.

Washing your hand with soap removes germs that can make you ill. Having good personal hygiene will also help prevent you from spreading diseases to other people.

Personal hygiene includes:

- Cleaning your body every day
- Washing your hands with soap with water after going to toilet
- Brushing and flossing your teeth twice a day
- Covering your mouth and nose with a tissue when sneezing or coughing
- Washing your hands after handling pets and other animals.

WHY IS PERSONAL HYGIENE IMPORTANT?

Good personal hygiene is vital because it helps stop you from getting sick. It also helps stop you from spreading germs and infection diseases.

The germs that cause many diseases can be passed on by:

- touching other people
- getting faeces or other body fluids on your hands
- handling contaminated food
- coming into contact with dirty surfaces or objects.

Conditions that you can develop if you have poor personal hygiene include:

- COVID-19 and other infectious diseases
- Diarrhoea, especially, including colds and flu
- Respiratory infections, including colds and flu
- Scabies
- Staph infections.
- Tinea or athlete's foot
- Tooth decay
- Trachoma, an eye infection which can lead to blindness
- Threadworms and other worms.

WHAT IS SELF MANAGEMENT SKILLS?

Developing self-management skills requires a certain level of self-awareness—you need to know yourself before you can regulate yourself. Start slow and embrace the process, remembering that these skills are ongoing.

TYPES OF SELF MANAGEMENT SKILLS.

Time Management: Time management is when you control how you use your time. This means prioritizing your most important tasks first and managing your daily to-do list. A leader who has good time management skills can manage their time effectively without the need for external help.

Having good time management skills can help you stay engaged and avoid procrastination. As a leader, time management allows you enough time to both stay on top of your own work and empower others to do the same.

Self Motivation: Self motivation is your ability to get motivated and proactively accomplish daily tasks. It takes a certain level of personal responsibility, but practicing self-motivation can help you become more self-aware and prioritize.

Stress Management: Leaders often deal with stress, but to be good at self-management you need to embody healthy stress management. Without stress management, you can suffer from overwork and, eventually, burnout. Leaders with good stress management skills approach work in a focused manner by connecting their initiatives to larger goals.

Adaptability: Being adaptable means you have the confidence and ability to pivot when changes arise. This is especially important for leaders who work in a fast-paced environment where project changes occur often.

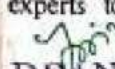

Decision making: To be effective, it's essential for leaders to develop decision-making skills that reduce confusion and increase team empowerment. Problem solving and addressing issues can help you grow your decision-making skills. Like all the skills we've looked at so far, decision making is something you can learn. Start by sharpening your critical thinking skills and learning how to analyze key information when problems arise.

Goal alignment: Setting goals means you prioritize the most important projects that have the highest impact on your business. This means being able to see the bigger picture and knowing what's best for your team members and organization. In the long run, this will generate better results and boost team morale.

Personal development: Personal development is key for all team members, but especially for leaders. In order to build your team's knowledge, you first need to build your own. This means taking the time to attend workshops, take courses, and connect with industry experts to develop your management skills.

A REPORT ON THE SEMINAR**

Topics: "Yoga and Meditation"

Date: August 19, 2019

Department of Biochemistry, PRIST University, organized a one-day event on "**Yoga and Meditation**" on August 19, 2019 in Seminar Hall-L. The purpose of this programme was to spread awareness about the importance and effects of yoga on the health of the people. The programme was started with welcome address by Dr. Bakrudeen Ali Ahmed, Professor, PRIST University. Ms. A. Manimegalai, Vedhathri Maharishi Yoga Centre, Thanjavur was the Chief Guest. She said yoga is an invaluable gift of India's ancient tradition. It embodies unity of mind and body; thought and action; restraint and fulfilment; harmony between man and nature; a holistic approach to health and well-being. It is not about exercise but to discover the sense of oneness with yourself, the world and the nature. By changing our lifestyle and creating consciousness, it can help us to lead a happy life. After the seminar he interacted with the students and clarify their doubts. Finally, Dr. G. Srithar, Assistant Professor, Department of Microbiology delivered a vote of thanks.

A REPORT ON THE SEMINAR**

Topics: Clean society

Date: January 31, 2020

Department of Biochemistry, PRIST University, organized a one-day seminar on "Clean society" on January 31, 2020 in Seminar Hall. The seminar focused on clean society. Dr. Bakrudeen Ali Ahmed, Professor, delivered a presentation on cleanliness. We are all familiar with the proverb "cleanliness is next to Godliness," which implies that God dwells in clean environments. Many individuals desire to maintain cleanliness in their homes; however they recklessly dispose of their household waste on the streets, posing harm to the environment. Cleanliness can be achieved through various means. Personal cleanliness refers to the practice of maintaining personal hygiene by engaging in daily activities such as brushing teeth twice a day, taking a daily bath, keeping hair neat, making the bed, cleaning the cupboard, wearing clean clothes, avoiding unhealthy food, organising the reading desk and keeping the room clean. Regular handwashing can enhance cognitive clarity and help reduce the transmission of infections. A pristine environment inherently enhances our self-assurance. Cleanliness bestows a rejuvenating and aesthetically pleasing appearance upon our surroundings. After the seminar he interacted with the students and clarify their doubts. Finally, Dr. S. Sathishkumar, Assistant Professor, Department of Biochemistry delivered a vote of thanks.

Report on ‘ImmunFest – 2022’

Introduction

International Day of Immunology

The purpose is to use immunology to fight the major health challenges in India. Day of Immunology (DoI) was held for the **first time on April 29th, 2005** by the European Federation of Immunological Societies (EFIS). The foundation of the day was to fortify immunology as the root for the overall health and well-being of an individual among the public and scientific community.

Highlights

- The immune system is the key to the body’s defense against infections
- To signify the importance of immunity, April 29th is marked as the International Day of Immunology with 2022 theme — “Vaccines”
- The international day serves as a bridge between understanding the immune system and raising global awareness of immunology

An Immunology Day Poster Presentation Fest 'ImmunFest – 2022' was jointly organized by School of Arts and Science, Department of Lifescience, PRIST University on 29th April, 2022. An advertisement in this regard was given in the University social network groups (via WhatsApp) during the third week of April. We have given four main themes from the Immunology i) Vaccinology ii) Autoimmune Disease iii) Infectious Disease and iv) Covid – 19 for the poster / chart presentation.

Proceedings

Opening session

The opening session was addressed by Dr. L. Chinnapa, Dean, School of Arts and Science, PRIST University, Thanjavur. A total of 150 students participated in the event, including 12 faculties from Department of Life Science. The students were presented the scientific posters in an appropriate theme (i) Vaccinology ii) Autoimmune Disease iii) Infectious Disease and iv) Covid – 19)

Session – 1 & 2

In inaugural speech Dean sir highlighted how much the medical posters are important and beneficial to a student as well as to the public and said, it stands to be very useful for understanding the different & elaborative topics of Medical sciences.

The students participated, showed positive involvement and smoothly defended their posters in front of the Judges viz. Dr. R. Arunkumar and Dr. Arjun Pandiyan. The overall event was successful and admired in the university. It stood to be beneficial to memorize & update an **Immunology Day**.

ONE DAY SEMINAR ON CYANOBACTERIA BASED BIO-PLASTICS: FUTURE OF GREEN ECONOMY

Seminar Report

Introduction

The purpose of this seminar to provide elaborate knowledge to students for update advance technology for their study. Moreover, the students need industrial oriented practice for their future carrier. Cyanobacteria based Bio-Plastics: Future of Green Economy, as the title suggests, takes the science of cyanobacteria and applies bio-plastic it to real life needs, creating biological products and also green economy. Biological technicians work in the research process of Biotechnology, Microbiology and Biochemistry to assisting scientists in the laboratory.

Highlights

- ✓ Cyanobacteria: The key for making bioplastic
- ✓ Applications of cyanobacteria for various product
- ✓ Economic value of Bio-plastic
- ✓ Environmental viability of algae based bio-plastic

SEMINAR REPORT

One day seminar on Cyanobacteria based Bio-Plastics: Future of Green Economy, held on 27.09.2022 at 12-1.30 pm at CRD Block, Seminar Hall, PRIST UNIVERSITY, the invited resource person Dr. R. ANBURAJ, Associate Professor, PG and Research Department of Biotechnology, National College (Autonomous), Thiruchirappalli, Tamil Nadu. Organized by Dr. T. VEERAMANI, Assistant Professor, Department of Biotechnology, School of Life Science, PRIST UNIVERSITY, Vallam Thanjavur, Tamil Nadu. Welcome address given by Dr. S. Ambiga, Associate Professor and HOD, Department of Biochemistry, Prist University, Presidential address given by Dr. L. CHINNAPPA, Dean, School of Arts and Science, Prist University, Introduction to the chief Guest given by Dr. T. VEERAMANI, Assistant Professor, Department of Biotechnology, Prist University. The lecturer explain about impact of plastics pollution, various benefit of cyanobacteria, Bio-Plastic preparation from cyanobacteria, advance technology for producing cyanobacteria, control of plastic pollution in terrestrial and aquatic environments. Totally 163 participants (Faculty and students) are participated, during the presentation, the participants are interacted with chief guest and the professor explained clearly to the participants, Vote of thanks given by Dr. J. Illamathi, Assistant Professor and HOD, Department of Biotechnology, Prist University, finally the session attention for National anthem.

LIFE SKILLS-ENTREPRENEUR DEVELOPMENT

Mr.Vivek explained all the processes that were involved in "Entrepreneur Development". Entrepreneurship is a subject that refers to designing and running your own business. It is about offering a different and innovative product or a service to targeted customers or maybe changing the traditional ways of consumption of products or services. With technology impacting almost everyone today in every corner of the world, entrepreneurs are making the most of it. It may concern your grocery delivery, taxi services, food delivery, financial services everything is being offered by the new generation entrepreneurs directly on their mobile. In the study of entrepreneurship, one would be reading about how to solve the real problems or the gaps that still exist in the life of people. Not to mention that entrepreneurship is the emerging career option.

7 STEPS TO BECOMING AN ENTREPRENEUR

- Build Your Skill Set and Knowledge Base. No matter what, you want to start and stay curious.
- Build Your Network. No one ever succeeded alone.
- State Your Idea, Claim Your Niche.
- Find and Understand a Market.
- Design Your Business and Idea.
- Secure Funding.
- Build Your Business.

CONCLUSION : The lecture was of great success. It helps students to know about something new and prepare themselves for something innovative & new. The lecture came to an end of thanks by the professor

REPORT ON HEALTH AND FITNESS

Department of mathematics conducted Health and fitness on 12.08.2022 to attain the following objectives

Physical Development.

Mental Development.

Social Development.

This programme started with a welcome address by Dr.S.Subramanian, Head of the Department of Mathematics, Dr.L.Chinnappa, Dean of school of arts and science gave special address. Dr.S.Subramanin, Head of the Department of Mathematics gave the Guest Introduction. Dr.Robert Alexander gave a lecture on health and fitness.

Some of his words:

A healthy body and mind are essential to achieve complete wellbeing. If we are healthy, we can resist our bodies from being attacked by germs. Our bodies are really sensitive and therefore, must be handled with necessary precautions. We can develop healthy habits like eating and sleeping on time to boost our overall health. This helps in becoming a healthier version of ourselves. Holistic growth can be achieved if we focus on all the aspects of our health. Such as nutrition, wellness, spirituality, and mental health. There are plenty of exercises that will boost our physical health and help us to become stronger. A stronger body would lead to less fatigue while performing any activity. It is advised that we must exercise for at least 2 hours every day for better health. We can even join fitness classes to take professional help and practice the art of health and wellness in a better way.

LIFE SKILLS-ENTREPRENEUR DEVELOPMENT

Mr.Vivek explained all the processes that were involved in "Entrepreneur Development". Entrepreneurship is a subject that refers to designing and running your own business. It is about offering a different and innovative product or a service to targeted customers or maybe changing the traditional ways of consumption of products or services. With technology impacting almost everyone today in every corner of the world, entrepreneurs are making the most of it. It may concern your grocery delivery, taxi services, food delivery, financial services everything is being offered by the new generation entrepreneurs directly on their mobile. In the study of entrepreneurship, one would be reading about how to solve the real problems or the gaps that still exist in the life of people. Not to mention that entrepreneurship is the emerging career option.

7 STEPS TO BECOMING AN ENTREPRENEUR

- Build Your Skill Set and Knowledge Base. No matter what, you want to start and stay curious.
- Build Your Network. No one ever succeeded alone.
- State Your Idea, Claim Your Niche.
- Find and Understand a Market.
- Design Your Business and Idea.
- Secure Funding.
- Build Your Business.

CONCLUSION : The lecture was of great success. It helps students to know about something new and prepare themselves for something innovative & new. The lecture came to an end of thanks by the professor

International Yoga Day 2023 Theme: The 9th edition of Yoga Day is being celebrated with great enthusiasm all over the globe. International Yoga Day on June 21, celebrates the ancient practice of yoga and its global significance. Established by the United Nations, this day aims to raise awareness about the physical, mental, and spiritual benefits of practising yoga. With millions of people around the world participating in various yoga activities and events, International Yoga Day serves as a reminder of the universal appeal and transformative power of this ancient practice.

International Yoga Day 2023 is celebrated every year on **June 21st** to promote the numerous benefits of practicing yoga. The chosen date coincides with the summer solstice, the longest day of the year in the Northern Hemisphere. This day serves as a platform to raise awareness about the holistic approach to well-being that yoga offers. It highlights the importance of finding balance in our fast-paced, modern lives and encourages physical, mental, and spiritual harmony. Yoga fosters mindfulness, stress reduction, and overall health and vitality. In its **9th edition**, this year's International Day of Yoga will be led by Prime Minister Narendra Modi at the UN Headquarters on June 21st. This marks the first time a yoga session will be conducted by the Prime Minister at this location.

REPORT ON HEALTH AND FITNESS

Department of mathematics conducted Health and fitness on 12.08.2022 to attain the following objectives

- Physical Development.
- Mental Development.
- Social Development.

This programme started with a welcome address by Dr.S.Subramanian, Head of the Department of Mathematics, Dr.L.Chinnappa, Dean of school of arts and science gave special address. Dr.S.Subramanin, Head of the Department of Mathematics gave the Guest Introduction. Dr.Robert Alexander gave a lecture on health and fitness.

Some of his words:

A healthy body and mind are essential to achieve complete wellbeing. If we are healthy, we can resist our bodies from being attacked by germs. Our bodies are really sensitive and therefore, must be handled with necessary precautions. We can develop healthy habits like eating and sleeping on time to boost our overall health. This helps in becoming a healthier version of ourselves. Holistic growth can be achieved if we focus on all the aspects of our health. Such as nutrition, wellness, spirituality, and mental health. There are plenty of exercises that will boost our physical health and help us to become stronger. A stronger body would lead to less fatigue while performing any activity. It is advised that we must exercise for at least 2 hours every day for better health. We can even join fitness classes to take professional help and practice the art of health and wellness in a better way.

About the Department

The School of Education was established in the year 2008 in our esteemed institution with experienced and efficient faculty members. Since School of Education plays a vital role in all branches of education, all faculty members of our department put all possible efforts to make the future teachers very efficient and excellent in all walks of their career. We are following a wonderful system to achieve this goal as per the advice and guidance from our Chairman, Vice-Chancellor, Registrar, Dean and Managers. Now there are twenty four faculty members and two non-teaching staff in our department. Ten faculties has been awarded Ph.D., and two faculties are pursuing Ph.D.. Also the Department of Education acts as the Local Examination Cell and the staff members are un-tiredly working for the smooth functioning of the Department activities.

Our department believes in activity based teaching and students are enhanced by us to improve their language skills. The art of teaching and learning process will lead the students to practice English by constant speaking. Students are being given practice for their progress in career advancement. Our department works tirelessly for PRIST University results and also for professional progression. Training & Placement course and literary club activities are rendered in our university to make the students adorable..

About the Program:

- One day program on 21/06/2023
- The main goals in teaching modern physical education are: To expose children and teens to a wide variety of exercise and healthy activities. Because P.E. can be accessible to nearly all children, it is one of the only opportunities that can guarantee beneficial and healthy activity in children.

Objectives of the Program:

- The main objectives of physical education are to: develop motor abilities like strength, speed, endurance, coordination, flexibility, agility and balance, as they are important aspects for good performance in different games and sports.
- Regular physical activity is proven to help prevent and manage non communicable diseases such as heart disease, stroke, diabetes and several cancers. It also helps prevent hypertension, maintain healthy body weight and can improve mental health, quality of life and well-being.

Benefits of this Program:

- Regular engagement in physical activities helps students develop muscular strength, endurance, flexibility, and cardiovascular fitness.
- It also aids in the maintenance of healthy body weight, reduces the risk of obesity, and enhances motor skills and coordination..

About the Department

The School of Education was established in the year 2008 in our esteemed institution with experienced and efficient faculty members. Since School of Education plays a vital role in all branches of education, all faculty members of our department put all possible efforts to make the future teachers very efficient and excellent in all walks of their career. We are following a wonderful system to achieve this goal as per the advice and guidance from our Chairman, Vice-Chancellor, Registrar, Dean and Managers. Now there are twenty four faculty members and two non-teaching staff in our department. Ten faculties has been awarded Ph.D., and two faculties are pursuing Ph.D., Also the Department of Education acts as the Local Examination Cell and the staff members are un-tirelessly working for the smooth functioning of the Department activities.

Our department believes in activity based teaching and students are enhanced by us to improve their language skills. The art of teaching and learning process will lead the students to practice English by constant speaking. Students are being given practice for their progress in career advancement. Our department works tirelessly for PRIST University results and also for professional progression. About the Programme

- One day program on 18/11/2022
- The stress management meaning is to reduce the negative impacts caused by stress and to improve a person's physical and mental well-being. Stress management may include self-care, managing one's response to stress, and making changes to one's life when in a stressful situation.

Objectives of the Programme

Emotion regulation" is a term generally used to describe a person's ability to effectively manage and respond to an emotional experience.

The emotional appraisal and regulation processes are linked to stress mechanisms. Acute and social stressors lead to the engagement of maladaptive emotion regulation strategies such as worry and rumination. Thus, the chronic use of these strategies might in turn augment the stress response.

Benefits of this Programme:

Why is emotional regulation so important? Aside from the more obvious benefits, such as feeling better in the immediate term, strong emotional regulation skills can also enhance long-term wellbeing, improve performance at work, enrich personal relationships, and even lead to better overall health.

A REPORT ON THE SEMINAR 31.01.2023

Topics: Clean society

Department of Biochemistry, Ponnaiyah Ramajayam Institute of Science & Technology (PRIST), organized a one-day seminar on "Clean society" on January 31, 2023 in Seminar Hall-I. The seminar focused on Clean society.

The dignitaries on the dias were Dr. L. CHINNAPPA, Ph.D., Dean, School of Arts and Science, Dr.S.Sathishkumar, Assistant Professor, Department of Biochemistry, Dr. A.BAKRUDEEN ALI AHMED, Ph.D., Professor and Scientist, Dr. S. AMBIGA, Ph.D., Head, Department of Biochemistry, Dr.N.Gnanasekaran, Assistant Professor, Dr.T.Veeramani, Associate Professor, Department of Biotechnology, Dr.R.Sathya, Assistant Professor, Department of Microbiology, Ponnaiyah Ramajayam Institute of Science and Technology. The programme started at 10:00 am with the welcome address by Dr.T.Veeramani, Ph.D., Dr. L. CHINNAPPA, Ph.D., Dean, School of Arts and Science delivered an Inaugural address about the seminar. Dr.Bakrudeen Ali Ahmed, Assistant Professor, PRIST University delivered the Felicitation about the seminar.

Dr.S.Sathishkumar, Assistant Professor, gave lecture about cleanness, we have all heard of the saying cleanliness is next to Godliness, which means it is in clean places that God resides. Many would line to keep their houses clean but throw their house hold waste into the streets irresponsibly, which is harmful to the environment, cleanliness can be explored on many levels. Personal cleanliness means maintain personal hygiene on day to day basis in the ways like brushing your teeth twice a day, taking bath every day, keeping your hair tidy, making up your bed, cleaning your cupboard, wearing clean clothes by avoiding junk food, tidying up your reading desk and keeping your room clean. It promotes mental clarity; regular handwashing can prevent the spread of infections. A clean environment automatically boosts our self-confidence, cleanliness gives a fresh and good look to our surrounding. After the seminar he interacted with the students and clarify their doubts. Finally, Dr.N.Mahalaskmi, Ph.D., Assistant Professor, Department of Microbiology delivered a vote of thanks.
